MAY WHEAT IS GOOD AS COBALT

Market Takes big Jump and Shortage Will Keep it Going—Branch Lines Tied up Till Spring

(Contributed by The Canadian Stock and Grain Co.)

The wheat markets of Canada and the United States are now selling at the highest prices of this crop. The May option in Minneapolis having sold a week ago at 77 1/2, today went to 84, closing with a big bull market demand that will send wheat at least ten cents higher in the near future. The great difficulty in moving the crop is having its effect in the increase of wheat in Canada and the United States. Bread-

holders of wheat to squeeze the short sellers who have been such persistent bears on this crop and who will find it difficult to close their contracts except at a big loss. The farmers who have been compelled, through the railway tie-ups, to hold their wheat on the farms, should reap, in a great measure, the enhanced values which will result from the severity of this winter, and they should not be slow to take advantage of this unusual state of affairs and profit by it.

Minneapolis, Jan. 23.—We had one of our old-fashioned markets again today, there being but one side practically the whole day. The visible crop out this morning showing that wheat had decreased 839,000 bushels for the week, where it should show an increase of 5,000,000 bushels at this time of the year. Minneapolis and Winnipeg cars are away below those of a year ago. Our private correspondent from North Dakota reports the Great Northern railway tying up one of their best branches until spring, reports come in from the Soo road to the same effect, saying they have had to abandon one of their best branches until spring, meaning a tie up of one of the best wheat growing territories of North Dakota.

Chicago brokers are heavy bidders for cash wheat this morning, and New York reports export demand good. Minneapolis is reported bidding wheat up two cents in Nebraska, which goes to show that they need the stuff for milling. Bradstreet's report read as follows: "The stocks of grain east of the Rockies decreased 1,251,000 bushels, total U. S. and Canada decreased 1,437,000, while afloat 17,000,000. And Europe stocks of wheat decreased 6,480,000 bushels." There don't seem to be much to say in the way of the bullish news but buy wheat. We have advised buying since Minneapolis May was '64, and at this time things are more bullish than ever. We can see but one side to the market, and advise purchase at these prices, and average on every little decline.

streets' report showing today a decrease of 1,250,000 of wheat as compared with last week tells in the plainest language what is happening to the wheat markets, and why the bull side of the market is the only safe one from now on. The scarcity of wheat at the terminal points gives a great chance to the

DONALDSON WILL AGAIN WIN PRINCE ALBERT DISTRICT

Better Element of Liberals Won't Stand for Sinclair as Executive Head—Names Used Without Consent—Government Workers Kicked out of Lumber Camps—Government Afraid to Issue Writs

Prince Albert, Jan. 22.—As the bye-election campaign advances the chances for a government victory become more and more shadowed in doubt until the candidate himself has gone so far, had not Sinclair been placed at the head of the executive, as it were to whitewash him, something which many of the better element will not stand for. The majority of the farmers are with the Provincial Rights candidate and if for no other reason, out of justice to the man whose rights were outraged in the most unscrupulous manner and the most desperate means known to election crooks.

and he has found this out. Many of the men whose names were used without their consent, have refused to respond to the party call and are giving Mr. Donaldson their support. The estrangement might not have gone so far, had not Sinclair been placed at the head of the executive, as it were to whitewash him, something which many of the better element will not stand for. The majority of the farmers are with the Provincial Rights candidate and if for no other reason, out of justice to the man whose rights were outraged in the most unscrupulous manner and the most desperate means known to election crooks.

vious election and the government representatives were kicked out in the most unceremonious manner. It is well known that the general election played havoc with the lumber interests and when the men got to drinking Government whiskey they could not be induced to work and the camp fell behind.

It is understood that the element in some camps this year are composed of farmers who have gone in for the winter, and they are anxious to hear the political issues discussed. Instead of treating these men as if they were intelligent voters the Government workers approached them as a fire-rail that could be handled with a few bottles of bad booze. This is where they fell down and when the camp vote is recorded S. J. Donaldson will have a majority of these fellows.

NO ELECTION.
It now looks as if the Government after the blowing of trumpets to call the fellows to a Balchour's feast are not going to face the music, for it is hinted from their camp that the election might not be held before the coming session. Defeat to them will be a bitter pill but they have to take their medicine sooner or later.

RETIRING FROM THE FURNITURE BUSINESS

Sacrifice Sale!

Owing to inability to secure a store in any way suitable to our business, we have decided to close out our entire stock of

FURNITURE

Everything in Stock must Go!

We wish to have more money and no furniture on January 1st, 1907. Now is your opportunity! Bargains—Bargains—Bargains—Furniture! Window Shades, Poles, Everything. Can arrange to see you evenings. Goods stored until you require them.

REGINA AFTER COBALT RICHES

New Company Formed Here Will be Wealthy

R. G. Williamson, president of the Casey Mountain Cobalt Mining and Development Co., Ltd., returned a few days ago from Cobalt where he inspected the mining properties owned by the above company, the majority of whom are Regina citizens. This property consists of 160 acres and is situated sixteen miles from

Cobalt town, but is only one and a half miles from the richest mine in that country. Mr. Williamson's brother is superintendent of operations and while they have only gone a depth of twenty-five feet they have the best of indications and their property is prolific in rich white metal which appears to be well distributed and from a letter received from his brother since his return there is every likelihood that this will prove to be one of the biggest things in Cobalt.

The company was formed here last fall, the officers being R. G. Williamson, R. B. Ferguson, Dr. Pollard, and Mr. Reid of Brandon.
