

# The Provincial Wesleyan.

The Admiralty have given directions for the grant of a pension to Capt. McClelland during the time he was in the command of the *For*, but this pension will have to be done by order of the Admiralty. The pension is to be paid to the widow of the late Capt. McClelland, and is to be paid to her for the remainder of her life.

The will of the late Mr. J. K. Brunel, C.E., has been administered to by the executors, the personal estate being valued at £90,000. It is stated that the late Mr. Brunel's will has been proved to the satisfaction of the Court, and that the executors have been appointed.

Lady Franklin has resolved to sell the steam yacht *For*, which she successfully conveyed to the Clyde on the 10th inst. The sale is to take place at Lady's, early in November.

PREPARATIONS FOR CHINA.—Twelve ships, consisting of six ironclads, have been ordered by the Admiralty, and will be forwarded by the overland route to China, to be used for river operations by the troops in that country. An immediate augmentation of the Royal Engineers is anticipated to take place, by the formation of ten additional companies. It is intended to send out a large number of the marine vessels now lying in Chatham, to China during the approaching spring. It is intended that the 4th Battalion of the Rifle Brigade and the 21st Fusiliers will be the first regiments to proceed to the seat of war in China.

KING VICTOR EMANUEL AT GENOA.—The King received deputations from the municipal body of Genoa, and in reply to an address, observed that the cause of Italian independence was the cause of justice, and that he would defend it to the utmost of his power. The King also received a deputation from the Italian Chamber of Deputies, and in reply to an address, observed that the cause of Italian independence was the cause of justice, and that he would defend it to the utmost of his power.

Accounts from Naples state that the Neapolitan army on the Roman frontier was increasing, and is to be 200,000 men. General Dabrowski, Minister of Foreign Affairs, has left Paris for London. Madrid, Oct. 10.—The reply of Morocco to the guarantee demanded by Spain not being a satisfactory character, war appears imminent. A Council of Ministers, presided over by the Queen, has been convened.

THE SUPREME COURT.—Has now been in session a fortnight. Several civil and some criminal cases have been disposed of. Preceptor and others, charged with murder in the election riots in the Eastern district last May, have not yet been tried. It appears that in this case the grand jury returned in finding the affidavits, whilst the law requires at least twelve to agree. William Meizer, Esq., the Foreman was prepared to testify to the facts, but objected unless the preceding Judge would say that he was justified in doing so under his obligation. Mr. Justice Willes refused to do so, and the prisoners were therefore arraigned. In the afternoon, however, the learned Judge sent for the Attorney General, Mr. Young, and Mr. Meizer, and stated that he saw no propriety whatever in a Grand Juryman testifying to the fact that the Bill of Indictment had been found. A misapprehension, and that the nine of the jury had concurred when the law required twelve. He also stated that, having consulted with his Lordship the Chief Justice, and Mr. Justice Biss, they had expressed their acquiescence in the opinion, and concluded by remarking that he was bound to assume that the learned Judge had found the Bill of Indictment under a misapprehension, and that the nine of the jury had concurred when the law required twelve.

THE WESLEYAN CHURCH IN HALIFAX.—The late of a faithful and exemplary member, in the removable death of the subject of the following notice from the *Star* of Friday last: "Among our ordinary notices of today is the announcement of the death of Mr. George Ritchie, a member of the established Church of England. He entered the Halifax Yard at the age of 13 and remained in it for 50 years. For many years previous to his superannuation he held the position of Foreman of the Yard. Correct in his mechanical attainments, and of a high degree of moral character, he was a man of high esteem and confidence of his superiors and the high esteem of all who knew him."

Provincial Wesleyan Almanack. Some very large sales have been effected during the week, and we have printed a very large edition of the Almanack, and are waiting for extensive orders. We do not ask our ministerial brethren to use their influence on their different circuits to extend the sale.

The address presented to the President of the Conference at Bonavia, with the reply we hope to be able to insert next week.

To Our Agents and Subscribers. It is always painful to us to be under the necessity of appealing to our agents and subscribers for the payment of monies that are really due to us, and without which we cannot publish the paper without serious embarrassment; but a glance at the "Letters and Monies" above must convince all that we are justified in urging immediate and earnest attention to our appeal. We are paying cash for wages, and paper and ink weekly to a far greater extent than our weekly income of monies due; and we call upon all, at once and in good earnest, to make large and immediate remittances; for they were never so much needed as now; it is sincerely hoped that this appeal will meet with an immediate and hearty response.
