WEEKLY REVIEW OF TORONTO WHOLE SALE MARKETS.

WEDNESDAY, Oct. 22.

The market has been a good deal unsettled since

our last. In the latter part of last week a sudden

jump upwards in English quotations threw it into a state of excitement from which it has not yet recovered; but which has also been exchanged for an observant posture with operators waiting to see what turn prices will take. The fact seems to be that the advance has been such as to render them unwilling to believe that it has reached its terminus even for a time; and they are resolved to hold on in hope of another jump. Themarket seems, as well as we can judge from the small amount of nformation given to the press, to have been really quiet, particularly in wheat and flour; and the cause of the quietude to be that buyers are unwilling to pay present prices and holders refuse to concede. Stocks-in store have continued to in crease, and stood on Monday morning as follows:

Flour.—The market was excited and prices made a heavy jump upwards in the latter part of last week, but since then it has been quiet with a falling off in the active enquiry of the preceding week. Superior extra advanced about 20c on Friday, when sales were made at \$5.90 f.o.c., and equal to \$6. Other grades have been almost nominal all week, but since then it has been quiet with a falling off in the active enquiry of the preceding week. Superior extra advanced about 20c on Friday, when sales were made at \$5.90 f.o.c., and equal to \$6. Other grades have been almost nominal all week, but since then it has been quiet with a falling off in the active enquiry of the preceding week. Superior extra advanced about 20c on Friday, when sales and weak at \$4 to \$5 each. Third-class have not been wanted at any price, and may be set down as unsalable.

HIDES, SKINS AND WOOL.

TRADE—Has partaken of the general improvement. Hubss—The upward movement has been continued to call Board; holders were not inclined to push sales, and were raised on Tuesday \$1; No. 1 to woot at \$25.00. Receipts have been insufficient and more could find a ready sale. Cured have been scarce and firm, but prices unsatided.

MIDES, SKINS AND WOOL.

TRADE—Has partaken of the general impr jump upwards in English quotations threw it probably be repeated. Small lots unchanged at \$4.50 to \$4.75.

Flour, 500 bbls; fall wheat, 107,921 bushels; spring wheat, 88,487 bushels; oats, 700 bushels; bushels; peas, 11,862 bushels; rye, 11,693 bushels. Outside markets, like our own, were excited up to Saturday, and have since been quiet. English quotations have advanced 38 6d on flour; 6d on spring wheat; 5d on red winter; 3d on white; 9d on club; and 3½d on corn. Markets have been unsettled since Friday; and to-day's report shows them to have been generally weak. In the latter part of last week wheat markets were wild and excited in all the leading centres, and an extensive business was done in all positions for consumption, speculation, shipment, and on pass. willd and excited in all the leading centres, and an extensive business was done in all positions for consumption, speculation, shipment, and on passage at rates 2s per quarter over the quotations of a few days previously. One reason of the advance is probably to be found in short receipts doring the week ending on the 11th inst. The total supply of wheat and flour from all sources in that week were from 368,000 to 376,000 quarters of wheat, showing a deficiency of 30,000 to 40,000 quarters on the average consumption. The home deliveries showed but little increase, being only 77,444 quarters at 48s 8d per quarter against 60,130 quarters at 39s 9d per quarter during the same week last year. The quantity of wheat and flour in transit for the United Kingdom showed a large increase last week, and on the 16th inst. had risen to 2,207,000 quarters, against 1,770,000 on the 2nd inst., and 1,543,000 quarters at the corresponding date last year. The approximate quantity of grain on passage for the United Kingdom for orders, exceptions and the second of the street fall sold at \$1.29 to \$1.31, and spring at 1.25 to \$1.30.

Onthe street fall sold at \$1.29 to \$1.31, and spring at 1.25 to \$1.30.

Onthe street fall sold at \$1.29 to \$1.31, and spring at 1.25 to \$1.30.

Onthe street fall sold at \$1.29 to \$1.31, and spring at 1.25 to \$1.30.

Onthe street fall sold at \$1.29 to \$1.31, and spring at 1.25 to \$1.30.

Onthe street fall sold at \$1.29 to \$1.31, and spring at 1.25 to \$1.30. year. The approximate quantity of grain on pasyear. The approximate quantity of grain on passage for the United Kingdom for orders, expected to arrive during the four weeks from Oct. 2 to Oct. 30, is:—Wheat, 281,000 quarters.

