HOLSTEIN-FRIESIAN NEWS

Farm and Dairy is the official organ of The Holstein-Friesian Association, all of whose members are readers of the paper. Members of the Association are invited to send items of interest to Holstein breeders for publication in this column.

NOTEWORTHY HOLSTEINS AT PUBLIC AUCTION

Some breeders are going to get great big value for their money no matter what they pay for the stock, from the Hillcrest Stock Farm, owned by G. A. Brethen, Norwood, Ont., which will be sold without reserve at the forthcoming Consignment Sale at Belleville, April 7th, which sale is being run under the auspices of the Belleville District Holstein Breeders' Club. Ten cows from two to five years old, of which Mr. Brethen will offer, are as uniform a lot as we have ever seen in one stable. They are richly bred, everyone of them is of good individuality, and every one has been tested officially and made splendid records, some of them going up to 15.5 lbs. of butter in seven days. These cows are the present time and returning Mr. Brethen each over \$1 per day for their milk, which is shipped to the city. Those cows are the best of the kind (if others will let him have them) the greatest opportunity that has yet been available in this country to start right with a young, uniform herd, and which in every way, and of the richest breeding obtainable.

It is with some degree of reluctance that Mr. Brethen will part with these 10 splendid cows. He has a young herd, mostly heifers from these cows, which will take their place. Mr. Brethen believes that there are breeders in this country who want good cows, the best obtainable and who will go after these cattle when offered the opportunity of buying them. He believes that his best will receive recognition, and as it is their due, at the sale and it is his best, he is offering.

In addition to the 10 females, Mr. Brethen will also sell three bull calves from his noted sire "Pontiac Hercules." The dams of these calves are in the sale and Pontiac will be on exhibition at the sale, so intending purchasers will be able to satisfy themselves as to the individuality and the splendid backing, which these calves have.

Pontiac Hercules is sure to interest every breeder of Holstein cattle. He is bred by the world famous champion Holstein bull Hengerveld De Kol, which bull has 64 daughters that have made up to 15 lbs. of butter each in seven days. The world's champion junior three year old heifer, Bloomsdale Hengerveld Ormsby, is a half sister to Pontiac. He is three-quarters the same blood as Pontiac Artis, a cow which made 1.075 lbs. butter in one year, which is the second largest record for butter of any cow in the world. In breeding, in individuality in all that makes a bull a satisfactory sire, Pontiac seems like the requirements of the most exacting. The cows offered at this sale will all have been rebred to this great sire.

THE THREE BULL CALVES Mr. Brethen offers, bred by Pontiac, are out of officially tested cows. One of these calves is from a 17.5 lb. year old that is milking up to 67 lbs. of milk in one day with her first calf. Another of the bulls is out of a three year old, of the May Echo family, she has milked up to 73 lbs. in one day with second calf. The dam of the other bull calf is a great producer of show test and is making a good record in the Government Record of Performance year test.

All of the ten cows, which Mr. Brethen offers, are young, clean and right every way. They are an exceptionally uniform bunch and are of the low-down, approved dairy type. All have straight top lines. Not a one of them is a "drooper" and all have well balanced udders, nicely placed teats and are easily milked. Mr. Brethen has given special attention to having only those cows such as have level udders with well developed fore-udders.

\$1.00 PER COW, PER DAY
It should be noted that these cows have been run on good business principles. The surplus milk from the herd goes to the City Dairy, Toronto. Eight of these ten which will be sold at Belleville, 3 two-year-olds, 3 three-year-olds, a four-year-old, and a five-year-old, have averaged each a cash return of over \$1 per day

(Continued on page 27)

Hill-Crest Holsteins

My offerings at the forthcoming

BELLEVILLE CONSIGNMENT SALE

includes ten Cows officially tested, and three

bull calves all of them are

CHOICE AND MOST HIGHLY BRED

PONTIAC HERMES—My herd leader, the

great son of the World Champion A.R.O.

sire "Hengerveld De Kol," will be on exhibi-

tion at the sale, and is a bull of

strong individuality and superior breed-

ing. His calves are mostly heifers.

Ten females between two and five years

old straight clean, with large well-balanced

udders, good teats and are easily milk-

ed will be sold. These heifers have all

been recently officially tested, not one

made less than 15½ lbs. of butter and 42

lbs. milk in 7 days, two two-year-olds aver-

aged 18 lbs. of butter each in 7 days and

milked up to 67 lbs. in one day. Each of

these in butters has exceeded 10 lbs. a

day. They have been rebred to Pontiac

Hermes. I offer them because I have a

younger herd in my stables to take their

place.

Three bull calves, by Pontiac Hermes,

thus being grandsons of Hengerveld De

Kol, are offered in the sale that I may

demonstrate to Holstein breeders that

showing quality and production are

combined in the stuff I breed.

I have been told by no less a man than

A. C. Stallman, that my Holsteins are too

good to offer at a public sale. I believe

that people are after good stuff and I

am prepared to leave it to them to say

what price they will pay for the breed-

ing—the purple Holsteins I offer.
