

Embroidery Designs

Designs illustrated in this column will be furnished for 10 cents each. Readers desiring any special pattern will center a favor by writing Household Editor, asking for same. They will be published as soon as possible after request is received.

430 Design for Binding a Panel and Bodice Front.

Transfer patterns for a skirt panel and small bodice garniture are given. Soutache braid (silk, mohair and cotton) and rat-tail cord are appropriate. Price 10 cents.

438 Designs for Embroidering Initial

Frames in two sizes. Six transfers of each size are given in each pattern.

The ribbon effect, leaves and dots are to be worked in solid embroidery and the stems are to be outlined.

HINTS FOR THE HOLIDAYS

Why not send for one of our New Premium Lists and make a selection of several premiums which you would like to have for the Holiday Season. You can earn them in a short time, and save buying gifts at Christmas time. A club of new subscribers for Farm and Dairy is easily secured.

Have you looked into our Music Folio Premium offer? It is a good one.

THE COOK'S CORNER

Recipes for publication are requested. Inquiries regarding cooking, recipes, etc., gladly answered upon request, to the Household Editor, Farm and Dairy, Potosi, Ont.

Our New Cook Book free for only two new subscriptions.

BEEF SALAD

To 2 qts. chopped beets add 2 qts. chopped cabbage, 2 cups sugar, 1 cup grated horse-radish, scant table salt, pepper to taste, and cold vinegar to cover. This makes a gallon jar full and will keep all winter.

GREEN TOMATO SAUCE

One peck green tomatoes, 1 head cabbage, 10 large onions, 1 large head celery, 2 green peppers, 2 lbs brown sugar, 1 tablesp mustard seed, 3 qts vinegar, and salt to suit taste. Cut up tomatoes and sprinkle salt through them, stand over-night, drain off in morning, and put all through a food chopper and boil one hour.

CANNED PUMPKIN

Fresh home-stewed pumpkin makes the best pies. This cannot be had the year round. But pumpkin may be so treated as to defy an epicure to distinguish between the preserved and the fresh product.

Stew the pumpkin "dry" that is, reduce the pulp greatly. Sift. Then to every $\frac{1}{2}$ cup pumpkin add $\frac{1}{2}$ cup white granulated sugar, 1 scant teasp ginger, 1-8 teasp cinnamon, 1-8 teasp nutmeg, and a pinch of salt. Blend thoroughly. Heat to the boiling point being careful not to burn the mixture. Seal in airtight pint jars. This will keep indefinitely.

The preserving may be done in the fall, when pumpkins are fresh, or a little at a time at each stewing. In the winter, when pumpkins will keep no longer. Whichever plan is followed, the product is most convenient. For pie dissolve 1 cup of preserved pumpkin in $1\frac{1}{2}$ cups hot scalded milk, add $\frac{1}{4}$ cup cream and 2 well-beaten eggs. Bake in a rich crust 1 hour and you have the famous old "New England" pumpkin pie.

BOAT HAM

Wash and scrape carefully and soak in cold water 24 hours. Scrape again and dry thoroughly. Make a dough with 2 qts flour and water enough for a stiff paste. Roll this into a sheet large enough to wrap the ham; fold

the ham in it and place on a meat rack in the dripping pan. Bake in a moderate oven 16 hours. On taking from oven remove the paste and skin, sprinkle with fine bread crumbs and brown sugar, return to oven for an hour. It is delightful served either hot or cold.

MEAT ROLL

Take 1 lb each of lean beef, veal and pork. Remove all gristle, put through the food chopper and mix well, adding 1-2 cups fine crumbs, 1 well beaten egg, 1 cup water, 1 table salt, $\frac{1}{4}$ teasp white pepper, 1 grated onion and $\frac{1}{4}$ teasp curry powder. Work thoroughly and shape in a loaf, arrange in a shallow pan, cover the top with thin slices of lard, lard pork and bake $1\frac{1}{2}$ hours in a hot oven, lasting every 10 minutes.

