some of my objects to trace out these, in of my objects to trace out these hindrances to Japanese trade here and seek a method of overcoming them."

Dr. Yamanouchi stated that it was his mission to investigate fully the details of trade between the two countries. Thus, it was his intention to point out to Japanese manufacturers the qualities, types and other characteristics of Japanese goods that could profitably be used in Canada and at the same time to indicate the possibilities for economy or the other advantages to the people of Japan of the used certain Canadian products.

The Doctor stated that he had object to the courtesy of the business men and the people generally. He will atop another week in Winnipeg and thence proceed to the larger centres of the East. He will return to Vancouver via the United States some time in June or July when he will embark for Japan and make his report to his government. Montreal Lournal of Commerce.

SAVINGS BANKS
DEPOSITS GROW.
Melbourne, Australia—Notwithstanding the competition of the Commonwealth Bank, which opened its savings bank branch in 1912, the amount at credit of depositors in the state savings banks of all the states of Australia has increased in the three years by nearly £14,000,000, and now approximates £81,000,000. The excess of deposits over withdrawals in the month of November, 1914, amounted to £368,583.

BOSTON 6

BOSTON & MAINE NOTE EXTENSION

In connection with the extension of the \$23,000,000 Boston & Maine notes maturing March 2, 1915, President Hustis says: "The action of the note holders up to the close of business last night was very gratifying.

"Advices this morning indicate that noteholders are awake to the situation." The success of the plan requires that all who have not herotofore indicated their desire to accept either of the two plans for the extension of the notes, should do so at once, if a receivership on March 2 is to be avoided."

The steamer Olaf arrived at Clentusces on the 23rd and will sail from that port on the 27rd for St. John.
