

**WHEN USING WILSON'S FLY PADS**  
 READ DIRECTIONS CAREFULLY AND FOLLOW THEM EXACTLY

Far more effective than Sticky Fly Catchers. Clean to handle. Sold by Druggists and Grocers everywhere.

**Weekly Agricultural Report**

June 19, 1919  
 Weekly Report Agricultural Conditions in New Brunswick, are reported by District Representatives of Dept. of Agriculture.

Seeding and planting of all crops in Maritime and northern Victoria is reported as practically finished, with an estimated increased area in crop over last year of from five to ten per cent. In the eastern portion of the province the grain seeding is finished and farmers are now sowing buckwheat and turnips. Frost during the week, June 11th, retarded the growth of crops generally, but no serious damage reported. Reports from all sections of the province state that rain is needed. Clover wintered well and is making good growth. With a few more good rains, the hay crop will be heavy.

The market demand for all classes of livestock is good. Horses are selling at from \$150 to \$350, for good average farm horses; grade dairy cows at from \$100 to \$125; young pigs \$4.50 to 5.00 each.

Reports on Labor Supply for farms indicate that the supply is fairly adequate in the northern and north-eastern counties, the greatest shortage being reported from Carleton, Kings and Westmorland. Wages being paid for farm help range from \$40 to \$60 per month, with board.

President Wilson has issued an order directing that returned soldiers, sailors and marines may be exempt from the physical requirements for any civil service position.

**Germany's Last Day June 21st.**

Paris, June 15—(By The Associated Press)—Germany is to be allowed an army of 200,000 men for three years. This is one of the changes in the peace terms which has been studiously kept secret.

Paris, June 14—(By The Associated Press)—The council of four finished its labor today on the reply to the Germans, which will go to Count von Brockberg Kautzau Monday. The last day permitted them for acceptance or rejection of the treaty is June 21.

If the German reply is in the negative, the Allied armies will start to march into Germany the following day and a new blockade will be immediately effective.

If the Germans express their willingness to sign the document, the ceremony will probably take place in the Hall of Mirrors at Versailles.

**Thrift Still Necessary**

The need of continued thrift on the part of Canadians is set forth in the following, which is opening paragraph, in the May Commercial Letter, issued by the Canadian Bank of Commerce:

"The need for personal and community thrift is as great now as in the black days of 1918 when it was realized that the most stringent self-denial was requisite to enable us to meet the demands of the Government for more and yet more money with which to carry on the war. The great dread which hung over all a year ago has happily been removed, but we still have a duty to perform, and it is essential that it should be faced. It is necessary to carry on public works that will aid production, such as roads and railways, on a considerable scale, in order to provide employment for the workers. We have also a heavy burden of interest imposed on us by the war, and we have great obligations to those who were maimed as well as to the dependents of those who laid down their lives for our security. These obligations can be met only by a continuance of self-denial on the part of every one in the Dominion."

President Wilson has recommended to the Senate an agreement promising American aid to France in case France is again attacked by Germany.

**ONLY MEDICINE MADE FROM FRUIT**

**Extraordinary Success which "Fruit-a-lives" Has Achieved**

One reason why "Fruit-a-lives" is so extraordinarily successful in giving relief to those suffering with Constipation, Torpid Liver, Indigestion, Chronic Headaches, Neuralgia, Kidney and Bladder Troubles, Rheumatism, Pain in the Back, Eczema and other Skin Affections, is, because it is the only medicine to the world made from fruit juices.

It is composed of the medicinal principles found in apples, oranges, figs and prunes, together with the nerve tonics and antiseptics of proven repute.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

**Fateful Years For All Women**

**How Best to Overcome the Troubles That Afflict Women Only**

The most fateful years in a woman's life are those between forty-five and fifty. Many women enter this term under depressing conditions through overwork, worry or a neglected condition of the blood, and so they suffer heavily. Still, variations of health at this time can be relieved by home treatment.

Among the commonest symptoms are headaches and pains in the back and sides, fever-flushes, palpitation, dizziness and depression. Women stand in need of rich, red blood all their life, but never more so than in middle age, when the nerves are also weak and over-wrought. Now every woman can prove the prompt help afforded to her health by renewing her blood supply. It is a test that any ailing woman can make by taking Dr. Williams' Pink Pills, for these pills make rich, red blood, which in turn helps the appetite, strengthens the nerves and restores robust health. Thousands of women have found in Dr. Williams' Pink Pills the means by which new health and a brighter outlook of life were gained. In proof of this is the voluntary testimony of Mrs. H. S. Peterson, Milford, Ont., who says:—

"I have suffered greatly from those troubles that afflict my sex, and I have found that Dr. Williams' Pink Pills in such cases not only do all that is claimed for them, but more. Dr. Williams' Pink Pills have done so much for me that I urge every weak woman to try them, and they will soon realize the great difference in one's health they make."

