Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of **Dr. J. C. Watson** and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS Bears the Signature of

Mail Contract
A member of parliament for a Scotch constituency, being one of his supporter emerging from the ice post office thought he would have a little joke over the man's thinness.
'Halloo, Sandi!' he remarked, 'I guess you've been in there to buy your war saving certificates.'
'You're wrong, mon,' was the quick reply. 'I've only 'bin in to fill my fountain pen.'

Children Cry for Fletcher's CASTORIA
A little boy, noticing the absence for several days of the little girl next to him in school, inquired of the teacher where she was.
'She was sick,' replied the teacher, 'and the Lord took her away.'
'H'm,' said the boy. 'I was sick all last week and he never came near me.'

Retreat is the Start of Last Battle of War.
(By Wythe Williams.)
I have just ridden a hundred miles straight away through the bit of France restored to her only in the few days by her army. Over devastated fields, pillaged farms, through burned villages, sacked cities, across a desolate land from amid a ruined people, I have returned to Paris to read this ablegram.

complete survey of the 300 square miles of a conquered territory and a glimpse of the new battle front. I am to tell, therefore, for the first time of length of the most important event of the war since the Battle of the Marne.
What is more important is the picture which I must reveal of human savagery worse than followed the 'Scourge of God.' I have looked into the blackness of the German soul! All German hate and frightfulness in the flush of her triumph was a minor thing compared to German hate in the dawn of her defeat. Belgium, Serbia, Lille, all their martyred and murdered, can await their turn when Germany sits at the council table of peace. What will be demanded first is an account for her acts of this last week in the French departments of the Somme and those to the east and west she is doing there to-day—at this hour. Applied to individuals instead of nations it is a record for which the law of France supplied the guillotine, and America the electric chair.

Prince as Snow-Sweeper.
Prince Leopold, of Prussia, one of the Kaiser's nephews, who retired from the field owing to heart trouble, has written to General Von Kessel, the Berlin commandant, offering his services and stating that he would be glad, if necessary, to help remove snow from the streets. The offer has been rejected, as the Kaiser objected to a Prussian prince so demeaning himself as to sweep snow in the public thoroughfares.

How Spies are Outwitted.
DIPLOMATS CANNOT BE TOO CAREFUL.
Every foreign office in Europe acts on the theory that an army of spies are constant on the alert to steal its secrets, and infinite precautions are taken to baffle their efforts. Very shortly after the first use of blotting-paper it was discovered that it was quite possible to cause a blotting-pad to give up jealously guarded secrets by simply holding it in front of a such a thing, the British Foreign Office used a sand-shaker to dry its important written documents.
This specially manufactured ink blotting paper was used, but this was not found to be spy proof, and a return to the sand shaker was contemplated, when someone suggested the simple expedient of a small absorbent roller. These rollers have since been used for drying diplomatic documents. When such a roller has been run up and down a document once or twice the cleverest spy in the world is at liberty to try his hand at deciphering the impressions.

Greatest Rule of Health.
With all their difference in regard to disease, its cause and treatment, doctors are of one mind in regard to the one greatest rule of health, viz: Daily movement of the bowels. Unnumbered thousands of people suffer almost continually as the result of constipation which could be readily cured by Dr. Chase's Kidney-Liver Pills.

Profitable Production.
The prices secured this year by farmers is having the effect of acting as an incentive for many to increase the yield in 1917. Experts say that even at 40 cents a bushel so crop is so profitable, acre for acre, as potatoes. A writer in an Ontario grocery paper admits this importance and profit in a potato crop, but suggests a crop that can be greatly overdone. He points out that the potato has only a limited season in which to be marketed and a greatly abnormal production might not get the year's market as the demand of the year's production.

Spring Impurities in the Blood.
A TONIC MEDICINE IS A NECESSITY AT THIS SEASON.
Dr. Williams' Pink Pills for Pale People are an all year round tonic, blood-builder, nerve-restorer. But they are especially valuable in the spring when the system is loaded with impurities as a result of the long life of the winter months. There is no other reason when the blood is so much in need of purifying and enriching as in the spring. In the spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils—Dr. Williams' Pink Pills speedily clear the skin because they go to the root of the trouble in the blood. In the spring a neuralgia, rheum, tired, indigestion, neuralgia, erysipelas and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life that the blood most seriously needs attention. Some people dose themselves with purgatives at this season, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but it does not cure anything. On the other hand Dr. Williams' Pink Pills actually make new blood which reaches every nerve and organ in the body, bringing new strength, new health and vigor to weak, easily tired men, women and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you.
Sold by all medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

Proper Soil for Potatoes.
The best soil you have on your farm should be given to the potato, because it is more exacting in its demands on the soil than any of the other staple crops and also because the value of the crop per acre is generally greater.
The crop that precedes the potato is also important. A clover, alfalfa, peas or corn—any legume—is a first-rate preparation for a good crop of spuds. Rye or buckwheat plow-d and in good. If you have soil on your farm plant corn first and then potatoes in another.
Another good rotation is tall wheat, in which clover is sowed in the spring; second year, clover, plow under in the fall or early winter; the third year potatoes. However, if you have plenty of land it is best to grow potatoes only one or two years in succession on any ground; thus you avoid diseases.

