OBVIOUS.

Father (reprovingly)—"Do you know
 what happens to liars when they die?"
 Johnny—"Yes, sir; they lie still."

GETTING IT ALL.

The doctor told him he needed carbo-
 hydrates, proteins, and above all, some-
 thing nitrogenous. The doctor men-
 tioned a long list of foods for him to
 eat. He staggered out and wobbled
 into a restaurant.

"How about beefsteak?" he asked the
 waiter. "Is that nitrogenous?"

The waiter didn't know.

"Are fried potatoes rich in carbohy-
 drates or not?"

The waiter couldn't say.

"Well, I'll fix it," declared the poor
 man in despair. "Bring me a large
 plate of hash."

QUESTIONS AND ANSWERS. Miscellaneous.

TURKEYS HAVE COLD.

My turkeys go around sneezing, and
 they breathe hard, but they eat well.
 Their heads are not swelled, and they
 do not seem sick. They just seem to
 have a common cold, but I do not know
 what to give them. Could you recom-
 mend a cure? **A. Y.**

Ans.—Colds result from damp weather,
 and also from closing the birds in too
 close houses at night. Remove the
 cause. Keep houses clean and well
 ventilated, and feed liberally on whole-
 some food, and the turkeys should re-
 cover.

WORMS IN HORSE-OIL CAKE FOR HORSES.

1. Have a horse five years old seems
 to be troubled with worms. Has a
 ravenous appetite, and hair stands on
 end. What would be a medicine for
 him? **D. M.**

2. Is oil-cake meal a good food for a
 horse? **D. M.**

Ans.—1. Take 1½ ounces each of sul-
 phate of iron, sulphate of copper, and
 tartar emetic, and one ounce of calomel.
 Mix, and make into 12 powders. Give
 a powder every night and morning in
 damp food, or mixed with a little water
 as a drench. Give nothing to eat but
 a little bran. After giving the last
 powder, in about eight or ten hours,
 give a purgative of 8 drams Barbadoes
 aloes and 2 drams ginger. Feed bran
 only until purgation commences, and do
 not work until the bowels regain their
 normal condition.

2. In small quantities, yes.

BUILDING POULTRY HOUSE— RAPE FOR SHEEP.

1. How much gravel and how much
 cement would it take to build a wall
 for a henhouse 40 feet long by 14 feet
 wide, and 10 feet high? Also, give the
 thickness the wall would need to be to
 support the roof only.

2. Would such a building be damp if
 strapped and boarded inside?

3. Could you suggest any cheaper and
 better wall?

4. How many acres of rape would it
 take to pasture twelve sheep? **O. W. N.**

Ans.—1. About 17 barrels of cement
 and 4½ cords of gravel. Six inches
 would be thick enough for the wall.

2. Too some extent, yes.

3. An open-front house, 20 feet square,
 4 feet high behind and 3 feet in front;
 7 feet in the center, with a window 5
 feet square in the west end and a door
 in the east, and hinged roosts at the
 back, two feet of the front being wire
 netting, and the rest of the building one
 thickness of boards, would be drier,
 cheaper, and better.

4. This depends upon how long they
 are to be pastured on it? Try three
 or four acres.

BOG SPAVIN AND THOROUGH- PIN.

Have Percheron filly one year and ten
 months of age, extra large and well
 developed, but has always had rather
 coarse hock joints. A bog spavin and
 thoroughpin have recently developed on
 her left hind leg. The bog is very
 prominent, and seems to extend around
 the inside of joint and connect with the
 thoroughpin. At any rate, pressure on
 one will cause the other to bulge. She
 is not lame, and is otherwise unblem-
 ished and very promising. Please recom-
 mend treatment. Is it considered a
 serious blemish, and would you advise
 me keeping her as a brood mare as I
 had anticipated? **SUBSCRIBER.**

Ans.—Get a blister made of 1½ drams
 each of biniodide of mercury and can-
 tharides mixed with two ounces vasa-
 line. Clip the hair off the parts. Tie
 so she cannot bite them. Rub well with
 the blister once daily for two days; on
 the third day apply sweet oil. Turn
 loose in a box stall now, and oil every
 day. As soon as the scale comes off,
 tie up and blister again, and repeat once
 a month until cured. She may be here-
 ditarily predisposed to a coarseness of
 the hocks. If so, it may be passed on
 to her progeny, but breed her to a good
 clean-limbed sire if you decide to make
 a brood mare of her.

MOLASSINE MEAL

Watch a horse when he is eating his
 oats—note how he slobbers—bolts a
 lot—and spills a lot—also a large pro-
 portion is undigested.

Take a couple of handfuls of MOLAS-
 SINE MEAL, and mix with the oats at
 the next feeding time—reducing the oats
 by the amount of MOLASSINE MEAL added
 —then watch him eat—note how he masticates
 each mouthful and with what evident enjoyment.

Every particle of nutriment is obtained from all
 its feed—that's why it will cost you less for feed
 and you get better work out of your horses, if
 you feed them regularly with Genuine MOLASSINE
 MEAL. (Made in England).

Prevents colic and eradicates worms.

Get the genuine made in England. Ask your dealer, or
 write us direct for full information.

OFFERS sons of Pontiac Korndyke
 25083, the greatest sire that ever lived,
 and the only bull that ever sired 12
 daughters that have made 7-day records above 30 pounds each. Do you want your
 next bull to be a brother to such cows as Pontiac Lady Korndyke (38.02), Pontiac
 Pet (37.67), Pontiac Clothilde De Kol 2nd (37.21), Sadie Vale Korndyke (36.20),
 and eight others above 30 pounds? If you do, write me for price on a son of
 Pontiac Korndyke. I also have sons of Rag Apple Korndyke and Sir Johanna
 Colantha Gladi. **E. H. DOLLAR, HEUVELTON, NEW YORK. Near Prescott.**

Summer Hill Holsteins

Would you like your next bull to be from the same sire as the heifer that holds the world's
 record for yearly work, and the same sire as the Champion Cow of Canada in the seven day work,
 and the same sire as the Champion four-year-old of Canada in the thirty day work? We have bulls
 of this breeding to offer whose dams have records of over 27 lbs. We have also some extra choice
 heifers bred to our junior herd whose dam has a record of 34.80 lbs. butter in seven days and 111
 lbs. milk a day. Yorkshires of all ages. **D. C. FLATT & SON, R. R. No. 2, Hamilton, Ont.**

HOLSTEINS AND YORKSHIRES We have at present a number of two-
 year-old heifers, some in calf and some
 just bred, also our stock bull King Peter Teak sired by Peter Teak O. A. C., dam Queen
 Mabe. Also some sows safe in pig. **A. WATSON & SONS, R. R. NO. 1,
 ST. THOMAS, ONTARIO.**

HOLSTEINS OF HIGHEST QUALITY
 Our Holsteins have won wherever shown. Our herd is away up in the official records.
 They are bred from the world's best producing blood; there are none better. Let us
 know your wants in either males or females.
