If you and your neighbors are going to build a rural telephone system, it will pay you to install high-class apparatus There will be less trouble and annoyance, and the cost of maintenance will be lower. Canadian Independent Telephones and construction materials are made in our plant in Toronto. They may cost you a little more than some others, but they're certainly worth the difference. Every phone is guaranteed for 10 years. Send for "Canada and the Telephone," our very interesting new book, containing 32 pictures, showing necessity of the telephone on the farm.

Canadian Independent Telephone 24 DUNCAN STREET, TORONTO, ONT.

ticles on which it is intended that both tricles on which it is intended that both countries shall make considerable tar-iff reductions. Schedule D includes articles on which Canada alone is will-ing to make the reductions indicated That Canada is likely to gain the most is shown by the fact that the United States is now willing to allow in at low. er rates just 91 per cent of all good States is now willing to allow in at low-er rates just 91 per cent. of all goods formerly dutiable we supply her, worth \$47,332,000, while we allow in at lower rates just 36 per cent. of all goods for-merly dutiable that the United States has sunpliad us with worth \$47,828. merty dutiable that the United States has supplied us with worth \$47,823, 000. We have imported much years from the United States relatively that the States has from us, which makes the total values about the same. Un-der the new arrangement, with 91 per cent. of our goods admitted to the States free, our exports are likely to increase much more ranidly than the exports of the United States to us.
