

THE BOUNDARY FOR MACKINTOSH

The Martin Candidate Rejected All Along the Line--Grand Forks, Greenwood, Phoenix, Midway, Eholt, all Declare for Good Legislation--Mackintosh's Splendid Reception.

Greenwood, May 26.—(Special)—The Boundary country is responding splendidly to the appeal of Mr. Mackintosh, the anti-Martin candidate, to establish a stable provincial government.

The meeting at Greenwood on Wednesday night was significant from every point of view. In making his set speech in favor of Mr. Martin, Mr. Smith Curtis indulged in a number of personal insinuations. It was alleged by Mr. Ker, a representative of Mr. Curtis, that Mr. Mackintosh was responsible for a petition from the British America Corporation forwarded to the provincial government, requesting a repeal of the eight-hour law. His flank, however, was completely turned when Mr. Mackintosh produced proof that he was in London at the time and had placed his resignation in the hands of the directors of that corporation. He had never signed any petition, had never urged the preparation of any petition. It was done at Rossland. He was not in any way responsible for it.

The audience cheered to the echo and Mr. Smith Curtis had no more to say about it.

Mr. Mackintosh said that Mr. Curtis had referred to the Similkameen district and insisted that he had acted unfairly to one, R. A. Brown. He went into the whole question. He claimed that he had loaned money to Mr. Brown to keep him from losing his properties and had not charged him a cent of interest, and that he had fulfilled in every particular every promise made. He also proved, from documentary evidence, that he had deposited the money due to Brown under the option he held, to be paid over in exchange for the title deeds to his interest in the property, and that when the date of payment arrived Mr. Brown had not deposited these deeds in the Bank of Montreal at Rossland as agreed, and furthermore that Mr. Smith Curtis, with Mr. Martin, had an interest in the property, had telephoned to the Bank of Montreal from Grand Forks asking if the money was deposited. The reply was in the affirmative, and, strange to say, upon learning this the deeds were kept back, and he (Mr. Mackintosh) declared the deal off. He also mentioned that a letter had been received from Mr. Brown intimating that money payable had been assigned to Joseph Martin and Smith Curtis.

This explanation fairly downed Mr. Curtis, who said he had a letter to read which would put a different face upon the matter. Mr. Mackintosh asked him to read the letter, and asked the audience to pay great attention while it was being read. Mr. Smith Curtis, amidst cries of shame and read it! read it! put the letter back in his pocket and said he would refer to it at some other time.

Mr. Mackintosh pointed out that Mr. Curtis must be in the conspiracy with those who had made this personal attack otherwise he could not have in his possession any letter written by him (Mr. Mackintosh) to a third party. He again challenged Mr. Curtis to read the letter if he dared, but amidst cries of shame, Mr. Curtis sat down.

Mr. Mackintosh then took up local questions showing the neglect manifested by the government with regard to the Greenwood district and the evident intention of Mr. Martin, if sustained, adding new taxes upon the mining industries, thereby affecting not only the mine owner but the miner generally.

On Thursday there was a grand celebration at Midway, about two thousand people being present, representing the large ranching concerns of the district, as well as the miners, business men and the farming community generally. It was evident that Midway will give him a majority of 5 to 1 over his opponent.

Last night (Friday) Mr. Mackintosh addressed a meeting at Phoenix, said to be a Curtis stronghold consequent upon the idea that the falsehoods included in the regard to Mr. Mackintosh being an enemy to labor had caused many of the miners to oppose him. The Miners' union hall was filled to the doors with an enthusiastic audience (notwithstanding the inclemency of the weather) and the result of the meeting must be a rude awakening to the Curtis people, for from the start Mr. Mackintosh appeared to have the cordial sympathy of the meeting.

