Paramount.

The steam threshing machine made its first appearance in this locality on Monday last. During the holidays the school has been re-plastered and excellent blackboards put in. This will add much to the internal appearance of the school, and to the comfort of the pupils and teacher during the coming winter.

Colborne.

Corn is in good cooking condition. Seeding preparations are being rapidly propagated. Roots of all kinds, potatoes excepted, will not yield an average crop this year. EARLY SOWING.—Last week Mr. Duster, near the mill, sowed 28 acres of fall wheat.

St. Michaels.

The photo gallery is now visiting our village and is pretty well patronized. WATER SCARCITY.—The water in wells and creeks is getting very scarce, owing to the continued drought.

St. Michaels.

PERSONALS.—Rev. L. O. Rice has returned hale and hearty after a visit of some weeks to St. Paul, Minnesota. Mr. Thos. Pentland, son of Mr. John Pentland, has come to the North-West Territory, with the intention of taking up property if he likes the country.

Dunngannon.

OATS.—Mr. Edward Pacey showed us Monday 38 stalks of oats, all from one grain of seed. Mr. William Fowler has sold his farm at Dunngannon, and has gone to purchase in Manitoba.

Fall Show.

The fall show of the Ashfield and Wawanosh Branch Agricultural Society, will be held at Dunngannon, on Friday, the 7th day of October.

Nimrod.

Mr. William Fowler has sold his farm at Dunngannon, and has gone to purchase in Manitoba.

For Manitoba.

Mr. Thos. Pentland, son of Mr. John Pentland, has come to the North-West Territory, with the intention of taking up property if he likes the country.

Bush Fires.

Bush fires are very severe at present writing. The whole township appears to be alive with them. One large fire is only a few rods from the house of Mr. John Maiz; rather too close to be comfortable this hot weather.

Wax.

Monday last was, I think, one of the hottest days we have had this season. Our villagers hardly know how to keep themselves cool. Some of them, I observed, had their hand pumps at work sprinkling the roads and platforms in front of their establishments, and the result was quite refreshing, making one wish our village could afford such a luxury as a sprinkling cart.

Alarm.

One evening last week a gentleman, upon going into a room in the rear of his building, discovered what he supposed to be a tramp lying asleep, and immediately gave the alarm and sent for our worthy constable, who, with a gun, butcher knives, &c., prepared to give battle. When lo, and behold! the intruder turned out to be nothing more than a stuffed dummy. This is the nearest approach to an occupant for the lock-up we have had yet. Who next?

Base Ball.

The members of the Lucknow base ball club came here last Friday to contest our boys in a match; and we would have had, no doubt, a very pleasant game, had it not been for the young aspirant who accompanied the Lucknow boys to act in the capacity of umpire. He turned out to be an outrage to a friendly game by the way he created disturbances, and excited ill-feeling generally. In fact, it was enough to excite the ire of any peaceably inclined person, to see what was going on. He would lead a perpetual cud in his mouth while favoring his colleagues, which by the way, he would do most glaringly at every presentable opportunity. The game (thanks to the umpire) resulted in favor of Lucknow by 2 runs, viz: Dunngannon 25, and Lucknow 27.

Millburn.

The sawmill will not be running for a week or two. During the interval the general engineer will take a trip up the lakes for his health.

PERSONAL.—Mr. Patrick Layton has returned from the gold mines of the far west, and is as cheerful as ever. The doctor is a great favorite with the boys.

RAH FOR MILLBURN.—So far we are ahead of Leeburn with the yield of our fall wheat. Mr. Allen's wheat threshed, 32 bushels to the acre on Tuesday, by the steamer. Two others with the horse power made 24 bushels. Two Leeburn farmers only of the six, who have threshed got as high as 20 bushels an acre.

Anburn.

Mrs. Young, jr., has gone to Buffalo, to visit her mother.

Mr. Richard's new shop is being rapidly pushed forward to completion.

Bush fires are raging in many places and many rods of fence have been burned.

The Band picnic on the 8th, is going to be a grand affair. Some of the boys are trying to arrange a boat race as an additional attraction.

The Drought.

