

ONLY ONE COMPLAINT AGAINST THE WATER

People Are Apparently Well Satisfied With the Artesian Wells.

The vote on the water question will be taken on Monday, and signs are not wanting that the citizens generally are taking a keen interest in the artesian well scheme. The water has been used in the mains for two weeks and more now, and the complaints about its quality have been few indeed.

After the first few days, when all sorts of rumors were afloat, nothing of importance was heard, and the citizens are practically a unit in declaring that so far as can be judged, the water is good.

Since the pumps have been at work, the wells have been pumped night and day, and there never was a day in that time that they did not show the flow asked of them, and there has been no evidences of any diminution of the quantity.

This effectually disposes of the statement that the wells will "pump out."

The Real Test. This dry spell, which is testing the Springbank supply is having no appreciable effect on the wells.

As to the purity of the supply, Dr. Amyot has made several analyses of the water, and in no instance has he found any deleterious matter.

In one sample he found a bacteriological content, but this was due to a delay in transit of the sample. Even then, there were no harmful germs, such as colon bacilli, present.

Only One Complaint.

Dr. Hutchinson has received one complaint about the quality of the water, no more.

"I am in a delicate position regarding the wells," said Hon. Adam Beck. "Last January I made promises. Now I have fulfilled every promise I made. I have given a definite proposition, involving the expenditure of a definite amount of money for a plant with a definite supply of water, guaranteed."

Water in the Mains. Now the water is in the mains. It has been used for some time, and it is for the people to judge of its quality. My experts tell me that the supply is inexhaustible, and I must say that after many severe tests, the quantity has shown little or no diminution."

Supply Will Continue. Mr. Oliphant, the expert who was engaged by Hon. Adam Beck, gave it as his opinion that the supply would last, as in his many years' experience he never discovered a well pumped as long as some of these have, and that did not retain their flow indefinitely.

LATE JOHN COCHRANE

Funeral Was Held at St. Peter's Cathedral—Interment in St. Peter's Cemetery.

The funeral of John Cochrane was held yesterday from the residence of his grandmother, Mrs. Catherine Evans, Henry street, to St. Peter's Cathedral. Requiem high mass was sung by Father O'Neill. The pall-bearers were: Messrs. H. Putman, Hugh Rogers, H. Nager, C. Summers, Ed. Evans and T. Naggs. Among the floral offerings were wreaths from Scandrett Bros., employees, where deceased worked; Greene-Siffert's employees, and the firm of Stirling & Dyer. Interment was made at St. Peter's Cemetery.

THAW IS ANXIOUS TO GO ON STAND

Declares He Will Easily Demonstrate That He Is Sane.

White Plains, N. Y., July 16.—Harry K. Thaw, who will remain here in the county jail until the hearing to determine his sanity is resumed on July 26, before Justice Mills, is apparently highly elated over the prospect of going on the witness stand. Now, in his story under fire of a rigid questioning by the state's attorneys and psychiatrists.

Thaw said today: "I will demonstrate easily that I am sane when I go on the stand. I am more than anxious for the ordeal. It is the chance I have prayed and hoped for. Now, I feel that Judge Mills will be able to see that my contention that I am sane is valid."

Speaking of his wife's testimony against him, Thaw said he felt no animosity toward his wife and had no idea of cutting off her allowance of \$500 a month.

Everly Thaw was at hand and ready to testify for the state, which is opposing her husband's release from the Mattawan Asylum for the Criminal Insane, when the day of the hearing on Harry K. Thaw's mental condition was begun before Justice Mills.

The usual curious crowd filled all available space in the courtroom. Dr. Meyer testified that he saw Thaw first in the White Plains jail on Oct. 8, 1908, and discussed with him at that time episodes included in a hypothetical question which the witness had prepared on which to base an opinion of the prisoner's sanity. On subsequent visits to the White Plains jail and in Mattawan Asylum the physician talked freely with Thaw, he said, and got him to tell the story of his boyhood days.

Deputy Attorney-General Clark continually objected to Dr. Meyer's summarizing of the conversations with Thaw and insisted on the witness giving Thaw's exact words. He was sustained in his objections by the court and the witness had to go over his testimony several times before answers were elicited which were allowed to remain on the record.

Dr. Meyer related a conversation upon one occasion in which Thaw told him he was going to have typhoid fever, and suggested that his rooms in the jail should be cooled off with twenty tons of ice.

SUICIDES IN JAIL.

