Manchu Rule Seems Doomed

Warships Without Stores Since Arsenal Was Captured

Revolutionaries Maintaining Order in Shanghai and the British Withdraw Guards from Railway—Republic is the Aim of Insurgents.

Shanghai, Nov. 5.—The first night after the capitulation of the city to the revolutionaries passed uneventfully. Perfect order was maintained in Shanghai and the outlying districts, which constitutes a remarkable feat, the movement.

Li Ping Shu is the responsible head of the new administration in the native city and suburbs, and is now engaged in completing his organization. He informed the corporation that he recognized only the "Republic of Han" and would guarantee order.

The only disorderly elements, he said, now in China, are the former officials, their supporters and the Manchu troops, who would never again be permitted to social.

There is reason to believe that the revolutionary sentiment throughout the south strongly favors the unconditional abdication of the emperor and the establishment of an entirely new regime.

Plan a Republic. The present plans for a republic include complete control of the Yang Tze Kiang.

Huang Sing, the revolutionary leader in the Yang Tze Delta, arrived in the native city of Shanghai by motor boat today.

Last night the rebels succeeded in satisfying the officials of the Nanking Shanghai Railway that they were capable of preserving order and the foreign guard which has been placed at the railway station by order of the British consul was withdrawn.

The serving out of arms continued today but applicants were so numerous that the leaders were forced to make careful discrimination.

More Places Fall. The remainder of Admiral Sals' fleet has arrived at Wu Sung without incident and without provisions.
