OFFICIAL.

LONDON, March 5.
The Governor, Newfoundland:
The Admiralty reports that the attack on the Dardanelles was resumed on Wednesday. Results within the Straits are not yet reported. Outside the Straits, an observation station has been demolished on the Gallipoli Peninsula. Turkish guns and troops were bombarded in Adramytti Gulf, and forty Turkish guns have already been destroyed, also Hulvir forts. Kavack Bridge is wrecked.

The German submarine U-5 was sunk in the English Channel yesterday. The crew was captured.
The merchant vessel Thoridis rammed and probably sunk a German submarine on February 28th.
The French Government reports the loss of an advanced trench north of Arras. In Champagne, where further progress has been made, two German Guards' regiments were defeated with heavy loss. A German aeroplane has been captured near Verdun.

The Russian Government reports some progress on the Niemen and in Northern Poland, where fighting is especially stubborn. In the Carpathians the Austrians continue their fruitless attacks, suffering immense losses.

HARCOURT.

ST. PIERRE BULLETIN.
PARIS, via St. Pierre, March 5.
In Belgium, on the Dunes, our artillery destroyed German trenches north of Arras. The enemy captured a trench recently built by us in proximity to the German lines. The bombardment of Rheims lasted all day, a shell falling every three minutes. In Champagne the German counter-attacks against the height taken by

us N.W. of Mesnil les Hurles was exceedingly fierce. Two regiments of the Guard fought with great ferocity, but their efforts were a complete failure. We have progressed in Vauquois district. Operations of the Anglo-French fleet in the Dardanelles continued yesterday. A French division under command of Vice-Admiral Guepratt, operated in the Gulf of Saros against the forts and isthmus of Bulair. The French protected cruiser Suffren efficiently bombarded Saitarie Fort and Gualoes Sat Atré and the barracks of Napoleon fort, compelling the garrison to evacuate. The cruiser Bouvet also seriously damaged Kavak Bridge. The expeditionary division is commanded by General Damade, and composed of Canadians, Australians, Senegalese, Moroccans and Egyptian troops, who have started to land on both sides of the Straits. The presence of this landing force will greatly facilitate the ships' operations.

In Belgium, Dunes district, our artillery swept a German trench and enabled us to take possession of the same. Our progress in Champagne is maintained and strengthened. German prisoners taken, confirm the report that the Prussian Guards suffered most heavily in the recent fighting. A German attack on Four de Paris and Vauquois was repulsed.
Near Verdun a German aeroplane was brought down in our lines, and both aviators were captured.

PIRATES IN PRISON.

DOVER, March 5.
The Admiralty announces that the crew of the U-8, numbering 29, was landed at Dover to-day and taken to Dover Castle under armed escort. The U-8 was smaller than the latest German submarines, her displacement under water being 300 tons.

NAVAL CHANGES.

LONDON, March 5.
Vice-Admiral Sir John Jellicoe was promoted Admiral to-day. Admiral Sir Hedworth Meux was appointed Admiral of the Fleet, in Sir John's stead. Sir Hedworth, until to-day, has been Commander-in-Chief at Portsmouth. He is fifty-nine years

old. This shift in command of the Home Fleet came as a great surprise.

ANOTHER GERMAN SUBMARINE REPORTED GONE.

PARIS, March 5.
The Ministry of Marine to-day gave out a statement as follows: During the day of March 4th, a French warship, belonging to the second light squadron, cannonaded a German submarine of the U-2 type in the English Channel. Three shots struck the underwater craft and it disappeared. No trace of her could be found.

SIR JOHN FRENCH'S REPORT.

LONDON, March 5.
Another of the semi-weekly communications from the headquarters of Sir John French, was made public to-day by the Official Information Bureau. It is under date March 4th, and is as follows: Since last communication the situation on our front has been unchanged. Results of artillery exchanges have been consistently satisfactory. Minor enterprises have been of daily occurrence and usually on our initiative. South of Ypres Canal we captured a German advance trench during the night of March 1st and 2nd, but it was rendered untenable by the enemy's artillery fire during the next day, and was evacuated. In the same neighborhood on the 2nd, the enemy was forced to evacuate a trench by our artillery fire, enabling our infantry to inflict several casualties by firing from the trenches. During the night of March 2nd and 3rd a German party were dispersed by a small party, who advanced and bombarded them. On March 2nd one of our aeroplanes flying behind the German lines was twice attacked by two German machines, but forced them both to descend.

"Rambles in Belgium."

Rt. Hon. Sir E. P. Morris lectured to a large gathering at the Casino Theatre last night, taking as his subject "Rambles in Belgium." After being introduced by the chairman, Mr. W. J. Ellis, the lecturer dealt interestingly with his subject for upwards of two hours, referring to the historic associations of Belgium, "the customs of her people, her progress in arts and learning, and the magnificent part played by her heroes in the greatest struggle of the centuries. The bravery of her King in the struggle against the shameful cruelties of Germany were especially commented on. The discourse was illustrated with lantern slides, which added much to its interest. At the close a hearty vote of thanks proposed by Mr. George Coughlan was accorded the lecturer by acclamation.

Another Roper Volunteer.

The name Roper is becoming synonymous with warfare. The Ropers are, no doubt, contributing their quota towards His Majesty's forces. Seven of them, three with the Army and four with the Navy (an English cousin has won the Victoria Cross) are now in harness at the front. Only yesterday Mr. Fred C. Roper, son of Magistrate Roper, came to the city. Immediately on arrival he enlisted with the second contingent at the C. J. B. Armoury. Volunteer Roper gave up a lucrative position in the Bank of Nova Scotia at Bonavista. He is a nephew of Mr. Joseph Roper