The dry weather has made water very scarce in this vicinity. Nearly all the wells in the village are dry, and the farmers in the neighborhood are driving their stock a long distance to the river to drink and some of them are drawing water for household purposes.

Purchased.

Joseph Carter has purchased the balance of the McTavish estate on Queen Street, at \$15 per foot, and intends erecting another block of stores next summer. This is another proof of the prosperity of our town.

New Fence.—The Presbyterians are getting a beautiful iron rod fence erected around the church ground. There is about 7 rods of it and will cost \$115. When completed it will add greatly to the appearance of the church.

Sold.—Mr. John Hawkshaw has sold his Commercial Hotel to Robert Milne, of Palmerston, for the sum of \$4,800 cash down, and furniture to be taken at valuation. This is considered a good price and shows that property is advancing in price here.

ACCIDENT.—Mr. D. Kaercher, proprietor of the Blyth planing mill, met with a serious accident this week. While ripping a board, he slipped, and his hand came in contact with the saw, which took off one of his fingers. He had it dressed by Dr. Sloane, and at last reports is doing well.

Lechalah.

PERSONAL.—Mrs. J. E. Holdom, of Detroit, is visiting among her friends here. Her eldest brother Mr. Jno. McKennie purposes returning with her, with the intention of trying his fortune across the lines. We heartily wish him success.—Mr. J. S. Reid of this place, has engaged with J. Stovel, of Guelph in the biscuit and confectionery business. Long live J. S.

BREY.—Farming operations are being quickly pushed forward. Threshing for the present has been suspended, and all are busy preparing the ground for the fall wheat. A good shower of rain is earnestly looked for, many being unwilling to sow their seed until it does come. Pasture is suffering much on account of the drought.

LOSS.—Mr. Roderick Finlayson had the misfortune to lose a valuable horse last week through inflammation.

IMPROVEMENT.—The F. P. church, of this place, has been nicely painted. The appearance of the building is much improved.

Holmesville.

A picnic was held in Mr. Thos. Ford's bush on Thursday last, in aid of the English Church funds. A good time is reported by some.

Holmesville is growing finely, several new buildings are going up this summer. Among these is the new R. C. church, which is being plastered. It is going to be a fine building when finished. The recesses are very plentiful around here. Nearly every patch of corn is infested with these animals. Mr. W. Cantelon succeeded with the aid of his gun and dog in capturing five. They were having a feed on his corn in the orchard. The dog treed them and kept them prisoners until morning, when his master came to his relief.

AN ACCIDENT.—On Thursday last, while engaged in drawing stones from the railroad bridge at Holmesville, Mr. James Graham's wagon tongue dropped as he was coming down the hill. The load taking a road of its own ran off the side of the embankment and upset. Mr. Graham, who was walking, managed to keep the team clear of the load. No further damage than the breaking of the tongue and reach.

Leeburn.

BUSH FIRES.—A fire in the slashing of Mr. Burke on Friday last at one time threatened the house, but the wind averted the flames, and the building escaped.

CASUALTIES.—When returning home from the bush near Sheppardton, Mr. Hogarth, sr., fell over a log and broke three of his ribs.—While Mr. Ackland was mounting his horse the other day the animal fell, breaking his leg. The poor brute had to be shot.

BIO THRESHING.—Mr. Friar's steamer thrashed here on Saturday. At the start a head wind was against it, and a horse power was in operation at Millburn close by, which made competition keen, each firm wanting to 'show' the other. The steamer during the morning had many stops (the more hurrying the less speed), and made a record of 130 bushels; the horse power reported 117 bushels and a trip to the smithy for repairs. In the afternoon luck was better. The steamer finished at four o'clock with 370 bushels to its credit. The horse power thrashed 350 bushels from half-past one until seven, with halts for rest and supper. On Monday the horse power threshed 225 bushels of oats and

25 of peas in an hour and a half. The steamer cleared out a barn of 500 bushels in four hours, and thrashed another 240 of fall wheat in five hours. Both did good work, but the steamer is the favorite.

Goderich Township.

Miss Annie Ginn has taken the place of Mrs. Woodcock as organist in St. Stephen's church, and no doubt will be a success.

