"Liberal-Reform" and the Country's Condition.

The people of Hr. Main who are to be asked on March 12th to elect two members to represent them in the Assembly, have had, like the rest of the country, fifteen months of the rule of the Liberal-Reform Party and with the sample of Government which the Liberal-Reformers have given them in that time, and the people can judge for themselves what they are likely to encounter during the rest of the term of the present Legislature. Everybody in the country before the General Elections in November, 1919, had it dinned into his ears that the Liberal-Reformers were going to bring in their train such benefits for this country and its people as were never enjoyed before, that it was to be made into a land flowing with milk and honey, that everybody was to have unlimited employment at the highest wages, and that, in the homely way of saying things, our people would never see a poor day again. At the time they were enjoying a substantial measure of prosperity, times were good, labor was abundant, wages were high, fish was fetching fine prices, and the condition of every class amongst us was such as had never before been enjoyed. However, the Liberal-Reformers screamed themselves hoarse in denouncing the Government then in office as being made up of crooks and grafters, who had enriched themselves at the expense of the taxpayers, and the Liberal-Reformers promised the people that if they would but overthrow these grafters and put them in office, they would ensure for the people even better times than then existed, and would also guarantee the people the additional advantage that an end would be made to the carnival of corruption and extravagance, which they said existed previously, because all of their party were true-blue patriots, working solely for the public advantage, and not wanting anything in the way of money or any assistance whatever from the public funds. On the strength of these promises the people elected these Liberal-Reformers and then looked for these promises to be made good, but can anybody apart from the Liberal-Reformers themselves, and their army of hirelings, say that any benefit has come to the country or to a single element in it from the overthrow of the last Government and the election of the present party to power?

Twenty-five years ago, Newfoundland was visited by a financial disaster known as the "Bank Crash." The effects of which were felt in every settlement great and small around our whole seaboard, but the conditions which the Bank Crash produced were no worse than those which exist to-day, or which still threaten this hapless country. The people of the country in those times had

nothing like as much to pay for every necessary of life as they have to pay at present, and if they got small prices for their fish or for their farm produce, they came out of the transaction every year a great deal better than they can with conditions as they are to-day. The Liberal-Reform Party because of its incompetence and mismanagement has, in a few short months, brought this country down from the heights of prosperity to the very depths of adversity. Go where you will, in the city or in the outports, you find the same conditions existing. The people are impoverished and see nothing before them except misery and discomfort. Friends of the Government are rolling in riches, taking big salaries and getting all sorts of money "on the side," but the taxpayers are brought to the very verge of beggary. Take the tradesmen of St. John's, for instance. Never in modern years has there been such unemployment and hard times as the past fall and the present winter. Last week deputations from the various Unions and Labor organizations waited upon the Municipal Council in St. John's asking that work be given the needy unemployed in clearing snow from the streets, and the people looking for this work are men who a few months ago were prosperous, happy, contented tradesmen, mechanics and well-paid workers in every line. If the mechanics are in this unfortunate position the 'Longshoremen and others are even worse off; and, although this is the worst winter in history, with coal twenty dollars a ton, four fifteen dollars a barrel, and sugar twenty-five cents a pound, the distress and hard times in St. John's help to cause distress and hard times in the outports. The people of St. John's cannot buy from the people of Harbor Main all the articles that these have to sell, such as potatoes, and other vegetables, meat, splits, wood, and every other requisite out of which the men of the different settlements of Harbor Main District were able to make their living, or, if the people of St. John's manage to buy at all they can only buy at a much reduced price, and consequently the people of Harbor Main District have to cut down the amount they ask for all of these different articles. Proof of this has been given the past few months in the way that the prices of potatoes, meat and other things have had to be cut because of the hard times in St. John's which have been directly brought about by the mismanagement of the men now in power and the extravagance of the present Government.

But, bad as conditions are to-day, the thing which the people of Harbor Main, as well as of every other District of the country have to face, is the fear that things will go very much worse the next few months as a result of the commercial collapse brought about by the blundering stupidity of the Government in relation to our fisheries. After attempting to enforce the crazy policy now known as the "Fishery Regulations" the Government were compelled, at the end of the year, to abandon these in regard to Italy and Greece, and last week the fish exporters decided to call upon the Government to abandon them so far as Portugal was concerned. The Fish Exporters only took this step because they were convinced, by the utter hopelessness of Coaker's scheme that the situation had gone beyond recall, and that the sooner they cut loose from all regulations and got back to regular methods of business the better, if indeed they had not waited too long and left the country in a condition of commercial paralysis. The most direct result of the Coaker policy in regard to the fisheries has been to leave the country to-day with more fish of last year's catch in St. John's and the outports, unsold and with little or no prospect of

sale, than ever before in its history. To-day the stores of the merchants are filled with fish which ought to have been sold in the foreign markets months ago. It is doubtful if much of this fish can be sold now, because in another month or two the Norwegian catch of the present winter will be ready for sale, and after that there will be British, French, Icelandic and other fish offered to our customers in Southern Europe. This means that conditions will be worse in this country during the next few months than at any time the past twenty years, and the people of Harbor Main are going to share in the distress and depression which that condition of things will bring with it. The people of Harbor Main will consequently be showing sound judgment if, in the pending election they line up as one man against the Government and administer these corrupt politicians a well-deserved check by voting for the Opposition candidates.

DR. JONES AND CAPT. LEWIS, Curlers' Charity.

A VERY SUCCESSFUL AFFAIR. The Charity Sports held yesterday by the St. John's Curling Association was a great success, the amount raised on behalf of the city poor exceeding all expectations, and the total now on hand has doubled all previous records in the history of the Curlers, and every credit is due to the committee for their splendid efforts. Begun at 9 a.m., the rink was occupied all through the day, and the different games were well contested, and were thoroughly enjoyed by the large numbers who attended. His Excellency the Governor and suite visited the rink at 11 a.m., and showed great interest in the games. He was so pleased that he returned at 4 p.m., and was made feel at home by the members of the Association. The ladies were kept busy all through the day, and early in the evening the tea was sold out, and the hundreds were reluctantly refused admittance to the tea tables. The Methodist Guards' Band was present during the morning and rendered a number of excellent selections, which were highly appreciated. The C.L.B. Band attended during the afternoon and gave their usual high class renditions. In the evening the C.C.C. Band assisted the Curlers, and remained till the closing hour, giving a first class rendition of all the latest musical selections. The auction was the biggest event of the day, and was a success, and yesterday's record results has been their reward. To President Higgins and his energetic committee congratulations are extended for their splendid work on behalf of charity. A meeting of the committee in charge of the Charity Day, will be held during the week, when all matters will be finalized. The total amount realized (including the auction) will be in the vicinity of \$3,000, the largest on record.

Died Suddenly.

Mr. William Green, of Jackson and Green grocers, died suddenly at his residence, Freshwater Road, at 8.30 o'clock last night. Mr. Green had been engaged shovelling a path from his stable to Freshwater Road during the day and at 5 p.m. visited his store where he remained for an hour serving customers. He returned home soon after six o'clock and half an hour later passed out. Deceased was a native of Placentia, was widely known in the city, where he has resided for upwards of twenty years.

Ready for the Ice.

The aeroplane which will be used at the icefields for the purpose of locating the main patch of white-coats, is now being rapidly put in readiness for its trip, and will probably take a flight to St. Anthony with mail from Botwood about March 1st. The plane which is fitted with a powerful wireless apparatus, will, when it leaves for the icefields, carry a supply of foodstuffs sufficient to maintain its crew for some weeks. The ice navigator will be Capt. S. H. Winsor.

MINARD'S LINIMENT FOR RHEUMATISM.

Girl Students Play Exciting Hockey.

M.C. DEFEAT SPENCERIAN. Before much admiring fans the girls of the Methodist College defeated the Bishop Spencer team by a score of 4 goals to 1 in the Prince's Rink last night. The game was a most fascinating one and the spectators were kept in a state of perpetual excitement. The sound of the puck catching their breath and uttering excited gasps was distinctly audible all over the rink. Mr. Cooke Cahill refereed the game and in spite of the danger which his onerous position entailed he did his work manfully, although at times he was nearly smothered by the crowd. The game was a full trial of the girls' hockey, and full trying to keep the game under control. The first period was a very thrilling one, the M.C. team scoring three goals, whilst their opponents were unable to find the net at all. At times the game became very speedy and the players, each the whole, to be rapidly from one end of the arena to the other.

