SILVERTOWN CORD TIRES.

The St. George's Coal Fields, Limited.

We wish to advise our Shareholders as well as the general public that since starting our development on the above named area some three years ago, we have uncovered and prospected over FIFTEEN separate SEAMS of COAL, SEVEN of which come well within the range of workable COAL SEAMS, namely:—

Containing

The Howley on the Robinson River 4 ft. 2 inches Coal
The Cleary on the Barachois River 2 ft. 2 inches Coal
The Jukes on the Barachois River 5 ft. 5 inches Coal
The Furlong on the Barachois River 3 ft. 3 inches Coal
The Murray No. 1 on the Barachois River 3 ft. 3 inches Coal
The Murray No. 2 on the Barachois River 5 ft. 5 inches Coal
The Tom Diamond on the Barachois River 2 ft. 2 inches Coal

Total 25 ft. 10 inches Coal

As we are now satisfied we have a Coal property with sufficient Coal in sight to warrant any reputable Company to finance and work on an extensive scale, we have invited Engineers to examine the area during the coming spring.

In order to defray the necessary expenses which must be met, such as keeping the shafts and tunnels on the various sections of the property open and ready for the inspection of engineers and buyers during the coming summer, together with the payment of Government rentals, office and travelling expenses until the property is sold, we are asking your co-operation in the purchase of some additional Shares.

As the risk of speculation in this proposition has been borne by the pioneers we make no hesitation in stating that the present offering of shares may be regarded as an investment with enormous possibilities.

The area contains 11 1-2 Square Miles containing according to surface measurements of Seams 2 ft. 2 inches and upwards calculated on the basis of 1,000 tons per acre-foot (the very lowest estimate) over 190,000,000 tons, thus guaranteeing enough of Coal to supply Newfoundland with 500,000 tons per year for 126 years in addition to export 1,000,000 tons per year over a similar period. The consumption of coal in Newfoundland at the present time is about 300,000 tons per year.

With regard to the possibilities and future value of this property we would call your attention to the Iron Ore Properties at Bell Island.

When the Dominion Iron & Steel Co. purchased from the Nova Scotia Steel & Coal Co. a portion of the Iron Ore properties at Bell Island for \$1,000,000 they based their calculation on 26,000,000 tons of Ore just a margin over 3 3-4 cents per ton, it was looked upon as a wonder. To-day the total holdings of both these Companies are calculated to contain (according to some of the leading Geologists of the world) about FOUR BILLION tons of Iron Ore.

As a NATIONAL ASSET at a valuation of 10c. per ton in taxes and 50c. per ton in labour these Mines are worth to this Dominion about \$2,400,000,000 enough to pay off our NATIONAL DEBT about 40 times over.

Coal is the foundation on which Nations are built, no country can be great or even prosperous without Coal of its own, and as we have proven beyond doubt we have MILLIONS of tons of high grade Coal on our property, we are making this appeal to our SHAREHOLDERS and also to the GENERAL PUBLIC for their earnest support in the purchase of some additional SHARES to enable us to carry through to a successful finish the work so well begun.

As this may be our last appeal and your last opportunity to participate in this venture we would ask you to let us have your application as quickly as possible.

SHARES ONE DOLLAR EACH.

Billiard Championship.

RYAN DEFEATS FLYNN.

By defeating Greg Flynn in the finals of the Billiard Championship series last night, T. Ryan, the old veteran, became champion of Newfoundland. His majority over his opponent was 272 points. Two big breaks were made by Ryan, one of 66 and another of 80. Flynn played a good game but his luck was out and he was unable to get the balls running. Ryan's breaks amounted to 835 which is a record in local billiards, and by his victory last night he wins the billiard cue donated by Mr. J. M. Tobin. The largest attendance for the season was present and the following were the scores as given out:

Ryan . . . 108 203 302 419 513 614
Flynn . . . 34 133 214 373 397 424
Ryan . . . 707 801 923 1000
Flynn . . . 570 611 678 728

BREAKS

RYAN—25, 17, 16, 24, 36, 10, 11, 11, 10, 11, 12, 13, 12, 13, 66, 17, 24, 14, 11, 10, 21, 30, 30, 12, 42, 36, 18, 14, 17, 19, 11, 21, 10, 18, 37, 12, 12, 18, 16.
FLYNN—11, 13, 13, 20, 18, 13, 13, 26, 18, 17, 14, 45, 12, 15, 20, 26, 22, 23, 30, 18, 16, 12, 14, 21, 12.

Lecture at St. Patrick's.

SERIES CONCLUDED.

