He puffs and does more to build up a town than any one else, and the miser and fussy are benefited, yet they will not take his paper, will borrow it, read it, and curse the editor.

The Cornwall *News* has the following complimentary reference to a Goderich man, a son of Mrs. James Bisset, East street, in a report of a school entertainment recently held in that town:—"A proper notice of the evening's entertainment must include the admiration each one felt viewing the artistic crayon work of Mr. Frank Bisset discernible on every blackboard in the building. Finally she put the following: "Now, children, what have we to fight against in this world at the present day?" The little fellow from Goderich hoisted his tiny hand, and convulsed the school by promptly replying in a firm tone "Indians and halfbreeds!" He observes the times.
