The Outlook in Westmorland.
Never before has the tide of public feeling run so strongly against Mr. Emerson as in the present campaign. On the 21st of September it will take more than the vote of the I. C. R. at Moncton to return Mr. Emerson to power. "I cannot but be gratified," said a Sackville citizen last evening, "because he thinks that he must support the reciprocity pact not because it is in accordance with his own ideas of public prosperity, but because it is the chief plank in the platform of the present administration. We, who have listened to Mr. Emerson, are fully aware that he does not agree with his party." The town of Sackville which hitherto has given the Liberal party a large majority, will in the coming election support Mr. Siddall.

MEETING OF WATER BOARD

LANCASTER WATER SHORTAGE WAS THE PRINCIPAL SUBJECT OF DISCUSSION AT MEETING HELD YESTERDAY AFTERNOON.

At the meeting of the water and sewerage board yesterday complaints were made about the water service on Lancaster Heights, but it was decided to do nothing pending the laying of the main in Watson street. It was decided to recommend the council to instruct the engineer to make a trial of what is called the dual water service on the East Side, the object being to see if a better pressure can be secured on Mount Pleasant. The other business was of a routine nature.

Ald. Wigmore presided, and there were present Ald. Codner, Scully, Blin, Hayes, C. T. Jones, Smith, and the mayor, the common clerk, and the city engineer.

A delegation from Lancaster was heard in connection with the water service there. Geo. Maxwell said the water service on the heights was worse than it ever was, and unless a better service was given, many houses would have to be closed.

John Montgomery said many people on Lancaster Heights had suffered considerable financial loss on account of the shortage of water, and their property had no protection from fire. He thought the service should be improved, or the residents relieved of water rates.

Ald. Ellis—How long has this trouble been going on?
Mr. Montgomery—About 3 years. When I first went there 6 years ago, there was an abundant supply. Now I can only get water for about an hour on Sunday evenings.

Homer Cruikshank said he was unable to get water for his green houses and 2500 cucumbers had been lost. To the mayor he said that when the pump mill was not working, he got a fair pressure in his house.

Ald. Hayes wanted to know whether the residents would be asked to pay 50 per cent. of the extra cost of operating a pump on the heights.
Mr. Maxwell—The question is why should we pay for what we are not getting?
Smith said he was an advocate of the pump, but had kicked against increasing the rates 50 per cent.

B., and bounded as follows:—Beginning at the northern end of the said parcel, at the intersection of the northern line of the said parcel with the eastern line of the said parcel, and extending easterly along the said eastern line a distance of forty-two (42) feet, thence southerly along the said eastern line a distance of forty-two (42) feet, thence westerly along the said western line a distance of forty-two (42) feet, thence northerly along the said northern line a distance of forty-two (42) feet, to the beginning of the said parcel.

Those who "call themselves Liberals and oppose the reciprocity pact" are told that "no matter how sincere they are, they have really not been Liberals, although they may believe they are." That is to say, men like Hon. Clifford Sifton, Sir George Ross, Senator McMullen, Lieutenant-Governor Cameron, Sir Edmund Walker, W. M. German, Lloyd Harris, ex-Lieutenant - Governor Sir Mortimore Clark and a host of others never were Liberals. They merely thought they were Liberals. How humorous these partisan newspapers can be!
