Recommended by the largest stock owners in Canada.

Tongue Creek, Alta., Aug. '93.
Messrs. A. E. Waldon & Co.:
Gentlemen,—I have had several opportunities of observing the wonderful curative properties of Warnock's Veterinary Ulcercure. Last year a valuable mare that I was breaking to harness ran into a wire fence and had the muscles of the forearm of one leg cut through to the bone. The wound was so deep and the lips so wide apart that it was impossible to stitch it, so I applied Ulcercure as directed and the wound rapidly healed. There was almost no scar left, the animal regained perfect use of her leg, and I sold her a short time afterwards for a good price. Another of my mares sustained an ugly tear in front of one of her hocks, almost laying the joint open. A few days rest and the application of Ulcercure caused the wound to heal quickly, without leaving any stiffness of the joint. I have seen the medicine used in numerous other cases in this district, and always with the same satisfactory results.

PRICE \$1. OR SIX FOR \$5. Each bottle contains two hundred applications. Sold by all dealers in medicine, or sent to any part of Canada on receipt of price. A single trial will prove the wonderful curative properties of Ulcercure. Samples free. Send for Dr. Warnock's pamphlet on the treatment of wounds in domestic animals. Address,

THE COMING FENCE

Is the title of the illustrated poem in the Feb. 15th issue of the "COILED SPRING" our monthly paper. We quote one verse:

Other fences there will be,
But no one can fail to see
That against this they stand no show to win
The day
They lack the essential thing.
The self-regulating spring
Which defeats expansion and contraction in a scientific way.

You will find the "COILED SPRING" filled with articles of interest to every farmer. A copy will be sent free to all applicants.

Competition of these days
Renders it imperative that a Farmer's acres give him back the largest possible returns for the labor he bestows upon them. This means labor-saving tools, especially such as perform a variety of operations that when done by hand are slow, tedious, and consequently costly ones.
The Planet Jr. Combined Hill Dropping and Fertilizer Drill
is a "Competition-meeter," and is but one of an interesting family of labor-saving, and therefore money-earning, tools. Our latest Catalogue will tell you all about the whole family, and will give any Farmer valuable information in the line of improved methods for cheapening his cost of production. We send this book FREE to any address. A postal card will bring you a copy.