There has been a change in the Martin stock since he has been denounced by Mr. Ralph Smith and Mr. Hawthorne-wait, the labor leaders, for his treacherous conduct to the miners of the New Vancouver Coal company as well as the fact that Mr. Ralph Smith, Mr. Woodman, Mr. Macpherson and Mr. Matthews vouched for the fact that a delegation sent from Vancouver during the suspension of the eight-hour law, Mr. Martin, as attorney general, said: "He never did believe in it, and as far as he was concerned, he would never enforce it."

Mr. Ker, representing Mr. Smith Curtis, did not attempt a reply to this.

Mr. Mackintosh further clearly showed that in reply to questions put to Hon. Joseph Martin by the Trades and Labor Councils of Winnipeg, when Mr. Martin was a candidate for their city in 1898 he (Mr. Martin) said "he did not believe in state owned railways, but believed in helping railways by bonuses or subsidies; furthermore that he did not believe in government or municipal ownership of telephone or telegraph systems."

Mr. Goodeve, in reply to Mr. Ker, delivered a most logical and eloquent speech, making a strong impression upon the audience. The meeting then closed with the singing of the national anthem, three cheers and a tiger for Mr. Mackintosh.

A TRIUMPHAL TOUR.

Mackintosh's Reception in the Boundary Country.

Greenwood, May 26.—(Special)—The talk of the town today is the great success of Ex-Governor Mackintosh at Phoenix.

It was generally supposed that a large majority of miners were opposed to him, but he held a crowded audience for two hours, making point after point, and at times keeping the listeners in roars of laughter when dissecting the platform of Martin and Curtis. The Governor's scathing denunciation of Martin and Curtis' hypocrisy towards the workmen, the indictment of Ralph Smith and Hawthornwait against Martin created a sensation. After Mayor Goodeve's speech the audience cheered to the echo and subsequently over 50 miners came forward and pledged their votes to Mr. Mackintosh.

The Boundary For Mackintosh.

Eholt, May 26.—(Special)—A crowded meeting greeted Hon. C. H. Mackintosh at Eholt tonight. On his arrival at the train Mr. Arthur Rendall, Mr. Michael Tebo and other welcomed him to the town. The party visited various mines and in the evening a veritable triumph was achieved by the Governor, who was cheered over and over again.

Mr. Duncan Ross, a prominent Liberal and editor of the Greenwood Times, following in eloquent terms of the importance of sending men like Governor Mackintosh to represent the Rossland riding. He, as a Liberal, who never knew what it was to be other than a Liberal, denounces Mr. Martin for betraying not only the miners but the working classes generally. He said he had watched Mr. Martin's career carefully, and considered it would be a provincial misfortune if he or Mr. Curtis were elected. He urged all Liberals and all working men to unite in securing the return of the man who had already done more for British Columbia than any one he knew of. His record as a sympathizer with labor was unquestionable, notwithstanding the slander that had been circulated to the contrary. Mr. Ross resumed his seat amidst tumults of applause.

Mr. M. Tebo followed with a few remarks severely criticizing Mr. Martin and Mr. Curtis, and said he hoped all would join with him in helping to swell Mr. Mackintosh's majority on June 9 to the hundreds. The meeting was closed with the national anthem and three cheers for Mr. Mackintosh.

Mr. Mackintosh remains here tonight and tomorrow morning, will visit Deadwood camp, returning to Greenwood, and back to Rossland.

A CURTIS MEETING.

The Minister of Mines Becomes Hopelessly Involved on Railway Question.

Grand Forks, May 26.—(Special)—Any lingering uncertainty which may have been exhibited as to the overwhelming preponderance of public opinion in this city respecting the result of the vote of Grand Forks was rudely dispelled tonight by the attitude of the audience at the Curtis meeting. It was practically a strong demonstration by the large audience of their sympathy with Mr. Mackintosh. While the audience listened patiently to the weary discourse of Mr. Curtis they listened silently but every point scored against him was cheered to the echo. On the other hand Mr. Curtis's points fell very flat.

J. B. Henderson presided, Mayor Goodeve, of Rossland, followed. His reply was brilliant, logical and convincing. It demolished the flimsy arguments of Mr. Curtis and exposed the insidious methods of Martin's entire audience burst into cheers.

Mr. Curtis seemed to appreciate his position very keenly. He paraded the Mongolian spectre, delivered a paean in the honor of Joseph Martin, and declared for state owned railways. The minister of mines did not disclose the method by which the Martin government proposed to raise the \$20,000,000 required to carry out its pet project. Mr. Curtis absurdly declared that Mr. Martin would make the C. P. R. a state railway within five years. But a few moments before he had admitted that the projected railway would connect with the C. P. R., and would in a measure be dependent upon that railway for the providing of low freight rates on transcontinental business. Mr. Curtis, in fact, became hopelessly involved on the railway question when cross-examined by an individual in the audience. He admitted that it would take several years to make the railway survey through the Hope mountains, and the Similkameen districts. Thus the relief promised by the Martin government is not to be thought of.

The meeting closed with cheers for Mr. Mackintosh.

A MACKINTOSH MEETING.

The Governor Is Enthusiastically Endorsed By Miners and Prospectors.

Eholt, May 26.—(Special)—Mr. Mackintosh addressed an enthusiastic meeting at Eholt tonight. The audience was largely composed of miners and prospectors. The resolution endorsing the Governor was adopted. His attitude on the labor question was exhaustively dealt with, and his explanations evoked hearty applause.

Mr. Mackintosh will be in Grand Forks tomorrow.

"Bought My Life for 35 Cents."

This was one man's way of putting it when he had been pronounced incurable from chronic dyspepsia. "It was a living death to me until I tried Dr. Von Stan's Pineapple Tablets--thanks to them today I am well--and I tell my friends I bought my life for 35 cents"--60 in a box--they're good for any and every form of stomach trouble--safe to use and convenient to carry with you. Sold by Good-eye Bros.

THE MAGDALA AND SURPRISE

THE OLOLLA CAMP IS COMING RAPIDLY TO THE FRONT.

Ollalla Is Growing--To Have a Public Hall--C. P. R. Surveyors Locating extension From Midway.

Ollalla, May 21.—I have to record two or three important strikes this week. First in importance is that on the Magdala. Today (Monday) the owners commenced their assessment work, and after stripping the ledge for some distance, a 26-inch hole was drilled in the center. The result was a most pleasant surprise. Beautiful solid ore, white iron and yellow copper, with some rusty fine milling quartz, and several tons of it. This was a new lead where no work had been done before. There is an immense iron cap on the Magdala, where some work was done last year. The values obtained were \$4 in gold and 11.2 per cent copper. The ore exposed to day will go high in both gold and copper values. It looks that way. The owners are three Rossland men, and they have two more claims adjoining along the ledge. They are smiling tonight.

Today also W. C. McDougall made a rich find on the Surprise. It is a ledge of granite profusely impregnated with spar and borate. The Surprise is on the west side of the valley, and there is a corresponding ledge on the east side. Mr. McDougall thought it ought to be found on the Surprise and he found it. He traced it for two or three hundred feet, and as far as he can judge at present, it is about 50 feet wide.

On the Caledonian today Mr. McKay discovered a big ledge similar in every respect to the Bullion ledge. The Caledonian is on the west side of the valley and the Bullion on the east, nearly opposite. Work is to be commenced forthwith on both the Surprise and Caledonian.

In the Bullion tunnel last Friday a stringer of solid yellow copper came in. It varies from two to four inches in width and leads ahead towards the first ore body, which may be struck any day now. The tunnel is in 320 feet, and the breast is beyond the outcrop of the ledge at surface, but the dip is away from it, so that the tunnel, which is now 270 feet below the surface, may have to be driven another 20 feet before intersecting the lead, or it may be met within five feet more.

The town of Ollalla is growing. The Wells Brothers have got the roof on their new hotel. Several people are living on their lots in tents, the streets are being cleared and quite a hustle has settled on the place. Lumber is coming in from Snodgrass' mills, and the latest report is that it intends moving here immediately, so that we may expect a considerable cheapening of building material at no very distant date. A company of local people has been formed for the erection of a public hall, which is to be completed before the first of July, so that the citizens of Ollalla may celebrate the national holiday in a becoming manner. Either a concert or a dance will be held in the evening, with outdoor sports during the day.

The C. P. R. survey party, about a dozen men, are now engaged in locating the railway through the valley. They will turn up the Similkameen valley, about three miles south of here, and will join the main line at Spence's bridge.

R. W. NORRIS.

Machinery Sold.

The Jenckes Machine company has sold to the Boundary Beaver Creek Mining company a 12 horse power hoist and boiler. The property of the company is located on the north fork of the Beaver creek, a short distance from Eholt. The only way to reach the property is by a trail, and the hoist and boiler will have to be packed in sections. The Jenckes Machine company also sold the Le Roi Mining company three 12 horse power hoists, which are to be used for underground work.

French Gentleman Missing.

About five months ago M. Andre Ramet left France for British Columbia as a representative of a Belgian syndicate, said to have very important copper properties in this province. M. Ramet had in his possession a large sum of money. He has not been heard of since he set out for the west. Anyone who has any information regarding this gentleman will confer a great favor by communicating with the French consul at Vancouver.

Foresters Meeting.

Court Golden City No. 8810 of the Ancient Order of Foresters, held its first regular meeting, since its inauguration, last evening, when nine new candidates were initiated and several other names were received, which will be balloted on at the next meeting, after which they will be put through the mysteries of the order. A vote of thanks was given the grand organizer, Mr. John Hilbert, for the energetic manner in which he had worked towards starting a court in this city. Mr. Hilbert responded and stated that he was very glad to see such an able lot of officers and so fine a lot of members. He further said he was pleased to observe that the officers had the court work up so well that they compared favorably with older courts and hoped that Court No. 8810 would soon be the banner lodge of the province. The new court will meet again on Monday morning for the purpose of instituting a court at Fernie.

Mr. Hilbert said last evening that he was greatly pleased with Rossland and its people, and that he had met with only the kindest treatment while here.

Died at Portland.

Mr. M. H. McMahon, of the firm of Benn & McMahon, returned on Sunday night from Portland, Ore., whither he was summoned by the fatal illness of his brother, Mr. T. W. McMahon, who succumbed to an attack of meningitis on May 27. The deceased was aged 27 years, and was well known in this city, where he resided for several months in the early part of 1899. He was very popular in this city, and his many friends here will learn of his death with regret.

THE AIR TURNED ON

A Power Drill Used in the Evening Star for the First Time.

WORK ON THE NICKLE PLATE

A New Drill Which Uses Water Under Pressure and It is Said Will do Much More Work With Less Power Than the Ordinary Drill--Finishing Notes.

The air was turned on the Evening Star by Superintendent Chamberlain for the first time at 10:50 yesterday forenoon in the Evening Star. Mr. Frank Watson and other mining men were present to witness the event. One machine was in operation, cutting out a station on the lower tunnel. The intention is to sink a winze in this station after it is completed. In a few days three machine drills will be put to work and then the development of the Evening Star will make rapid progress. Mr. Chamberlain reports that the mine is in first class shape.

PROMISING CLAIMS.

They Are Located West of Sheep and Close to the Boundary Line.

Mr. J. R. Cranston, Hugh McDonald and H. Carington, visited the Liverpool and Dardanelles mineral claims, on Sunday. These prospects are located on Santa Rosa mountain, about two miles west of Sheep creek and near the international boundary line. There is an excellent showing on both claims. The ledge is of decomposed white quartz, carrying gold and copper, and is about eight feet in width. The ledge can be traced for a distance of about 4,000 feet and overruns the two claims. The ledge has been opened by shallow shafts and open cuts in five different places. The values run from \$6 to \$19. A deal is pending for the purchase of these claims, which are owned by Messrs. Hugh McDonald and others. It was snowing heavily on the top of Sophie mountain on Sunday, and this delayed the party considerably, and they were compelled to stop over night at the vacant hotel at Melville, and came into town yesterday. Mr. Cranston did not get back until after 1 o'clock p. m., and his companions did not get into town until about 3 o'clock p. m.

THE HOSKINS GROUP.

Mr. A. T. Pollett and Party Left for East Kootenay Yesterday.

Mr. A. T. Pollett, son of Mr. R. C. Pollett, managing director of the Nevada mine of Ymir, left yesterday evening with a party of ten men for East Kootenay. Mr. A. T. Pollett has been selected for the work of developing the Hoskins group of eight claims, owned by the British America corporation in East Kootenay, on high recommendations. He has lately come down from the Nevada mine in Ymir, where he was very well thought of. The Hoskins group is in the vicinity of Cranbrook, and the claims are considered to be very likely properties.

The Nickel Plate.

The body of ore uncovered at the 600 level of the Nickel Plate while cutting the station, has been completed and timbered. The prospecting of this ore body will be proceeded with. At present it cannot be economically broken out, as it will become mixed with the rock broken out in the bottom of the shaft, and there would have to be a sorting of the ore at the surface. By delaying drifting for a few days. The necessity of this will no longer obtain. In the meantime the railway has located the spur, and preparations are being made for the erection of the ore bins.

MINING NOTES.

Mr. F. S. Griswold left yesterday for Norway mountain for the purpose of looking after his mining interests there.

Messrs. Stephen Brallo and A. Ternick left yesterday for Greenville mountain for the purpose of recommencing work on the Cascade group.

Mr. Stephen Barberi and others left here on Sunday with a pack train of supplies for Norway mountain. They purpose developing the Bonanza group, and will be away for a couple of months, and perhaps longer.

A NEW TYPE OF DRILL.

It Is Operated With Half the Power of the Old Drill.

Mr. H. M. Rogers, secretary-treasurer of the Tom Thumb Gold Mining & Milling company, is in the city. He has on the cars here an eight-drill compressor which he is hurrying through to Republic. It will be installed and in motion on the 15th of June. The teams will be ready at Spokane on Wednesday. There are two boilers of 75-horse power each, car, etc.

In addition to this there are three drills of a new type which it is thought will be a great improvement over the old drills. The drills are hollow and a stream of water under pressure keeps the drill holes clear of mud. Mr. Rogers says the makers of these drills guarantee that they can be run with just half the power of the old style of drills. The theory is that the small pieces of rock that are chipped off by the drills are removed as soon as they are broken off by the water running under high pressure, and as a consequence the bits work directly on the rock all the time, whereas in the old drills the small pieces of rock taken off by the old fashioned drills act as a cushion and prevent the drills from taking hold. Mr. Rogers says if the drills operate as well as expected it will revolutionize drilling. As soon as the Tom Thumb company is satisfied that these drills are a success several more will be ordered.

The Tom Thumb mine, Mr. Rogers says, is opened up to the 250-foot level. Some time since a double compartment shaft was started to tap the vein at a depth of 600 feet. When it had reached a depth of 250 feet a blind ledge was encountered, which fills up the entire bottom of the shaft, which is 721 feet. The shaft is being continued to the 600-foot level, but as

KENNETH MINING AND DEVELOPMENT CO., LIMITED LIABILITY

Rossland, May 10, 1900.

I beg to give notice that a special extraordinary meeting of the above named company will be held at the offices of the company, Wallace Block, Columbia avenue, in the city of Rossland, on Thursday, the 28th day of June, 1900, at 4 o'clock in the afternoon, when the following resolutions will be submitted:

1. That it is desirable to reconstruct the Company, and accordingly that the Company be wound up voluntarily, and that Arthur Marsh, in the City of Rossland, in the Province of British Columbia, Esquire, be, and hereby is, appointed liquidator for the purpose of such winding-up.

2. That the said liquidator be, and hereby is, authorized to consent to the registration of a new company, to be named: "The Tamarac Mines, Limited," with a memorandum and articles of association which have already been prepared with the privity and approval of the directors of this Company.

3. That the draft agreement submitted to this meeting, and expressed to be made between the Company and its liquidator, of the one part, and "The Tamarac Mines, Limited," of the other part, be and the same is hereby approved; and that the said liquidator be and hereby is authorized, pursuant to section 13 of the Companies' Winding-Up Act, 1898, on of the statutes of British Columbia, to enter into an agreement with such new company, (when incorporated), in the terms of said draft, and to carry the same into effect with such (if any) modifications as they think expedient.

ARTHUR MARSH, Secretary-Treasurer.

5-17-71

CERTIFICATE OF IMPROVEMENTS.

Notice.

Snow Bird mineral claim, situate in the Trail Creek Mining Division of West Kootenay District. Where located: About two miles northeast of Rossland, near Columbia & Western railway.

Take notice that I, R. E. Young, (acting as agent for H. S. Crotty, Free Miner's Certificate No. B 36154), intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this nineteenth day of April, A. D. 1900.

R. E. YOUNG, P. L. S.

CERTIFICATE OF IMPROVEMENTS.

Notice.

Firefly mineral claim. Situate in the Trail Creek mining division of West Kootenay district.

Where located: One mile south of Rossland, adjoining the Nest Egg mineral claim.

Take notice that I, F. W. Roll, free miner's certificate No. B 13,321, acting as agent for the Nest Egg and Firefly Gold Mining company, free miner's certificate No. 19922 B, intend 60 days from the date hereof, to apply to the mining recorder for a certificate of improvements, for the purpose of obtaining a crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this nineteenth day of April, 1900.

F. W. ROLL.

CERTIFICATE OF IMPROVEMENTS.

Notice.

Boundary No. 2 and Rossland Fraction mineral claims, situate in the Trail Creek mining division of West Kootenay district. Where located: On Maulde mountain, near the junction of the Red Mountain Railway with the International Boundary line.

Take notice that I, Kenneth L. Burnet, F. M. C. No. B. 29146, agent for Charles Connell, F. M. C. No. 36530 A, P. McL. Forin, F. M. C. No. B. 29005, George Lemon, F. M. C. No. 155, special, and John Andrew Forin, Free Miner's Certificate No. B. 11138, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claims.

And further take notice that action, under Section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this Seventeenth day of May, A. D. 1900. KENNETH L. BURNET.

IN THE SUPREME COURT OF BRITISH COLUMBIA.

In the Matter of the Land Registry Act and the Land Registry Act Amendment Act, 1898.

And in the Matter of the Title to Lot 678, Group 1, Kootenay District, known as the O. K. Mineral Claim.

Notice is hereby given that three months from the date hereof application will be made by the Old National Bank of Spokane, Washington, to the Honorable Montague William Tyrwhitt Drake, one of the Judges of the Supreme Court of British Columbia, for an Order directing the Registrar General of Titles to register the Old National Bank of Spokane, Washington, as owners in fee of Lot 678, Group 1, Kootenay District, known as the O. K. Mineral Claim, notwithstanding the non-production of the prior documents of title.

And further take notice that any person claiming to have interest in said land and desiring to oppose said application must attend at the Chamber Court, in the Court House, Government street, Victoria, B. C., on Thursday, the 12th day of July, 1900, at 10:30 o'clock in the forenoon, at which time and place the said application will be heard.

Dated this 12th day of April, 1900.

BODWELL & DUFF, Solicitors for Applicants.