Mrs. Peck, of Clinton, daughter of Mr. John Sturdy is very ill.—Also Mrs. Whitley, widow of the late Baptist Whiteley.—Mrs. John Hunter is visiting her daughter, Mrs. Heath, in Dakota.

A very pleasant time was spent at the picnic last Thursday held in the woods, at the back of the 'Jane Field' farm. After all had spent a jolly time in the woods, they were very kindly invited to the house, by Mrs. R. B. Kodie, where they spent the rest of the evening in games, interspersed with a choice lot of music, rendered by Miss Lizzie Acheson and Misses Lodge, from Goderich, and the Misses Hincks and Whitley of Goderich township.

Brussels.

AN INTERESTING EVENT.—One of the largest and choicest assemblages of friends and relatives ever gathered together met at the residence of the late Mr. Charles Woodhall, of Strathroy, on Wednesday, the 24th inst., being the marriage of his third daughter, Eliza, to Mr. W. H. Auld, proprietor of the Brussels Post. About 140 sat down to a well-filled table. Miss Clara Boughtart and Miss Josey Morden filled the position of bridesmaids. Mr. W. Woodhall and Mr. McKinnon acting as groomsmen. The Rev. Mrs. Van Wyke performed the ceremony. We will not attempt to give a full list of those present. The names of a few of the most prominent.—Revs. J. Williston, W. H. Hudson, J. Wood, Drs. Gusten, Henderson, Routledge, Mr. and Mrs. Chas. Gusten, of Forest; Mr. and Mrs. Chas. E. Pratt, of London; Mrs. Auld, Mr. Bentley, Mr. and Mrs. C. G. Scott, Mr. and Mrs. W. Buttery, Mr. and Mrs. Thompson, Mr. and Mrs. James Banghart, Mr. McCraut, Mr. J. Bradshaw, Mr. and Mrs. Ogden, of Strathroy; Mr. and Mrs. George Gusten, of Arkona; Mr. and Mrs. T. Misses Gusten, Pratt, Whitney, Morden, Vennor, Wood, Eglinfield, Andrew Morden, Mr. and Mrs. C. A. Woodhall, Mrs. Williston, Mrs. Van Wyke. A very pleasant time was spent. The presents were numerous and costly. The newly married couple left for the West on the evening train to spend their honeymoon.—(London Free Press.)

Ashfield.

The Council met at Young's hotel, Kintail, on the 26th of August. All the members present. The minutes of last meeting were read and signed. Letter from Mr. Robt. Murray, clerk of West Wawanosh, with copy of resolution of Council relative to the Northern gravel road. Petition of Wm. McBride and others for opening certain streets in the village of Port Albert. Mr. Jos. Brown, collector, presented his bond. Moved by Mr. Whitley, seconded by Mr. Clare, that the sum of twenty-five dollars be presented to the Ashfield and Wawanosh Agricultural society. Moved by Mr. Clare, seconded by Mr. Griffin, that Mr. Whitley be instructed to have the bridge over the nine mile river S. L. 3 and 4 con. 4, plank and repaired. Moved by Mr. Whitley, seconded by Mr. McMurchy, that the collector's bond be accepted as satisfactory. Moved by Mr. Whitley, seconded by Mr. McMurchy, that a rate of two 8-10 mills in the dollar be imposed for county purposes and the clerk be instructed to take the necessary steps for opening a road through lot 38, Lake Shore Range, and closing up and selling that part of the road allowance between lots 37 and 38 near the lake. The following accounts were ordered to be paid:—S. Hagan, plank bridge on nine mile river, S. L. 6 and 7, con. 4, 819; do. repairing culvert on S. L. 3 and 4, con. 5, 83; T. Studart, cutting hill on S. L. 3 and 4, con. 1, \$25; W. Misner and J. Smith, filling gravel, 82; J. McCaig, repairing Dunngannon hill, \$22.50; Waterloo M. In. Co., part premium of insurance on Dunngannon court house, \$2.50; J. Hepples, grading surface on Huron st., at Port Albert harbor, 875; T. Hussey, repairing culvert on lake shore road 80 cents; D. Smith, clearing on con. 12, near J. McDonald's, 83; 10; R. Farrish, 456 feet plank, 82.75; N. E. & C. Co., printed forms, \$1.50; Wm. Hardy, boarding, 10; Boyle, an indent, for 18 days in February last, 85; M. Dutton, repairing hill between lots 19 and 20, 81. By-law No. 13 imposing rates for county, local and school purposes, was read and passed. The Council adjourned to meet again at myrtle's hotel, Dunngannon, on Thursday, the 13th of October.—John Cooke, Clerk.