The Kitchen Cabinet

Noticing the article about kitchen cabinets in the October 7 issue of Farm and Dairy, by Mr. J. L. Murray, makes me say to the readers of Farm and Dairy that I hope Mr. Murray succeeds in selling a cabinet to every woman he shows one to. I also hope he makes a good round commission for the coming year, as I have such a treasure into any house. They are really an essential which should be found in every farm home.—"Aunt Faithie."

Our Music Folios

One of the most popular offers in the premium line we have ever made is that of our Music Folios, given away absolutely free for one new or a renewal subscription to Farm and Dairy. These folios are printed on the best of paper, are standard selections. These folios could not be purchased for less than \$1 to \$1.50. If you have not sent in your renewal for the coming year, this is a fine chance to secure a folio. See advertisement on another page.

When a pipe from a lavatory basin or bath becomes clogged with soap, as it often does, mix a handful of common salt and soda and force it down the pipe. Leave for half an hour or more and then pour down a kettle of boiling water; flush afterward with plenty of warm water.

In making pie crust, if milk is used in place of water, it will produce a much lighter, flakier and easier digestible crust.

How
to prepare

'CAMP' COFFEE

A teaspoonful of 'CAMP,' sugar, milk, boiling water—that's all! Result—the most fragrant, delicious, refreshing cup of coffee you ever tasted in your life.

R. Paterson & Sons,
Coffee Specialists, Glasgow.

The Sewing Room

Patterns 10 each. Order by number and size. If for children, give age; for adults, give bust measure. Send waist, and waist measure for skirts. Address orders to the Pattern Department.

BOX PLAITED SKIRT 643

Every variation of the plaited skirt is in the following styles. The one that gives a suggestion of the yoke is a favorite.

Material required for medium size is 10 $\frac{1}{2}$ yds 34, 9 $\frac{1}{2}$ yds 27, 6 $\frac{1}{2}$ yds 44 or 52 in wide. The width of the skirt at low edge is 2 $\frac{1}{2}$ yds. The pattern is cut for 2, 34, 36, 38 and 50 in waist and will be mailed to any address on receipt of 10 cts.

FANCY BLOUSE 649
Such a blouse as this will find innumerable uses. It is graceful, attractive, and becoming. The long lines given at the front produce an effect of slenderness, and the pretty puffed sleeves, with under material, are among the latest features.

Material required for the medium size is 4 yds 21, 3 yds 24 or 26 yds 44 in wide with $\frac{1}{2}$ yd of banding, $\frac{1}{2}$ yd of tucking for the centre front and under sleeves, $\frac{1}{2}$ yd of all-over lace for chemise.

The pattern is cut for a 32, 34, 36, 38, 40 and 42 in bust, and will be mailed on receipt of 10 cts.

BOY'S OVERCOAT 646

The simple overcoat that falls in straight unbroken lines is most becoming. This one can be made with two or three pockets and is adapted to every seasonable material that is used for boys' overcoats.

For a boy 12 yrs old the coat will require 4 $\frac{1}{2}$ yds of material 27 in wide, 5 yds 44 or 2 $\frac{1}{2}$ yds 52 in wide, with $\frac{1}{2}$ yd of velvet.

The pattern 646 is cut for boys of 5, 12, 13 and 14 yrs of age, and will be mailed on receipt of 10 cts.

MISSES' DOUBLE BREASTED COAT 642

Double breasted coats are always satisfactory for cold weather, and they are among the smartest shown just now. This one is made of diagonal cloth with revers and trimming of velvet, but the style is appropriate for the coat suit as well as for the separate wrap.

Material required for 15 yrs is 7 $\frac{1}{2}$ yds 27, 4 $\frac{1}{2}$ yds 44 or 52 in wide with $\frac{1}{2}$ yd 52 in wide for trimming. The pattern is cut for misses of 14 and 16 yrs and will be mailed on receipt of 10 cts.