The second period was not quite so fast, the only goal scored being by the Spencerians after a nice bit of play. The third period would have been very good if it had not been spoiled by some very rough play. Occasionally, the referee was actually forced to order two or three players off the ice at the same time. During this period the M.C. scored once, the game ending in their favor.

Some excellent individual play was got in occasionally by the men (or is it girls) of both sides, whilst the back checking of the defences would have done credit to any league players, yet a little more attention paid to the off-side rule would not be out of place. Gratulated upon their first attempt at the difficult game of ice-hockey. It is hoped that a return match will be played shortly.

The line-up was:-
M.C. goal M. Davis
defence M. Robertson
centre H. Moulton
right J. Parsons
left M. Lawrence
S. Chalker
M. Hunter
J. Miller
Spares-B.S.C. - J. Hutchings, D. Bellars, M. Rogers; M.C.-E. Martin, F. Soper.

Shipping Notes.

Capt. Tavernor of the Reid Coy. wireless last night that the Kyle passed Cape Pine at 6.10 p.m. Motor S.W. wind was blowing and newly made slob ice extended all down the shore. S.S. Canadian Sapper, Capt. Bluin, 4 days from Halifax, reached port at 10 o'clock last night. The Sapper encountered considerable slob ice after reaching the coast but came through without damage. A message has been received in the city from Capt. Coed of the S.S. Delco which was jammed in the ice-does 180 miles from Halifax stating that the ship had got clear and was proceeding to Halifax. The Delco's propeller not damaged as was previously reported; everything being in first class condition on board.

Congregational Social.

The Ladies' Aid of the Congregational Church held a very enjoyable social last night in the lecture hall of the church. There was a large attendance and a splendid concert program was gone through, solos being contributed by Misses Mitchell, Hampton, Steel, Meadames H. Small and H. Christian, and Messrs. D. McIntosh and R. Steel. Miss Orgon and Mrs. J. Whitley entertained the audience with violin and mandolin solos, whilst Miss Estelle Barnes, was heard to great advantage in a very pleasing recitation and Mr. H. G. Christian closed the programme with selections on the piano. After the concert tea was served and the affair was brought to a close at 11 p.m. with the singing of the National Anthem.

MISSION TO SCHOOL CHILDREN.

The Redeptionist Fathers are now giving a mission to school children at the R.C. Cathedral. The services will be continued during the week and are being given twice daily.

Hockey Notes.

Up to press hour we were unable to find out whether to-night's game between the Terra Novas and St. Bon's would be postponed or not. It is said that the ice is very soft but no definite information could be obtained.

The St. Bon's Terras game will be the last for the season unless, of course, the League will play the extra round for which the Rink Directors will provide a special cup.

A game between the Commercial Cable Company and the Post Office is scheduled for 11 a.m. to-morrow. Judging from the games put up by these teams last year, to-morrow's ought to be a good exhibition.

Train Notes.

The incoming local express, which has been nearly a week out from Port aux Basques, was at Arnold's Cove this morning. It is being preceded by a rotary.

A train from Carbonear was due here this morning. The Heart's Content branch is again open, but passengers who left by this morning's train did not connect.

A rotary left town this morning to attempt to clear the Placentia branch line.

The Bay de Verde and Trepansey lines are closed.

A mixed train went out to Carbonear at 6 p.m. yesterday.

The regular morning train left for Carbonear at 8.45 a.m. to-day.

A mixed train leaves here for points as far as Millerton Junction this afternoon.

It was raining out as far as Holyrood this morning and the storm is coming this way.

Store Robbed.

Thieves Enter New Gower St. Shop. Early yesterday morning, an entrance was forced to the store of J. Noah, New Gower Street, and a large quantity of watches and other jewelry stolen, as was also some small things left in the till. The police have been put in possession of the facts and will probably round up the perpetrators soon.

McMurdo's Store News.

THURSDAY, Feb. 24, '21. The taste for Chlorate of Potash Tooth Pastes is not merely a fad; there is a sufficient psychological reason why dentifrices containing this article should be well thought of and popular. Chlorate of Potash is an efficient astringent, cures ulceration of the mouth, tongue and gums, and tends to place and keep the mucous membrane in first rate condition; it has also been found to be a good cleanser and whitener of the teeth. Properly combined in a tooth paste with antiseptics, aromatics and sweetening agents, it has all the qualities of a perfect dentifrice. One of the finest of these Chlorate Tooth Pastes is Tepeco, an all Canadian preparation, and one which we believe will give the fullest satisfaction. Price 60c. a tube.

