

Don't Buy Any Wire Fence Till You Know It Will Last and Give Good Service for Years

TEST IT. PROVE IT.

We have always exercised great care in regard to the quality of wire entering into the construction of our PEERLESS Fencing. Our product is evidence of this.

We have spent much time and money experimenting with different kinds and makes of fence wire. We are now prepared to give our customers the benefit of our experience.

We find that English-made wire (that is wire made by English manufacturers expressly for our purpose) is superior to any fence wire made in this country. This is specially so in regard to the galvanizing. It will stand more than double the endurance, when sub-

mitted to what is known to the "ACID TEST," as compared with American or Canadian made wire.

English manufacturers are noted the world over for their thoroughness. In the manufacture of wire they are past masters—they are not new beginners—they have made galvanized wire to stand the salt, foggy English climate—they have a hundred years' experience back of them. American or Canadian made wire, under like conditions, rusts in a few months' time.

We have used this English wire to a limited extent for some time past. We are now making our all No. 9 PEERLESS Fence from this wire, and will,

at your request, be pleased to send you samples of this wire, and give you full particulars as to how you may test it, or any other wire you may choose.

TEST and PROVE any wire fence to your own satisfaction before buying it.

Buy a fence that you know will LAST. Don't be deceived into investing in a fence with any soft or light wire in it. "A chain is only as strong as it is at its weakest link."

Our No. 9 PEERLESS Fence is made from heavy, hard steel wire for both the upright and horizontal wires, with a No. 9 lock—neat, compact and non-slipable.

EASY The upper woman insisted on a simple, sanitary Sharples Dairy Tubular Cream Separator. Washes the entire bowl easily in two minutes. Holds it all here in her hands.

The lower woman's husband "didn't think," so she drudges twenty minutes over a common separator containing 42 disks.

Tubulars are The World's Best. Sales exceed most, if not all, others combined. Probably replace more common separators every year than any one maker of such machines sells.

The manufacture of Tubulars is one of Canada's leading industries.
