"Resolved, That the report be adopted, published and circulated for the information of the public."

In an earnest speech he mentioned the frequency of the sight of men under the influence of liquor in Halifax and compared it with Chicago, where such a sight is seldom seen, owing to the vigilance of the police. He spoke of the debasing influence of the sale of intoxicants upon those engaged in the husiness, and asked for prayer in their behalf, concluding with hearty words of appreciation for the work of the W. C. T. J. The motion was seconded by Mrs. Cornell and carried. Resolution moved by Mrs. Rogers:

week a summary statement of the trade of this port for the month of January. The export list is especially interesting. It includes a large amount of goods from the west for export, but not all. It does not include any United States goods, of which a great deal has come forward, nor any that was entered at any western customs house. It includes the Canadian goods not elsewhere entered of one of the steamers that sailed in the last days of December, as the list of cargo was not fully reported at the customs until January had come in. The list of exports set forth in the statement is yalued at \$544,353, compared with \$162,5610 in January 1894. But, as above shown, it is not yet a complete statement of the month's trade. The total imports last month were \$7,672 less than in January 1894. Following is the lettall.

THE DEATH OF MR. LYONS, Q. C. pared with 321 for McKeen. A despatch to the Daily Sun of Wednesday, 5th inst., announced the death of J. N. Lyons, Q. C., of Halifax. Mr. Lyons was a brother of John Lyons general passenger agent of the Inter-colonial railway. The Halifax Herald

Mr. Lyons has long been in failing health, spending much of his time during the past couple of years in the United States seeking benefit from a different climate. Death has now come to him at the early age of 43 years, indeed he would not have reached that age until aext June. He was one of the brightest lights of the Nova Scotia bar, studying law first with the late Sir John Thompson, having previously been a school teacher. Mr. Lyons received his first bassons in orstory with the Y M. L. A., of which organization he was a faithful member, and at whose dramatic entertainments he was one of the best orstors. The Charitable Irish society numbered him as one of its members. He was appointed Q: C. after a brilliant course in the courts. For gir years he represented ward 5 as a member of the city souncil, leaving his mark for good in the city's government. He was a candidate for the mayoralty and for the local legislature in the liberal conservative interest. Mr. Lyons married Miss Purcell, who survives him, and he leaves also several children. says:

Sydney, C. B., Feb. 4.—When Sir Charles Tupper's candidature for Cape Broton was announced the liberal leaders promised to make this not only "the fight of his life" but also "a fight for his life." And they have kept their promise. Today Sir Charles Tupper Baronet, today by the people of Cape Breton county, the first time he has been in the county for eighteen years, and the third time he ever was in the county. He came here less than a fortnight ago and placed himself in the hands of the people. He was under a great disadvantage from the outset, as previously outlined in my despatches, would have been a great victory. His election by over eight hundred, in spite of these obstacles, is an overwhelming triumph, and is equivalent under normal conditions and a fair contest to fifteen hundred majority.

The polls, so far heard from, are:
