

Archbishop Roche at Fermeuse

Grand Reception Tendered Him By the People of That Settlement

MANY ARCHES ARE ERECTED

Archepiscopal Party Also Visit Admiral's Cove and Get a Similar Reception

(Special to Mail and Advocate)

Fermeuse, Oct. 13.—On Monday, October 11th, in spite of the inclemency of the weather, His Grace Archbishop Roche, Fathers MacDermott, and McGrath, our esteemed pastor, Father Douthey, and resident priest, Father Enright, arrived here from Renew's.

Amidst cheering crowds and great volleys of guns, the Archepiscopal Party passed under decorated arches, preceded by the school children, proceeded to the Church.

His Grace thanked the people for the kind reception. After blessing them and visiting the school, the party left for Admiral's Cove by motor boat, where the same enthusiastic reception greeted them.

His Grace then visited the Church, where lies the remains of Mother Bernard Kerwin, one of the first four Nuns that came to the country.

The happy remembrance of the first visit of His Grace will be long cherished in the minds of the people of Fermeuse. Wishing him Ad Multos Annos.

FERMEUSE.

OUR THEATRES

ROSSLEY'S EAST END

At Rossley's last night the audience was delighted with the greatest novelty ever seen here. In fact nothing like it has ever been presented in the history of St. John's. Miss Atlantis, the dainty little lady on the rolling globe, and Donald Fisk held the audience spell-bound and thrilled. The costumes were all changed again last night. Miss Atlantis make fine changes, even to shoes and stockings, while Donald Fisk makes four changes in full view of the audience, making nine changes of magnificent costumes every night. They change many of their tricks each night. The electrical spectacular part of the act is a positive dream of beauty. They have a curtain of gold which is a perfect blaze of brilliancy, and the Serpentine Dance on the Rolling Globe, with the wonderful effects, is something to be remembered. The dog, Jack, also comes in for a big share of applause. The pictures were changed also last night, the great two-reel feature 'Destiny's Night' and others are very fine. Mr. Rossley is to be complimented in bringing such a wonderful act here, clean, refined, daring, thrilling, sensational, magnificent. Rossley's great show is the talk of the town, two shows nightly. Don't miss seeing this wonderful exhibition.

ROSSLEY'S WEST END

Last night at Rossley's West End Theatre the audience were in raptures over the beautiful pictures seen at this popular house. Mr. Rossley has secured some splendid film service, he has made arrangements to have the finest pictures on the market; and those who visited the West End Theatre last night were well repaid and well pleased with the fine entertainment provided. Don't miss the big change of pictures to-night.

THE BRITISH

A most attractive entertainment has been selected for the opening programme of the mid-week offering commencing to-day at the British. Grace Camard and Francis Ford will be seen in the magnificent 3-reel production entitled 'The Phantom of the Opera.' This is a remarkably interesting photoplay and is sure to please even the most critical. Two comedies will also be shown, each one of which is a 'top notcher.' An educational film depicting the porpoise-fishing industry will also prove to be most interesting. Miss Ruth Emblem will sing another of Jeff Brannen's compositions entitled 'Marie, My Marie' and also the pretty ballad 'A Little Spark of Love.'

NOTICE

A General Meeting of the St. John's Prohibition Committee will be held in the T. A. Armoury on to-morrow (Wednesday) evening at 8 o'clock. Every voter interested in the cause is invited to attend. P. G. BUTLER, Secretary.—oct12,2i

Banker Here From Labrador

The banker 'Francis C. Smith,' Capt. Cox, arrived here yesterday evening. She fished at Seal Island the past month and secured 600 qts. for 8 dories, so that she has for the season 2,800 qts.—a good voyage.

The vessel had very stormy weather and found fish plentiful, but the absence of squid was a great hindrance. The vessel is now on her way home to Br. Breton and in Monday's storm she carried all her canvas on her and was blown along to port with a hurricane of N.E. wind behind her in 38 hours. The other vessels down the shore are not doing much and all will soon give up the voyage.

