ONTARIO

HALLBURTON CO. ONT.
WINDSOR, Sept. 30—The village of Windron held their annual fair on Sept. 29. It was a great success in every way. Fine weather brought large crowds from all about the district. The grounds presented an animated scene with the rapidly moving crowd. Live stock was shown in great numbers by the exhibitors. Aberdeen-Angus and Herefords and a large number of grades being shown. Several flocks sheep counted for the liberal prizes. The showing of swine was large and of good quality. Some excellent specimens of poultry were also exhibited. In the hall vegetables were very ably displayed (the exhibit of cauliflower and celery could not well be beaten) and the entries were well filled, thus showing the interest taken. The Women's Institute and school exhibits were two of the main features of the hall. Unusually fancy work, paintings, brass and burnt wood work made an attractive display.—J. A. S.T.

WELLINGTON CO. ONT.
GUELPH, Oct. 1—Fall work is progressing rapidly to the fine weather affords the most condition of the soil, plowing and sowing. The present high price of grain is stimulating farmers to give a larger acreage for next year's crop. An unusually large amount of fall wheat has been sowed, and the crop is making a good growth. Our first killing frost occurred on Sept. 26th, cutting down tender vegetables and corn and potatoes in a few places. Most silos, however, were filled before this date.—O. S. N.

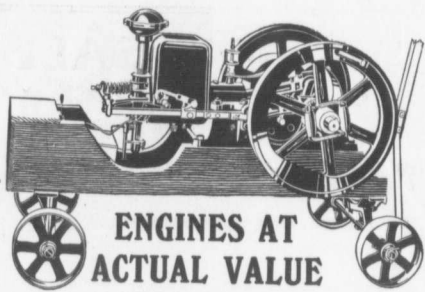

OXFORD CO. ONT.
WOODSTOCK, Oct. 7—We are having fine weather but very dry and warm. Everything is busy threshing, silo filling and taking up manure and potatoes. All roots are good. Grain is turning out much better than a great many expected. Oats, where the rust did not strike them, are good and heavy, but where they rusted they are very light. Cows are doing very well. Pastures are fairly good and people do not depend on pasture alone as most of them feed the cattle all summer so they are in good condition all the time. Buckers are very high and hard to buy at any price.—A. M. MAD.

DURHAM CO. ONT.
NEWCASTLE, Sept. 29—The fair for the Township of Clarke was held at Orms on Sept. 24 and 25. This fair was a complete success, both in attendance and exhibits. The cattle class showed that dairying is still the leading industry in

the future here. Three years ago there were but four Holstein cattle at Orms Fair, while this year there were over 60 head. Many exhibitors showed Holsteins. The first prize bull calf, which I enclose a photo, was owned by A. Arthur Gibson. Corn and roots are good in this section. Buckwheat is also yielding well.—G.

ELGIN CO. ONT.
TALBOTVILLE, Oct. 6—There has lately been a rush to get the silos filled. The weather has been ideal for the work of cutting, drawing and blowing the corn in the silos. Almost all farmers have their corn than they can possibly tram in their silos, which is a good sign that feed will be plentiful the coming winter. Some wonderful crops of corn were harvested, corn 15 to 18 feet high being quite common. Many of the ears are nearly worn out by the fatiguing labor entailed in the handling of such a heavy crop of corn. Potatoes are very good, some growers claiming to have the finest potatoes that they ever grew. Apples are plentiful and good in quality. The fall fairs are having their climax now, and the crowds are viewing the first-class exhibits; all being the products of the farms. Mr. C., who has the best herd of cows in this part, says: "Heifer calves that are intended for sale are being marketed at very low fat when growing. Give them plenty of exercise, and try to have them long and slim, with good line development. Then all the milk ducts will be ready to fill the intended quantity of milk. Fat, when dried up, and contracted, will be better the heifer becomes a cow." A large acreage of wheat was cut this season, and is looking very good. A good rain would be acceptable any time now.—J. E. O.

M-CORMICK SAKE A DECIDED SUCCESS
 The 35 head of registered Holsteins disposed of by J. W. McCormick at Woodstock, Ont., on Friday, Oct. 9th, were sold at prices which warranted the success being one of the most successful held this year. The crowd began to gather early in the morning, and by sale time fully 500 had gathered around the ring. Total receipts from the herd amounted to \$5,335, or an average of \$152.50 each. The highest prices realized were on the herd bull, which brought \$300 and a three-year-old heifer at \$295. Some other good prices were realized as follows: Bag Apple Korndyk, \$300; J. McLeod, \$280; Margaret Wayne De Kol, \$260; Geo. Molter, Hamilton, \$250; Hengerveld De Kol, \$190; A. F. Stackhouse, Kinross; Bag Apple Korndyk De Kol, \$200; De Kol Peep, \$225; A. W. McIntyre, Mayville; Korndyk Peep, \$200; Ed. 2825, F. Hamilton, St. Catharines; Lady Stewart, \$180; Amy, \$250; A. W. McIntyre; Hengerveld Jewel, \$200; D. A. Gray, several others. Full report of this sale will be given next week.

ENGINES AT ACTUAL VALUE

In buying the "Page Way" direct, for cash, you eliminate all dealers' and agents' profits and commissions.

HIGH GRADE ENGINES HALF USUAL PRICE, SEE—

1 1/2	Horse Power	\$39.00
1	"	48.00
1	"	48.00
5	"	66.00
	"	123.50

For larger sizes ask for quotations. We supply up to 50 H.P. Freight paid in Ontario. Detailed description sent on application.

WOOD SAW TABLES, \$19.00. FEED GRINDERS, 8 inch plates, \$27.00.

Send for our 80 page general catalog showing "direct to you" prices on fencing and other farm and household supplies.

The "GEORGE" and "OSHAWA" METAL SHINGLES

The Best Roofing in the World — and the Cheapest

The best roofing advertisement in the world is a "Pedlarized" roof that has been in service for a decade or so. Such a roof has withstood years of rain, hundreds of thunder storms, hail storms, wind storms—all these, and perhaps the ravages of fire. And it is still good for years of perfect protection. When fire is raging, flying sparks which quickly ignite wood shingles, fall on the Pedlarized roof—and die out. The rain which rots wooden shingles, falls on the Pedlar metal roof—and flows off again. The hurricane which tears off wooden shingles and uproots composition roofing, leaves the Pedlarized roofing undisturbed.

The flash of lightning that strikes right through a wooden-shingled barn or home, "scatters" them on a Pedlar roof and runs to earth—doing no damage whatever. It is easy to see why Pedlar roofs cost less per year than any other roofing in the world. For the sake of the protection, as well as for economical reasons, you should select Pedlar's "George" or "Oshawa" Shingles.

FOR HOUSES—The "Oshawa" Shingle, size 16 x 20 inches. 45 "Oshawa" Shingles cover as much roof as 1,000 wooden shingles.
FOR BARN AND STABLES—The "George" Shingle, size 24 x 24 inches. 25 "George" Shingles cover the equivalent of 1,000 wooden shingles.
 Laid with hammer, nails and snips—simplicity itself.
 Take your measurements now. Fill in coupon and mail at once