Brampton, July 16.—Nelson Carey, a youth confined in the jail here for alleged insanity, committed suicide by tying a towel to the handle of a door of the corridor, he made a loop, and strangled himself. His knees when he was found by the jailer were touching the floor. Coroner Lawson will hold an inquest.

ACCORD ALL CITIES THE SAME TREATMENT

Ald. Beattie Speaks of Mr. Beck's Statement Regarding Hamilton.

The municipalities should be consulted before preferential treatment is given to Hamilton, is the opinion of Ald. Beattie.

"According to the contract submitted to us, the commission must consult us," said Ald. Beattie. "We have the right to protest against any such treatment as that. Of course, the commission, I presume, may listen to our objections or not as they see fit, but according to the contract we should be consulted."

"Of course, many queer things have been done, and there may be many more. Nevertheless, we should be consulted in all cities in the power zone should be given the same treatment."

CHEAPSIDE BOULEVARD AGAIN DISCUSSED

No. 1 Committee Talked Matter Over, But It Was Again Shelved.

Routine business occupied the attention of the finance committee yesterday afternoon. There was not a quorum present.

A petition from the residents of Cheapside street, asking that the name of the street be changed from Cheapside to The Boulevard, came up, but was laid over.

Very properly, it is in favor of making the change," said Ald. Ferguson. "I understand, however, that the question of making a boulevard on the street is in the hands of City Solicitor Meredith, who is looking into the legal aspect of the case. I guess we had better lay it over."

The request of the hospital trust that the council obtain the ruling of the county judge on the agreement with the county regarding Victoria Hospital, was laid over for one month.

The usual number of accounts were passed.

Those present were: Ald. Ferguson, chairman; Ald. Beattie, Mayor Staveley and City Clerk Baker.

MONTREAL OPINION OF C. W. BENNETT

Herald Speaks Well of Theatrical Manager Who Has Just Retired From Active Work.

The Montreal Herald says: The news of Mr. Bennett's retirement will be read with keen interest by many who have followed the development of the Bennett enterprises in Canada. Mr. Bennett is well known here, and his successful entry into the local theatrical world with Bennett's Vaudeville Theatre marked him as a man of discrimination, determination and enterprise. That theatre has been an unequalled success in Montreal, and is now an institution in our amusement circles.

Mr. Bennett has for some time past been anxious to secure freedom from the worries incidental to the active business management of the theatrical circuit he built up, and has now realized his ambition. Mr. Clark Bennett, who succeeds him, is thoroughly well acquainted with the tastes of the clientele of the various Bennett enterprises, and is not likely to allow the standard of the attractions presented to fall off in any degree. Mr. Driscoll, the assistant manager, who is exercising the management of the Canadian end of the Bennett circuit, is a former manager of the Hamilton vaudeville house, and has acted as manager here occasionally during the absence of Mr. Bennett.

SENATOR PERLEY DEAD

Dies Suddenly From Apoplexy at Wolseley, Sask.

Wolseley, Sask., July 16.—Senator W. D. Perley dropped dead yesterday from apoplexy. The senator succumbed suddenly to heart failure at noon, while in D. G. Craig's store. Without warning he fell to the floor. Medical aid was at once summoned, but without avail.

The flag on the town hall is flying at half-mast, and his sudden demise has cast a gloom over the town. The senator was in Wolseley when he received the news of his father's death, and he left at once for Wolseley. He married a daughter of Dr. Clint, of Winnipeg. The late senator's eldest daughter is the wife of E. A. Hanbury, of Wolseley. A second daughter is the wife of Levi Thomson, of Wolseley. Mrs. Perley survives her husband, and resides at Wolseley.

William Dell Perley was born at Gladston, N. B., in 1838, and was a farmer in his native province till 1882. In that year he went west, and located at Wolseley, when things were at the very beginning in the Saskatchewan region. He took a prominent part in public affairs, held a seat in the council of the territories, and went to Ottawa in 1887 as the first member of the Commons for the district. He resigned a year later to provide a seat for Mr. Dewdney, who became minister of the Interior, while Mr. Perley was given a seat in the Senate by Sir John Macdonald.

SUFFRAGETTE IN TROUBLE.

Montreal, Que., July 16.—Mrs. Whitworth, evidently a refined English woman, who several times of late has allowed her feelings to get the better of her breeding, appeared in the police court today to answer to a charge of obstruction in connection with a socialist meeting a few days ago. She was sent down, pending an examination into her sanity. Whitworth is evidently a pseudonym, and it is believed the woman left a comfortable home in England on account of her views. She has two children, with her, a boy and girl, and the three have eked out a precarious existence in Montreal for some time.