A Street Row

Last evening a disturbance occurred at the foot of Adelaide Street, during which a volunteer who was excited from drink hit a citizen and drove him through the window of a store. He then decamped and his friends in uniform who were disgusted at his action gave his name to the police. The man whom he assaulted was pretty severely cut.

Sagona At Battle Hr.

The Reid Nfld. Co. had the following telegram last evening from Capt. Parsons of the S.S. Sagona: 'Monday, 10.30 p.m., arrived at Battle Hr., wind S. light, close and dark; have about 200 passengers on board.'

Father Assaulted By His Son

Barefooted, hatless and coatless, splashed with mud and exhausted from running, a man named Avery came to the Western Station at 7 p.m. yesterday from his residence in Brazil's Field, asking for policemen to accompany him home and protect him from his son.

He presented a pathetic sight as he stood in the Station with his face bleeding from wounds inflicted by his unnatural offspring and with blood from his lacerated feet, cut from his long journey, incarnating the floor of the building.

The stolid fire-fighters, used to strange sights, were excited to pity by this unusual one and Officers Kennedy and Dawe took the man home. His son he said came home under the influence of drink and attacked him and he will likely appear against him in Court.

Boom For Bell Island

Our exclusive reference recently to a big industrial boom for Bell Island the coming Winter in connection with the D.I.S. Co. was verified in the arrival of Manager McDonald by the last express. As we then stated, the work of opening the new slope at Gully Pond Ridge will begin, and all Winter the other slopes will be worked in full trim with about 1000 men employed, so that a great quantity of ore will be in the stock piles by the Spring and a fleet of ships will freight it to Sydney and other places.

The Mechanics' Industrial Fair

The Mechanics Society will hold their Industrial Fair on the 1st, 2nd and 3rd of next month, and it promises to be a most successful affair. The display of excellent local-made foods will be specially interesting and will be made by several manufacturing concerns here and by a number of the society's members. The air promises to be well patronized.

New York, Oct. 6th.—An important announcement, indicating the success of the Anglo-French loan, was made to-day by J. P. Morgan and Company. It was to the effect that no subscriptions to the underwriting will be received after 10 a.m. to-morrow.

John D. Rockefeller, was reported to-day to have subscribed to the \$5,000,000,000 Anglo-French bond issue. It was said that his subscription was among the largest taken by individual investors and approximately \$10,000,000.

At the Standard Oil Company's offices here a member of the Rockefeller family declined to confirm the report, to deny or to comment on it. Mr. Rockefeller is now at his home at Poncauto Hills.

There is small likelihood that Mr. Rockefeller's participation will ever be announced, unless he sees fit to announce it. The syndicate managers have decided not to make public the list of large individual subscribers, on the grounds that these subscribers are their clients and that to talk of their affairs, would be a breach of confidence.

Big Loan Will Affect Canada Favorably

London, Oct. 1st.—Financial circles here are strongly of the opinion that the big loan negotiated in the United States is certain to affect Canada, favorably. It is pointed out that exchange between Britain and Canada dropped heavily, in sympathy with American exchange, otherwise Canada would have been heavily hit in making gold payments to the United States on behalf of Britain. Certain trade orders having been unplaced in Canada, payments due the Dominion have been deferred in consequence. The exchange situation is now expected to right itself.

The loan is regarded by the Manchester Guardian as a grave blow to Britain's financial prestige. 'Seldom has a financial transaction been proposed which cried so loudly for justification,' says the Guardian. 'It includes every vice with which rumor credits it.'

The London Globe regrets that the loan was not floated on the market when exchange was still normal.

Obituary

MISS M. A. BATES

We regret to learn to-day of the death of Miss Mary A. Bates, sister of Mr. Thos. Bates, accountant at J. D. Ryan's, and daughter of the late Capt. Bates. Miss Bates had been ill for quite a period and her death comes as a release from much suffering. To her sorrowing brother and other relatives The Mail and Advocate extends its sympathy.

That the Russians are in retreat before the Germans, we are forced unwillingly to admit, but we take great pleasure in saying that in many homes hordes of Germans are in full retreat before White Russian Soap. Try it. It is equally good for both laundry and bath. The Cleveland Trading Company are agents.—aug31,1w,1f
