Note's Combined Spinner.
PATENTED --- 1870.
THIS is one of the most useful Spinning
Wheels invented. It is Quill Wheel,
Clock Rod, Spinning Wheel, and Swift,
all combined. By means of a clamp, it
can be attached to a table or stand, and
used in either a standing or sitting posture.
It is quite an ornamental piece of furni-
ture, but when not in use, it desired, can
be folded up and laid away in a Bureau
drawer. It spins faster and better than
any of the old wheels now in use, and with
one half the labor.
