

The Engineering Undergrads Are Doing Well

By ANDY STEEVES

Well, the fall term is well underway now and we find the EUS (Engineering Undergraduate Society) council hard at work detailing strategy for this year. Such events as Big Brother Night, The Engineer's Smoker, and Engineering Week has been in the planning stages for a long while now, while the 'Iron Ring' Yearbook, the 'Godivan' scandal sheet and the various pubs are just now being organized. All of these programmes require your head (no matter how hamfisted you are) so get out of the shadows and volunteer!

As these very words are being written a seething debate is taking place regarding the feasibility of

attempting a 'Godiva's Gallop' for 1976. The problem, as always, is finding a 'Godiva'; horses and peasants are easy to obtain but a plague of shyness has kept Godiva volunteers to an absolute minimum (i.e. zero) So, ladies, if you wish to experience admiration in its purest, most powerful and most primitive form **Come on Down to Head Hall** and contact any of the EUS staff! You will not only be doing yourself a favour but you will also effectively stifle the small lobby which wishes to see Vice-President Gus Beattie take the reins and go bare-back! The suggestion (obviously the work of dubious persons unknown) does not make sense in any sense because no amount of padding could make

Gus look any better than Roy Rogers, let alone Dale Evans, let alone Ms. Godiva. Nice try guys but Gus will get ya for that!

Speaking of Gus Beattie immediately brings to mind the great pubs he and his staff organized last year. Rumour has it that this year's pub season will be better than ever, which means that tickets will sell quickly and be hard to get at the door. Ditto for the EUS Movies, the times and features of which are posted throughout the campus.

Speaking of movies, be sure to get your tickets early for the Engineer's Smoker. It's always a disgusting bash and extremely popular.

Disgusting is only one of the

many words used to describe the 'Godivan' which is the Engineer's version of 'The Brunswickan', The 'Daily Gleaner' and 'Penthouse forum' rolled into one. Last year's editor, Allana Baird, (or was it Nancy Lynch?) and her staff put out an excellent publication that often was the best thing on campus.

Best is the unofficial motto of this year's EUS council, but the

'Best' can even be made better with your head. Contact Alanna Baird, Lauri Corbett, yours truly, or any of the other EUS members and hangers-on, we'll be glad to put you to work. **Come on Down!**

Do you have any Engineer's news, jokes scandal or vicious invendo? If so contact me, Andy Steeves, in the Hall of Head or at The Brunswickan office and I'll try to accommodate your requests.

A hearty greeting to all our old friends, both student body and faculty, and a personal welcome to the newcomers to our University.

We hope you'll all enjoy your stay in our City, and that the new arrivals will be made to feel happily at home.

Our very best wishes for your future success, and a sincere invitation to come in, so that we can say "Hello", and "Glad to know you" in person.