Prace—Have been steady, with sales of cars of No. 2 inspected at 65c f.o.c., which price would proported to arrive during the four weeks from Oct. 2 to Oct. 30, is:—Wheat, 281,000 quarters. comprising 12,000 quarters from the Danube and Black Sea: 124,000 quarters from Atlantic ports: 75,000 quarters from Californis, and 70,000 quarters from Chili and Australia, along with 105,000 quarters of corn, all from American Atlantic ports. Further cable advices state that in the week \$11, with the great bulk selling at from \$9 to \$10. ending on the 13th inst. the weather had been more seasonable but agricultural advices were still most discouraging. Quotations of wheat and ryc straw in sheaves; loose has not been offered. barley still afield were deteriorating from sprouting, damp and discolouration. Turnips and potatoes were badly diseased. Hops were a total failure in many of the best districts in Kent. The wheat marketed was generally unfit for milling. Fine American reds and such varieties of white wheat as could be used in the place of English wheat had been in fair request but if the place of English wheat had been in fair request that if the place of English wheat had been in fair request that if the place of English wheat had been in fair request that if the place of English wheat had been in fair request that if the place of English wheat had been in fair request that if the place of English wheat had been in fair request the place of English wheat had been in fair request the place of English wheat had been in fair request to the place of English wheat had been in fair request to the place of English wheat had been in fair request to the place of English wheat had been in fair request to the place of English wheat had been in fair request to the place of English wheat had been in the place of English been in fair request, but it was thought probable that Russian descriptions would shortly come in favour when the supplies of home-grown increase, as the condition of the new crop is sure to necessitate a large admixture of hard foreign wheat to render it suitable for milling. The further advance in prices which occurred last week was expected; and business was thought to rest upon a firm basis, there is made and the proposed to the control of the cont though it was also thought that increased aupplies of home-grown wheat would probably check the advance for a time

Superior Extra, per 196 lbs......\$6 00 to \$0 00 Extra.

Figure 2.1.0.c. Continental advices by mail to the 6th inst. state that weather in France remained unfavourable; but offered ne obstacle to the preparation of the land for autumn-sowing. Unusual animation character-ized the trade in all descriptions of cereal produce throughout the country. Offers of wheat at the country markets, aithough by no means liberal were less restricted than previously. Growers were evidently keeping back their wheat to allow the of spring corn, which was selling at fairly remunerative prices. Millers bought wheat freely at an ad vance of 1f to 2f-from 20 to 40c-on the week, and flour improved proportionately. The analysis of 75 reports received shows a rise in 53 markets and a fall in five during the week, the remainder having quoted the trade firm and price Values ranged from 47s 3d to 55s per 480 lb free on board for wheat. Trade with offers few and prices dearer : at Havre sellers asked equal to 55s per 480 lbs for red winter wheat on rail. At Marsellles the arrivals of wheat for the week ending on the 27th ult. amounted to only 21,000 qrs., and the stock in the docks had decreased to about 54,000 qrs. The advance in wheat the demand having been active, and prices 1f to 1f the demand having both the weather was fine and dry. At Berlin wheat had been decidedly active, but Turkeys.

Butter, ib. rolls. closed with a reaction and a heavy fall in prices. At
Hamburg there had been a better inquiry for wheat,
and prices showed some margin for exportation. An
advance of 1s to 2s per qr has occurred, but there
was scarcely any of that excitement which characterized many other important grain centres. The best
new yellow Saale and Mecklenburg wheat had sold
Carrots, per dox.

Reacts are dox.

Reacts are dox.

Reacts are dox. losed with a reaction and a heavy fall in prices. At terized many other important grain centres. The best new yellow Saale and Mecklenburg wheat had sold at 50s 6d to 52s., and the choicest lots of new white Saale as high as 54s 6d per 504 lbs free on board-Saale barley to the extent of some 10,000 qrs changed hands during the week, and sellers accepted ls to 2s per qr less money, as sales were being pressed. Good runs realised 42s to 46s, and choice selected 50s to 55s per 448 lbs, free on board. Lower qualities, such as Holstein and Mecklenburg, were obtainable at 36s to 40s. At Darzig increased sup-

The situation in Italy seems not to have been clearly understood, some alleging that the results of the yield were better than expected, and others of the yield were better than expected, and others that large imports would be necessary. It appears that on the 30th ult. there were 1,367,000 quarters for wheat affoat for continental porte from America. States' markets were very much excited on Thursday and Friday, when prices touched the highest point of the season, both at New York and in western markets. At New York and in western markets. At New York and in lots, and the prices of them seem unsettled, the said to have been attained chiefly by skilful manipulation on the part of strong parties. In both quarters it was followed by a strong reaction, shough still leaving an advance on the week. The season, bears the week have been attained chiefly by skilful manipulation on the part of strong parties. In both quarters it was followed by a strong reaction, shough still leaving an advance on the week. The been finactive and not much wanted, but may be regarded as worth from 9 to 11c. Shipments during the processory. It is a special to the yield were better than expected, and others that large imports would be necessary. It appears hat on the 50th ult. there were 1,387,000 quarters that on the 50th ult. there were 1,387,000 quarters that on the 50th ult. there were 1,387,000 quarters that on the 50th ult. there were 1,387,000 quarters that on the 50th ult. there were 1,387,000 quarters that on the 50th ult. there were 1,387,000 quarters that on the 50th ult. there were 1,387,000 quarters that on the 50th ult. there were 1,387,000 quarters that on the 50th ult. there were 1,387,000 quarters that of the 50th ult. The 50th ul sight and in that in transit for England. The deliveries of wheat at seaboard ports for the week ending October 11, were 5,147,062 bush, v. 260,918 bush the previous week, and 8,224,807 bush the corresponding week in 1878. The export clearances from thence for Europe for the week were 4,638,529 bush, v. 4,619,816 bush the previous week, and for the last eight weeks, 41,009,553 bush, v. 27,804,604 bush the corresponding eight weeks in 1878. The visible supply of grain, comprising the stocks in granary at the principal points of accumulation at lake and seaboard ports, and the rail shipments from western lake and riverports:

PROVISIONS. piles caused an abatement of excitement in wheat; but barley was firm. At St. Petersburg the market was animated. Advices from Odessa to the 22nd nult. state that wheat was active and advancing, with large purchases for the Mediterranean ports, whence a steady demand was expected to be maintained.

SCHOOLY—HANRY—At Stonebridge, on Tuesday, October 14th, 1879, by the Rev. Mr. Fletcher, B.A., Wilton, eldest son of Isaac Schooly. Esq., to Susan, eldest daughter of M. F. Haney, M.D., all of Stone-bridge.

B. D. S. D. ferred at from \$2.50 to \$3.

SHEEF.—The late fall in prices has checked the supply; very few, indeed, have been offered, and these few have found a sale at rather firmer prices; but any increase of receipts would at once send prices down again. First class have sold at \$4.50 to \$5 and second-class at about \$4. There has been no export demand heard all week.

CONSIGNMENTS SOLICITED.

Highest prices realized. Drafts on London promptly remitted. Advances against Bills Lading Second-class, dressing from 30 to 40 lbs, have been steady at \$2.87 to \$3 12. Third-class, of poor quality and light weight, have been taken by pediars at \$2.25 to \$2.76.

CALVES—There has been no change of any con-sequence in the market since our last. Receipts have been small but sufficient. First-class, dressing from 120 lbs upwards, have found a steady sale at 6 to 7c per lb, or from \$7 to \$9 each. But second-class, dressing from 75 to 110 lbs, have been slow of sale and weak at \$4 to \$5 each. Third-class have not been wanted at any price, and may be set down

MARKETS BY TELEGRAPH. Montreal Markets.

FLOUR—Receipts, 3,100 bbls. Business is checked by the difference between buyers and sellers' views. Holders are firm at present prices, and buyers confidently await concessions; no transactions were reported; quotations nominal. FARM FOR SALE—WITHOUT

any exception the very best money farm in Canada, situated in the County of Kent, three miles from the Town of Chatham, a splendid business town of 8,000 inhabitants, having railway and water facilities unsurpassed in the Province. This farm consists of 300 acres, 250 in the highest state of cultivation, the other 50 bush. The soil is unsurpassed for richness and fertility in the whole world. It consists of about 8 to 10 inches of black loam, which is nothing but a bed of manure; under this is strong clay. No stumps, no-stones, no Canada thistles or other bad weeds of any kind. There is now growing on this farm 100 acres fall wheat, looking first-class, 120 acres in timothy hay, which cuts from 2 to 3 tone per acre, and only requires seeding once in 20 years. It is capable of raising anything growable in Canada, all kinds of roots and fruit, including peaches, grapes, strawberries, &c. It is also very suitable for dairying or feeding cattle for the Old Country, as the growth of grass is marvellous. There are now, and have been since hay cutting, 100 head of steers pacturing on the timothy meadow, which bring in 3100 per month. The buildings are new, and worth \$4,000; barn 60x15° feet, very large dwelling, stable for Il horses, two-story granary 20x30, corn crib 8x56, shed 18x123. I want \$55 per acre, \$6,000 cash, balance easy payments, and will satisfy any person that, with this payment, two crops will pay the balance. Any person coming to see this farm from any part of Canada, and say that it does not in every particular come up to my description, I will pay his way here and home again and keep him free of expense while here. This farm is well drained; water for stock or house always plentiful. Apply to JOHN NORTHWOOD, Box,845, Chatham.

NEVINS' COMBINED POTATO MACHINI

A. DOBBIE, THOROLD. REPORT OF FIELD TRIAL.

We the undersigned, had the pleasure of witnessing this day, on the farm of Mr. J. W. Munro, a shorough test of Nevins' Combined Potate Machine, manufactured by Mr. A. Dobbie, Thorold, and were highly pleased with the result. We saw his machine dig 7½ bushels of potatoes in one minute and twenty seconds, nicely done, free from cuts and bruises, leaving less in the ground than in the ordinary way of digging.

We are informed, from reliable authority, that this machine works equally as well in planting and heeing as in digging. noeing as in digging.

The implement being on wheels and drawn by two norses, is arranged with a comfortable seat for the river.

From what we have seen, we think this invention a decided success, and ought to commend itself to every potato grower in the country.