If you suffer from any of the ills that particularly afflict womanhood you should avail yourself at once of the health help of Dr. Williams' Pink Pills. You can get them from any dealer in medicine or by mail post paid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

**SUNNY HILL**

Sunny Hill, June 12—Mrs. Gordon Brown and two children Verna and Ruth of South Road were the guests of Mrs. Chas. Robinson on Thursday last.

Miss Mary Weaver of Boletstown was calling on Miss Katie Arbeau on Sunday.

Mrs. James Swin was calling on Mrs. Jessie Robinson on Tuesday.

Miss Lillian McLellan of Rever View was calling on Miss Olive Robinson on Tuesday.

Mr. Edward Walsh of Barnaby was the guest of Mrs. Melvin Robinson one day last week.

Mr. Irvine Robinson spent part of last week visiting friends in Marysville and North Devon.

Mr. and Mrs. James Ballard are receiving congratulations on the arrival of a baby boy.

Mr. Wm. Robinson and Mrs. Jessie Robinson spent Thursday in Redec-ton.

Mr. James Regan was calling on his sister Mrs. Melvin Robinson part of last week.

Miss Millie Campbell and Mr. Stewart of Blackville was the guest of Mr. and Mrs. Wm. Harris several days last week.

Mr. Chas Robinson has purchased a new car from the Lounsbury Co.

 TABLETS  
 Better than Pills GET A 25c. Box  
 For Liver, BILS.  
 Dickson & Troy, Newcastle

**Through the Canadian Alps**

in Canada, opening up an Alpine region of entrancing beauty. It will be possible to motor from Calgary to Windermere between sunrise and sunset through a hundred miles of the most glorious scenery in North America. A good automobile road runs south to Fort Steele and Cranbrook, and from Cranbrook there are excellent roads to Spokane, or eastwards through the Crow's Nest Pass, and back to Calgary. The Good Roads Association of Alberta is enthusiastic over the prospect as this will mean the advent of many tourists from all over America. The new road will also be of great benefit to the Upper Columbia Valley which has many attractions for settlers on account of the fertility of the soil and suitability for mixed farming. This valley is served by the Kootenay Central Railway, a recently constructed branch of the Canadian Pacific.

Between Banff, the popular summer resort in the Canadian Pacific Rockies and Lake Windermere, the head waters of the great Columbia River, lies an Alpine ridge of spectacular beauty, forming part of the Great Divide. This ridge is penetrated by two comparatively easy passes, the Simpson and the Vermilion which lead into the Valley of the Kootenay River, a region abounding in game on account of its being well south of the main line of the Canadian Pacific Railway. Between the Kootenay River and the Columbia River is a small range of mountains through which the Sinclair Pass and Caron provide an easy road. When the first surveys were made for an automobile road between Banff and Windermere it was planned to use the Simpson Pass, named after Sir George Simpson, Governor of the Hudson's Bay Company, who made this crossing in 1841. But the route over the Vermilion was found to be easier and at the same time more beautiful, and construction of the Highway of the Great Divide was commenced from opposite Castle Mountain in this direction. At the same time the road from Windermere through the Sinclair Canyon was also commenced and at the time of the outbreak of war a gap of only thirty miles separated the two roads. War put an end to construction, and a great washout destroyed several miles of the western end, so that the project seemed to have been abandoned. Now, however, the Dominion Government has made an arrangement with the British Columbia Government by which the route of the road comes under the jurisdiction of the Dominion Parks, and a substantial appropriation has been allotted to finish the work. In this way there is every prospect of the early completion of what will be the most wonderful automobile road

**'CANADA AS A BEAR LAND**

(1) Grizzly bear at Banff. (2) Polar bear in Banff Zoo. (3) Black bear cub, Alaska.

CANADA grows bears as well as grains and fruits and other products of the soil to be seen in every province, but it is in the mountain region of British Columbia that he flourishes. There one will find grizzlies and silver tips, browns and blacks and grays, and all the sub-varieties in between, including Teddy and Johnny cubs, among the children. All of these specimens may be seen in the interesting Zoological gardens at Banff, where they are lined up like soldiers on parade, in front of their cages—especially as dinner time nears!

But it is more interesting and exciting too, to see brown as he rups wild in the woods. One day while following a narrow mountain trail in the Rockies, I was surprised to see a few yards ahead, what seemed like a piece of the trail move to one side.

It was a half-grown black bear. Our surprise was mutual, as we unthinkingly voted to separate. Or, on another occasion in Muskoka, when we almost walked on a big shaggy specimen enjoying a supper of wild berries. Here, too, we apologized for disturbing him at his meal, and graciously and quickly withdrew.

On yet another occasion we came upon bear footprints on a snowfield in the Rockies in the Franconian Pass, north of Lake Louise. They were freshly made on new fallen snow. "He's a whopper," remarked our guide, as the toe marks were studied. "and somewhere near too—an old grizzly I guess."

That led to some great bear stories that night around the camp-fire by our guide, who is a hunter as well as a prospector and mountaineer. One especially gave us lively nightmares, of a long struggle he had, alone and single-handed, with a monster grizzly, who, when he stood upright towered above his human foe. It was literally a fight to the death, with the grizzly the loser.—F. Y.