Where to Place Mirrors.
Place a mirror over the fireplace to reflect the room.
Place one between the windows at the end of a long narrow room to catch the light there.
Place one where it will reflect a charming glimpse of the garden through a window opposite to it.
Place one in the hall opposite to the entrance into the drawing room or living room to give a sense of spaciousness.
Place one on a dark wall where it will catch the light.
Place one in a bedroom where it will reflect the mirror of the dressing table.
Remember that flowers in front of a mirror are twice as attractive as flowers placed against a wall.
Mirrors should be well dusted and the frames lightly wiped with a soft cloth. The best thing to rub up the glass is a pad of old newspaper.

Laugh and Grow Fat.
'Laugh and grow fat' is an old saying laden with value for nervous people in particular. Drop the worry habit and use Dr. Chase's Nerve Food and you will soon get the nervous system restored to good condition. Digestion will improve, appetite will return, and you will find such symptoms as headache and sleeplessness fast disappearing.
The married woman who sobs at the house and looks like something the cat dragged in, often wonders why other women look so good to her husband.

Mineral Exploitations.
There is a mining boom in Cape Breton these days and it is not confined to the exploitation of one mineral alone, but extends to many, coal, iron, magnesite, silicate, lead, copper and even zinc. The boom covers Inverness, Richmond and Cape Breton counties. In Cape Breton county iron and copper are the minerals sought after. At Grand Mira seven-teen miles have been taken out for iron ore. In Richmond, besides copper, lead and silicate minerals, iron is being sought for under not only right of way, but also in the mountains.
The world did not know, Germany certainly did not know—I am not sure that we even knew ourselves, of what Great Britain was capable when all her resources of character and material might were expended to the uttermost. But we know now, the measure has been taken; a great crisis has supplied the test; and the nation which Germany affected to despise has become the chief instrument of that downfall which the coming year will assuredly register.—Sidney Brooks in N. Y. Times Magazine.

You Can Make Excellent Cake With Fewer Eggs
Just use an additional quantity of Royal Baking Powder, about a teaspoon, in place of each egg omitted.
This applies equally well to nearly all baked foods. Try the following recipe according to the Old way.

Old Way	New Way
1 cup sugar	1 cup sugar
1 cup milk	1 cup milk
2 cups flour	2 cups flour
2 teaspoons Royal Baking Powder	4 teaspoons Royal Baking Powder
4 eggs	2 tablespoons shortening
1 cup butter	1 teaspoon flavoring
1 teaspoon flavoring	

Directions—Cream the sugar and shortening together, then mix in the egg. After sifting the flour and Royal Baking Powder together, two or three times, add it to the mixture. Gradually add the milk and beat with spoon until you have a smooth pour batter. Add the flavoring. Pour into greased loaf pans and bake in a moderately hot oven for twenty minutes. This cake is best baked in two layers. Put together with cream filling and spread with white icing.

ROYAL BAKING POWDER

The Great Demand for Horses.
The next few years will see the greatest demand for horses the world has ever known, is the opinion of Wayne Dinsmore, secretary of the Percheron Society of America. His belief is based on the unprecedented destruction of horses in the great war in Europe which some authorities estimate as high as 10,000,000. This country alone has lost many and Austria, as well as all the other countries in Europe, must have been stripped of available animals for military purposes. Russia alone had a supply sufficient to meet her own demands.

The World did not know, Germany certainly did not know—I am not sure that we even knew ourselves, of what Great Britain was capable when all her resources of character and material might were expended to the uttermost. But we know now, the measure has been taken; a great crisis has supplied the test; and the nation which Germany affected to despise has become the chief instrument of that downfall which the coming year will assuredly register.—Sidney Brooks in N. Nervous and Almost Crazy With Pains in the Head
Clergyman Certifies to This Cure of Nervous Prostration by Use of Dr. Chase's Nerve Food.

Dr. Chase's Nerve Food
No ailment is more discouraging than Nervous Prostration. You may feel better for a day or two, only to find the next day that you have lost strength and are worse than ever. The headaches are worse, languid feelings are terribly depressing. As you lose strength you lose hope and courage and look to the future with fear and trembling.
Dr. Chase's Nerve Food is the greatest blessing that has ever come to the sufferer from nervous exhaustion. It does not deplete the remaining vitality, but through the medium of the blood nourishes them back to health and strength.
Mrs. Annie P. Sizer, Ellipton, King's county, N.S., writes—"I was very low with nervous prostration and was about discouraged, as I could not sleep nights and was almost ready with the pain in my side. I had tried many doctors, but seemed to get little benefit from their treatments. A friend begged me to try Dr. Chase's Nerve Food. A single box of this treatment convinced me of its value. For I was better. I cannot tell how many boxes I used, but the results were so highly satisfactory that I cannot praise it too much. My health and strength have been restored so that I can do all my own work, and I recommend the Nerve Food to all who suffer from nervous prostration." This is to certify that I am acquainted with Mrs. A. P. Sizer and believe her statement in regard to Dr. Chase's Nerve Food to be true and correct.—Rev. Arthur A. Williams.

House Reflects Your Character
You are judged by the house you occupy as much as by the clothes you wear. An unspiced, shabby place, showing evidence of neglect, advertises the character of the owner and his family most unfavorably. It implies carelessness and a lack of self-respect. If you have a proper pride in your home and the community in which you live, you will use **B-H "ENGLISH" PAINT**.
With the aid of this guaranteed paint you will have a really fine-looking home at a reasonable cost, which will be a credit to yourself and to your neighbors.
Properly painted, your residence will stand out among the many. Painted with B-H "English" Paint, it will remain for years as fresh looking as the day it was painted.
Have a talk with the merchant who handles B-H "English" Paint in your district. He will gladly supply you with color cards and prices.
L. W. SLEEP, Wolfville, N. S.