Sir Charles Gavan Duffy, who has come to the surface of Irish politics again, belongs to dead past rather than to the living present. He was one of Smith O'Brien's followers, and was engaged in the Cabbage-Garden fiasco of 1848. He and John Mitchell and some others were banished to Australia. Sir Charles took to local politics, and in the course of time became Premier of the colony and was knighted. He is not the first rebel who has bloomed into a loyal and conservative subject. He lost office in Australia, and after many hopeless efforts to regain it, gave up the struggle and returned to England. As we said before, Sir Charles' forte is not action but reminiscence. But his career shows some of the vicissitudes of life. From a convict to a belted knight is a long ladder to climb.

How to Order a Change of Address.

In ordering the address of your paper changed, give the old as well as the new address, and sign your name as plainly as possible. Due observance of these suggestions will save us much trouble and expense, and insure prompt compliance with the request to make the change.

THE WORLD OVER.

W. T. Bray, of Wingham, is attending a meeting of the Pharmaceutical Association in Kansas City.

Six of the family of Mr. T. Kidd were poisoned (not fatally) on Sunday last. Tomatoes are supposed to have caused the trouble.

Mr. H. Gibbons, of Winthrop, has given up the Winthrop hotel, leasing it to Mr. Cokley, who has a brother residing in Hullett.

A twelve-acre field of wheat belonging to Mr. F. S. Gifford, two miles east of Colborne, was set on fire by sparks from a G. T. R. locomotive. The grain was cut and in shocks ready to come in.

On Sunday a young man by the name of Joseph Beckett, apprentice to W. Holmes, blacksmith, Wingham, was accidentally drowned while bathing in the river.

The youngest qualified second-class teacher in the province is Chas. B. Carveth of Port Hope, aged thirteen years. The precocious young chap is also blessed with splendid bodily health.

Peter McGregor and D. McIntosh, near Brucefield, have returned from the old country, they brought out with them two fine stallions and two brood mares.

NEW YORK, Aug. 23.—Teresa Jarudch, eleven years old, died on Sunday of erysipelas of the face and head, following the piercing of her ears with a large needle for earrings. Her mother, who is a recently arrived German, was distracted with grief when she learned what had probably excited the attack of erysipelas.

ACCIDENT.—Last Saturday evening, as Mr. Robert McElroy, son of Mr. James McElroy, of McKillop, was driving home from Seaford, his horse becoming frightened at a cow lying on the road, shied into the ditch, throwing Mr. McElroy out of his buggy and breaking his leg. On being taken home the injured limb was set, and he is doing as well as possible under the circumstances.

"Sweet clover honey," offered in a New York store, was made thus: The comb had been made by machinery out of paraffin wax, and after the cells were filled with glucose a hot iron had been passed over the wax tops, thus closing them. The glucose had been made to resemble honey in both taste and appearance. Thus has our modern civilization risen above nature and her ways. The French long ago learned to make cheese without milk.

AN AGENT BEATEN.—A London fanning mill agent beat the world's Record. One of them was trying to sell a mill to a Delaware farmer, and there being a difference between them of three dollars, which no amount of talk could diminish, the farmer offered to wrestle the agent to settle the matter. If the farmer went under he was to pay the agent's price, and if the battle went against the agent the mill would be sold for \$100 less. The agent hesitated, but at last assented, and at it they went. After a terrific struggle the agent succumbed to superior weight and muscle, and bit the dust. However he had made a sale, and the farmer had made three dollars. So they parted, both well satisfied.