The concluding lecture of a series in aid of St. Patrick's Memorial School Building Fund was delivered by Rev. Fr. St. John to a crowded house, in the Convent Schools last evening. The Reverend lecturer was introduced by the Chairman, Mr. J. Fitzgibbon, and taking for his subject, "Descent of History," with the eloquence of expression and grace of diction for which he is noted, held his audience enraptured from start to finish. Following the trend of history, and touching in different phases, the speaker showed clearly by the light of past events the necessity and importance of moral guidance in the educational sphere. At the conclusion a hearty vote of thanks, proposed by J. J. Rossier, was tendered by acclamation. During the evening, choruses by the pupils and solos by Misses Dicks and McCarthy were delightfully rendered. As these lectures have become very popular, it is to be hoped that the Rev. Pastor will see fit to inaugurate another series in the near future.

Cantabs Beat Oxford.

PUTNEY, Eng., April 1 (By A. P.)—Cambridge defeated Oxford by four and one half boat lengths in their annual boat race over the Putney-to-Mortlake course on the Thames today. It was the fourth consecutive victory for Cambridge. The time was 19 min. 27s.

Race One-Sided

The race was a one-sided affair lacking the thrills of last year's contest when the rivals sea-sawed the entire distance. The Oxford crew finished in an exhausted state, five of the men including the stroke, appearing much distressed, while only one man in the Cambridge crew was visibly affected. Cambridge won the toss and chose the Northern end of the river. This gave the Cambridge a great advantage, with the best of the wind and the water throughout nearly the whole course, owing to the strong northeasterly wind. After a false start the crews got away, Oxford rowing 38 and Cambridge 36. At the end of the first mile Cambridge was leading by a quarter of a length. When they had rowed approximately two miles Cambridge had increased her lead to a full length, rowing 37 and Oxford 36. The light blues were fully two lengths ahead at the end of the third mile.

Oarsmen Insured

The Cambridge crew averaged 1734 pounds and the Oxford rowers 172. There were five veterans in each boat. As a precaution against drowning or damage to the boat, Cambridge insured the life of each member of the crew for £250 and the boat for £125. This is the first time in history that such a precaution was taken.

Oxford backers before the race claimed that April Fool's day was a good omen for their crew, as within the past forty years the race had been rowed on April 1st and Oxford won each time. In addition to the intense rivalry between the two institutions, interest was stirred up this year when C. C. Drinkwater inaugurated the American system in the preliminary training for the Oxford crew. R. P. P. Howe, succeeding Harcourt Gold of pre-war fame was the coach in charge of the dark blue.

Cambridge won the last race before the war in 1914, and when the series were resumed in 1920, took the measure of Oxford, repeating again last year. Oxford has enjoyed two long periods of winning crews, taking each contest from 1861 to 1889, and duplicating this record in the 1890-98 period. The best string for Cambridge covered the five years, 1870-74. Not once has the contest been postponed or cancelled, regardless of choppy waves or other unfavorable conditions.

MINARD'S LINIMENT LUMBERMAN'S FRIEND.

Hobbies.

NEW DEVELOPEMENT FOR GENIUS

Principal Harrington of the Methodist College has adopted a novel and interesting method of extracting genius from his pupils. His method is to have a display of pupils' hobbies at the end of each school term, and tomorrow, Wednesday evening, in the College Hall there will be such a display, which includes the work of the Manual Training Class, and is especially striking in exhibiting most interesting directions of capacity in pupils who display their hobbies. The exhibition is well worth a visit. The display indicates and reflects in an illuminating manner the tendencies and directions of thought and aptitude in the minds of boys and girls and indicates the variety of powers represented by growing youth.

Breach of Promise.

It is reported on reliable authority that a prominent citizen will shortly figure in an interesting breach of promise case. Rumour says that the engagement which existed between the young man and the daughter of a well-known business man was hurriedly broken off yesterday, and the parents of the jilted maiden are urging her to take the matter up before our Courts. The rift in the lute occurred over the failure of the intended bridegroom to purchase tickets for the first performance of Hazel Kirke after he had solemnly pledged himself to do so, and this breach of his promise will no doubt cost him dear when the matter is aired in court.

Our Agricultural

Returns.

VALUATION INCREASED BUT NOT PRODUCTION.

