Rev. J. J. Oke,

Dear Mr. Oke:-

Your letter of the 23rd. instant, was brought to the attention of our Mr. Boyd, and he requested me to advise you that we are prepared to supply you with the power required for the lighting of your Mission House.

He, however, asked that before any action is taken on this matter, that you receive authorization from the Hydro Electric Power Commission permitting us to supply your house with power.

After receiving authorization from the Hydro Commission we would agree to supply power to your home for lighting purposes only, during the time you reside in that house at no cost.

Yours very truly,