FIVE GIRLS DROWNED AT VANCOUVER PICNIC

Teacher Went Down and Others Went to Her Rescue Only to Perish.

Vancouver, July 15.—Five girls, Gertrude Ankers, aged 25 years; Annie and May Murphy, 19 and 14; Signa Buck, 16, and Alfhild Paulsen, 11, a New Westminster picnic party, were drowned at Alleville, Burrard Inlet, below Moodyville, yesterday afternoon. The girls belonged to a large party of young people and went to bathe separately from their companions. Signa Buck got beyond her depth at a sudden dip in the shelving sand. Miss Ankers hastened to her assistance. Both were soon struggling helplessly. The three girls remaining made heroic efforts to save their companions. Another of the Murphy sisters barely escaped. The bodies were recovered.

Four bodies have been recovered. Miss Gertrude Ankers was a teacher at Moodyville, the opposite side of the Fraser. The picnic to Alleville was organized by her for the pupils. The younger children were accompanied by their brothers and sisters. At low tide four children waded in, hand in hand. The fifth, Annie Murphy, sitting on the shore, watched the others, and when they were in sight of their young relatives, boys put out in a boat. Miss Ankers' body came to the surface. She was wearing a swimming cap and goggles. She thought the others held her down, or she died in attempting to save them.

Messengers were sent to Moodyville and word telephoned to New Westminster police.

Miss Buck was a daughter of the Dominion fire ranger at Timberland and Miss Paulsen's daughter of the Timberland postmaster.

FATHER TYRRELL DEAD

Priest Famous For His Modernist Sympathies Passed Away.

London, July 15.—Father George Tyrrell, whose sympathies for the modernist movement in the Catholic Church caused him to withdraw from the Society of Jesus and brought him into conflict with the Vatican, died this morning after an illness which began on July 6. M. D. Petre, in whose house he died, states that the priest of the Diocese of London, who was called in, because both M. Petre and Baron Friedrich von Hügel, one of his friends, were convinced that Father Tyrrell's intimate friend, Abbe Bremond, was present at the end and had the opportunity in a moment of very clear consciousness to dictate to Father Tyrrell as to his acceptance of such confession as he could make by sign and giving him the last absolution.

SCAFFOLDING BROKE

Riveter Drops 150 Feet From Bridge Over the East River.

New York, July 16.—Four riveters dropped from the top of the new Manhattan bridge today when the frail plank scaffold on which they were working 150 feet above the waters of the East River gave way under their combined weight. Only one of them reached the water, and a diver is still looking for his body. The other three clutched steel beams as they fell and escaped his fate.

William Herbert is the one who was drowned. Angus Mitchell struck a cross beam 20 feet below the broken scaffold. Although his leg was broken by the shock he hung on until a board was shoved to him, and then he was pulled to safety.

John McGillis struck the same cross beam and escaped with nothing worse than a few bruises. The fourth man landed on a lower staging and was unhurt.

PERKS ON CANADA

Says Old Country Would Do Well To Copy the Dominion.

London, July 16.—Sir R. Perks, speaking on the land tax question, said he had been lately in a happy country where the problems which perplexed us were not brought under the consideration of the Legislature. When we were told sometimes to copy New Zealand or Germany, he thought we might, with advantage, turn our eyes to the growing, prosperous Dominion of Canada, where the land regulations as now are being proposed here would not be tolerated for a moment. This week finished the work of the Imperial Press Conference. Last night Sir Hugh and Lady Graham gave a farewell reception to the delegates who remained in London, and those who as well as the problems which perplexed us were not brought under the consideration of the Legislature. When we were told sometimes to copy New Zealand or Germany, he thought we might, with advantage, turn our eyes to the growing, prosperous Dominion of Canada, where the land regulations as now are being proposed here would not be tolerated for a moment. This week finished the work of the Imperial Press Conference. Last night Sir Hugh and Lady Graham gave a farewell reception to the delegates who remained in London, and those who as well as the problems which perplexed us were not brought under the consideration of the Legislature. When we were told sometimes to copy New Zealand or Germany, he thought we might, with advantage, turn our eyes to the growing, prosperous Dominion of Canada, where the land regulations as now are being proposed here would not be tolerated for a moment. This week finished the work of the Imperial Press Conference.