In looking over the value of our Agricultural produce as shown in the Budget Speech one is at first glance struck with the remarkable increase shown during the last 20 years. According to the report in the Budget Speech the total value as taken in the 1901 census was \$5,930,825.55, but from this account there was apparently omitted about one million dollars worth of milk, so that the total should be about \$6,930,825.55. In 1911 the returns show a value of \$7,137,238.25. In the census taken last year the total value is given at \$14,252,090.37. The increase is not due as may at first appear to increased production, but to increased valuation. The facts are that all root crops show a considerable decrease from the year 1901. Horned cattle, goats and swine show a similar decrease. There is an increase of about 7000 in horses. Poultry show an increase of about 20,000 head, but in comparison with the 1911 census there is a decrease of 78,000 head. Viewing the facts it is seen that despite all the boasted agricultural policies agriculture is not on the increase. From the census returns of 1921 it is computed that the share of each man, woman and child in Newfoundland, of the following was:—Cabbage, 2½ doz, Milk, 12½ gallons, Eggs, 3 dozen, Meat, exclusive of poultry, 15 lbs., Potatoes, 2 barrels. This bill of fare, it must be understood, is exclusive of imported produce. One other fact brought out by the returns is that although we have by the census over 45,000 horses and horned cattle and 100,000 goats and sheep that only 50,400 tons of hay was raised to feed them on for the seven months of winter.

EASTER GOODS.—Tricotine, Silk and Taffeta Dresses only \$9.75 at S. L. LEVITZ & CO., opposite Ayre & Sons New Bldg. april 12

Prompt Action
Saved Settlement.

DESERVES RECOGNITION.

According to Mr. L. A. Basha, owner of the East End Cash Store of Norris's Arm, who arrived in town by yesterday's express, the settlement of Norris's Arm was very near being wiped out by the fire which destroyed a dwelling and store owned by Mrs. Ryan and also the business place of her son. It was, he said, only through the wonderful efforts of Mr. A. G. Freeman and others that the fire was prevented from spreading. Mr. Basha's store was only about 30 feet from the Ryan premises, and the heat was so intense that the windows broke and the siding on the store was burned. Through the efforts of Mr. Freeman the blaze was put out each time the building ignited. The fire started between twelve and one o'clock at night, and had gained considerable headway before the residents assembled and formed a bucket brigade. A railway engine was also brought into requisition and rendered valuable aid. In the removal of the stock from Mr. Basha's store quite a large quantity disappeared and a police constable from Grand Falls is now on the scene trying to locate it.

Don't miss the Card Party and Dance in the Star of the Sea Hall on Easter Monday night, commencing at 8 o'clock sharp—Admission 50c.—april 11, 1922

Would You
Buy Nails at
a Dollar each?

—You Do!

THAT is, if your roof is one of those old fashioned section-laid roofs, you pay in the neighborhood of \$1.00—in upkeep—for every nail, and there's plenty of nails, as you know.

Wind, rain, heat and cold cause vibration, and how vibration destroys is universally known,

and roof vibration is as ever present and as dangerously expensive as any other form.

There is only one roof covering worth while considering and that is NOLEAK.

Why Vibration cannot harm a NOLEAK protected roof is something we want to tell you. If you'll come in you will never need buy another roof nail. Come!

NOLEAK—Is The Perfect Roof Covering

FRANKLIN'S AGENCIES, Ltd., St. John's, N. F.

Express Passengers.

The following passengers left North Sydney yesterday afternoon for Port aux Basques, where they arrived at 10.30 a.m. and transferred to the incoming express due here on Thursday:—S. Paour, H. G. Ogilvie, T. E. Cloutier, M. Williams, Hon. G. and Mrs. Shea, N. Cohen, W. Ryan, J. V. Keenan, C. White, M. Aucott, G. Dolard, Capt. Hendrigan.

Here and There.

LIQUOR IMPORTATIONS.—S. S. Sachem which arrived from Liverpool on Sunday brought a shipment of 733 cases of liquor for the Controller's Department.

IN TIME FOR EASTER—Complete showing Ladies' Tricotine Jumpers at \$2.98 and \$3.90, at S. L. LEVITZ & CO., opposite Ayre & Sons New Building. april 12

SHORT SESSION.—The Legislative Council had a short sitting yesterday and as there was no business before the House, adjournment was taken until Monday next.

SEAL'S TURNOUT.—The work of landing the cargo of S. S. Seal was commenced at Harbour Grace yesterday morning and completed this forenoon. The total turnout is 4,978 seals. The crew shared \$27.22 each.

THE ART OF CHEWING

Your whole system depends on the health and strength on the stomach. The stomach, in turn, depends on the teeth. The very foundation of a healthy body is a strong food conversion—the act of chewing. Food improperly chewed enters the stomach in a wrong condition, which causes first, indigestion, kindred ailments. The proper chewing of the food will prevent these things. Chew your food properly.
