To Joint hous, Esqure, Fature of Artificial & Metallic Faints. Sir, WE the Subscribers, House Joiners and Painters, by trade, having been using your "Artificial Blate" for upwards of three years deem it a pleasing duty to express our online, that this composition far exceeds any other paint for covering the Roofs of House, -apert from its *its* proof quality its value for protecting wood from the decaying influence of the weather is exceedingly important. We know of many buildings covered with asteed similgee painted with Artificial Slate, which have stood the test of summer heat and winter cold, which are now as emooth, as when first laid—the whele roof appears to be cemented together, impervious to moisture and consequently not subject to decay. We regard the application of "Artificial Slate" to issued shungles as a matter of great economic, value, 2 0 0 1 1 0 0 0 10 0 1 10 0 1 0 0 0 10 0 1 10 0 1 10 0 1 0 0 1 0 0 0 10 0 0 10 0