Annual Carnival at Parade Rink to-night. Four prizes for ladies, four prizes for gents. Tickets will not admit. General admission 20c. General skating after fifth band. Empire Band in attendance.-Feb. 24, 11

Has Made Many Friends.

Major Gallaher Salvation Army, who is delayed in the city owing to the difficulties of railway connection, will tonight conduct a meeting at No. 1 Citadel New Gower Street. Probably this will be the Major's last meeting in the city for some time, and Salvationists and their friends may be expected to gather in full force. The Major has made many friends in St. John's; that he will make many more in the outports when cleared rails permit of travelling-is certain.

From Cape Race.

Special to Evening Telegram. CAPE RACE, To-day. Wind southwest, fresh; weather dull, shore packed with ice and ice as far as can be seen everywhere. The s.s. Kyle passed west at 4 and another steamer west at 7.30 p.m. yesterday; no vessels in sight to-day. Bar. 29.75; Ther. 38.

Broken Faith.

FLOWERS BLOOMING. - Notwithstanding the troublous times in Ireland, the Freeman's Journal of the 2nd inst., says that buttercups and primroses are now in bloom in Wexford and the other Southern Counties.

"In Flander's fields the poppies blow," O'er those who bled To save the world from overthrow. The poet said: Their torch is quenched, whose souls withstood The might of tyranny, That Liberty and Nationhood, From trammels forged by malice, should Forever flourish free.

The buttercups and primroses On Wexford's hills are fair; But, ah, they cannot hide, alas, The crimes committed there. In England's name—To England's shame—Our Empire's despair!

Primroses by the hedges seen Are spotted red with blood, I ween, Aye, hushed blood, of that we know Which dyes the soil, where poppies grow. 'Bove hero hearts that sleep below, In Flander's fields, DAN CARROLL.

The Bell Island Tragedy.

MISSING MAN NOT YET FOUND. No sign has yet been seen of the man Squires who was reported missing from his home at Bell Island since the 19th inst. According to the report received by the Inspector General, Squires left his home at 1.30 p.m. on the day in question, in company with Kenneth Butler and J. Hodnot, and went off on the ice at No. 6 slope. After getting out on the ice he left the others and went east. When he was about a mile away from them he returned to land for a piece of rope, and having got it, he went out again to pick up a bird he had killed. The others were near the shore at the time and hearing the ice crack, they landed at once. Squires was at this time about two miles below the east end of the island. He started for the shore and when he got in he shouted to the others to catch the rope. There was about 100 yards of shore ice, and between it and the moving ice there was a channel of nearly five feet. Hodnot started towards Squires, but when he had covered half the distance Squires left the place where he had been and started off in a westerly direction. Hodnot shouted to him but he paid no heed and went on his way. Hodnot followed as far as he could and then returned. He got up on the bank below Freshwater and followed as far as No. 1 slope. He did not see Squires after getting on higher ground but heard him shouting and firing, the sounds appearing to come from the direction of No. 6 slope. Hodnot subsequently went home and reported Squires as missing. Search parties have been sent out, lining the cliffs and places where they could get to the shore. They watched all night but could see no sign of the missing man, the ice having moved off considerably in the meantime. On the following day a search party in a boat went over near the ice but not a trace of him could be seen.

Squires was in the survey office of the D. I. S. Co. and was also a member of the C. L. B. Band of Bell Island. He was 25 years of age and married.

TOO MANY COOKS spoil the broth, but two Professors, working in harmony, have made a magnificent success of the "Prince of Plisen." Tickets at Royal Stationery Co.

SLOB ICE.-Messages to the Minister of Shipping received yesterday from Baccalieu and Old Perlican report a solid jam of slob ice as far as can be seen.

NO STORM SIGNAL is hoisted to foretell the row between Tom Wagner and the Prince of Plisen which occurs in the first act, but they fight so madly that Gus Neary has to arrest 'em.

FRESH AIR FADDISTS can find no fault with "The Message of the Violets" or "Song Havens" in the "Prince of Plisen." Those airs are pure and fresh as the breath of heaven.

DON'T LISTEN.-If you've sworn off smoking for Lent, go out in the Lobby when Cabot Fitzgerald begins his "Smoking" song, or you'll topple right off your Lenten smoke stack.
