English Physician Claims a Number of Remarkable Cures With the Serum.

London, Jan. 21. - To the list of British medical publications must now e added the British Journal of Tuberculosis, the first number of which has just been received. It is full of special articles from the pens of tuberculosis experts, of value to both the profession and the laity. The birth of a journal devoted exclusively to the conof the times, and this keynote of confidence and cheer is maintained by by R. W. Philip, M.A., M.D., F.R.C.P. E., F.R.S.E., physician and lecturer on Consumption, is of special value, and most minute particulars to the Royal Victoria Hospital for

tuberculosis is due to inoculation by the tubercle bacillus the physicians were groping in the dark. He reafter Koch's announcement not a great deal of consideration was paid to the tubercle bacillus. Gradually however marks, however, that for some years tubercle bacillus. Gradually, however, the attention of students became focussed upon it, and since then their eyes have never left it. As their information on the subject has extended, the magnitude of the problem has increased, until the other day Richet. Native of India Thinks British of Paris, said: "This is a big social question, and not merely a doctor's

#### Direct Attack Fails.

Taking up in turn the various weapons with which doctors are trying to fight the disease, Dr. Philip says that drugs have accomplished very little. No drug has been found which can be introduced into the circulation in sufficient quantity to prejudice effectively the development of the bacillus, which does not exert at the same time toxic properties on the cells of the Though he realizes the possibility of grants.

some drug being discovered that will grants.

#### into abevance.

He then gives a number of instances the rigorous winters of Tibet and China in which tuberculosis in different parts and also in the very hot summers of of the body was checked or cured by Somaliland and Egypt. the Koch serum. At the same time, he warns his readers against considering the problem solved. With regard to tuberculin itself, we may expect furtuberculin itself, we may expect fur-parts of India, these men do not pos-ther developments. Already Beraneck parts of India, these men do not pos-the palace. The crown prince ordered ther developments. Already Beraneck and von Behring have improved on Koch's product, and the latter, indeed, claims to have produced in tulose a fraid of breaking their caste by ment, he says, was prematurely made, instantly tested, and then discarded. Against such hasty condemnation Dr.

#### Serum a Failure.

Regarding treatment by serum, Dr. Philip is pessimistic, and believes that neither practically nor theoretically does it promise much. Its therapeutic value is temporary. In diphtheria, where the infection is acute, and the diers, whom the glowing descriptions battle short and sharp, the serum is of the future of the Canadian west invaluable, for it rapidly neutralizes a from their European military officers powerful toxin. In tubercular treat- actuated in coming to British Columment it is a drawn-out campaign in- bia. Letters from these pioneers to He has more than once announced his stead of a single battle that the physi- their friends and relatives brought intention of erecting a gallows in the clan must fight. He believes, however, further immigration. that, with tuberculin to keep up the steady opposition to the bacilli, and serum for a sudden emergency, the doctor should be well armed, especially as in both these curative agencies there Dreadnaught is Said to Draw More the indignities which he heaps upon is apt to be considerable improvement. Dr. Philip vigorously attacks the idea that change of climate is essential to a cure in any case. The disease can common line of action to be carried was not easy to find the reason. one of the most remarkable facts in number of tons.

GOOD NAME IS TO BE PRIZED-A GOOD NAME IS TO BE PRIZED—
There have been imitations of Dr. Thomas'
Eclectric Oil which may have been injurfous to its good name, but if so,the injury
has been only temporary. Goodness must

# KING'S HEIR FOULS CHANCES TO RULE

Lose His Right to Reign.

BROTHER LIKED

the Throne Should the Dynasty Live.

Vienna, Jan. 21. - Unless some sudden upheaval should remove the Karageorgevitch dynasty from Servia there seems no doubt that King Peter's second son, Price Alexander, will be the next sovereign of that unhappy country instead of his elder brother, Crown

Prince George. Of late the latter's wild excesses have become more frequent and outrageous. They have gone far to substantiate the reports that he is mentally deranged and utterly unfit to rule his country. Just 18 years of age, Alexander is a handsome youth with a good figure. Physically he strongly resembles his degenerate elder brother, but in temperament and mental equipment he presents a striking contrast to him. George has the ungovernable temper of a maniac, Alexander is always ami-The statues in the temples, theaters able; George is lazy, Alexander is studious; George is stupid, Alexander is exander leads a clean life.

Frailness Interrupts Education.
