THE FRENCH ANARCHISTS.

ADDITIONAL DETAILS OF THE EXPLOSION AT PARIS.

The French Capital Greatly Excited Over the Anarchists' Crimes and Interplay—Death of Wm. Astor at Paris—A Big Blow at Berlin—The Cable Liar's Invention—East African Religious Feuds—Religious Squabbling in Ireland—Notes.

London, Tuesday, April 26 3 p. m.

AN ATTACK IMMINENT.

The latest advices from the Right of Berlin settlement is that the Danouins are approaching nearer, and that an attack is imminent. Hostile bands are going into camp just outside of Kotonau and Seobio.

A GENUINE STORM AT BERLIN.

A violent hail storm, accompanied by terrible wind, occurred in Berlin and vicinity yesterday, causing much terror to the residents and considerable damage to property and growing crops. The stones were of enormous size and fell with the greatest force, creating havoc among the trees and in the gardens throughout the city. The wind blew with frightful velocity, its power being so great that a number of boats in the river which were exposed to the fury of the storm were capsized, and many narrow escapes from death were reported. The church at Liebenburg was struck by lightning and entirely consumed.

A PURE INVENTION OF THE CABLE LIAR.

A despatch from Rome says:—Reports put in circulation yesterday to the effect that disturbances had occurred in this city and were likely to be renewed to day, and that in consequence of the gravity of the situation the authorities had barricaded the houses of Government officers, and also the bank and the Austrian and other embassies here, were pure invention. There has been no trouble here. The Socialists are not showing any signs of preparations for violent manifestations. On the contrary, officers and also the present, and a successful celebration of May Day by the workmen is expected.

THE EAST AFRICAN FIGHT CONFIRMED.

The London Standard's Zanzibar correspondent confirms the story about the fighting in Uganda, East Africa, between Protestant natives and Catholic converts, led by King Mwanga. The Protestants are well armed with snider rifles, and were victorious until Capt. Lugard, the British East Africa agent, arrived with reinforcements armed with Maxim rifles. There were heavy casualties on both sides. Ashe and Winton were among the killed. The correspondent also says that Bishop Heath reports that many Catholics have been sold into slavery. The Catholics are massing their forces to renew the attack on the Protestants.

RELIGIOUS SQUABBLING IN IRELAND.

Last evening at Edenderry, near Portadown, about 10 miles from Armagh, several miscreants attacked the Catholic chapel and smashed the doors and windows. The priest at the time was officiating at evening service, and a volley of stones was thrown through a window, one of them nearly striking his nose. An attempt was made to catch the scoundrels, but they succeeded in making their escape, crying, "Down with the Pope," and other "bad" remarks. On several previous occasions, within the past few months, windows have been smashed and doors damaged. The trouble is said to have originated in an attack on an Orange procession on the last anniversary of the Battle of the Boyne, the Orangemen having been taken unawares, and terribly thrashed by a crowd armed with shillshas. One of them was captured, it is said, and compelled to drink the Pope's health. This is the one who is suspected of being the leader of the chapel outrages.

THE EXPLOSION AT PARIS AN ANARCHIST WORK GENERALLY.

The startling explosion last night at the cafe M. Verry, at the corner of the Boulevard Magenta and Rue Lancry, Paris, has caused a feeling of consternation in this city. To put it very mildly—there was a reason for last night's outrage. It was in M. Verry's cafe that Ravachol, the Anarchist, whose trial is fixed for to-day, was arrested, and it was to M. Verry and one of his waiters that the police were indebted for the information that led to his capture. The Government rewarded M. Verry and the waiter for the information they furnished, and the friends of the prisoner threatened them with dire vengeance. The Government sought to prevent these threats from being carried into effect, and detailed a police guard to watch the premises. In spite of these precautions, however, the anarchists succeeded in blowing the place up, and the result is that confidence has been lost in efficiency of the police, and Paris is given over temporarily to a mild reign of terror. The Gaulois and Matin this morning openly reproach the Government with incompetency, and demand that something be done immediately to put an end to the outrages. So strong is the feeling of fear that many residents of the city and foreign visitors are leaving or making hurried preparations to leave. The scene in the vicinity of the explosion surpasses description. Through the night and morning excited crowds, some times numbering 20,000, filled the streets that surround the wrecked restaurant. The affair was discussed in loud and angry tones, and everybody joined in condemning the outrage. The police were utterly powerless to keep the crowd back. Thousands of people were anxious to procure souvenirs of the explosion, and splinters of wood in front of the police were eagerly seized by relic hunters. Finally the crowd became so large and unruly that it was necessary to call upon the military for assistance in handling it. A force of infantry was despatched to the scene, and their presence soon established order. The opinion seemed to prevail among the crowd that the anarchists, not only in France but elsewhere, are determined to force the world to take serious notice of their doctrines. It is very likely that the methods they are pursuing will effect this end, but it is the general opinion that when they succeed in their object it will be so much worse for them. There were signs among the crowd that gathered last night that boded ill for the murderous villains who hold nothing sacred, and to gain revenge upon some one who has offended them, do not hesitate to maim and kill innocent women and chil-

ren. Ominous words could be heard from the groups of excited men standing everywhere about the scene of explosion. The crowds talked freely and openly of forming vigilance committees, and performing the duty of once for all punishing the Anarchists, a lesson that they will never forget. Other men in the groups told their listeners of the work done by the Vigilance Committee in San Francisco years ago when the lawless element threatened to take full possession of the place. It was urged that unless the Government speedily took some action to put down the Anarchists the people would themselves take a hand in lynching the leaders and expel the smuglers from the country. The people in the vicinity of the cafe are in a state of terror, and many are already making preparations to change their place of abode. They are particularly bitter in denunciation of the inefficiency of police, as it was generally known that the explosion was planned just as it had occurred at the cafe. The first rumor last night had it that the explosive was thrown through the grating in front of the restaurant. This statement is supported by a passer-by, who saw the explosion immediately followed. The restaurant was wrecked, as was also the shop of Madame Moranche, dealer in second-hand goods next door. She rushed into the street with fear and went into hysterics. It is said she had in her place two thousand old cartridges. Had the explosion set them off the loss of life from the flying bullets would have been fearful, as the street was filled with people at the most instantly. At the time of the explosion there were 11 persons in the restaurant, including three workmen, who were slightly bruised. They were at first regarded with suspicion by the police, who took them into custody, but later were released when they readily showed that they had nothing whatever to do with the affair.

The report that M. Verry had died from the effects of injuries was incorrect. The report had its origin in view of chloroform he was administered to him at hospital where his legs were amputated. It is said to-day it is thought his recovery possible. His wife and daughter Jeanne were badly burned about the face, but it is not thought their condition is serious, though they are suffering a great deal from the shock. A printer who was present at the time of the explosion is horribly wounded in various parts of his body. Another printer named Gaudon Reges was severely burned. The other injured persons are progressing toward recovery. L. Herot, the waiter in M. Verry's restaurant who informed the police of the habit of Ravachol of dining there, received an anonymous letter yesterday in which it was said:—"If Ravachol was condemned to death, remember, at the same hour you will be attacked by the engines of our vengeance."

DEATH OF Wm. ASTOR IN PARIS.

Wm. Astor died last night at Hotel Liverpool, Paris. The cause was heart disease. Mr. Astor was the father of Mrs. J. Coleman Drayton, and was greatly worried over the Borrowers-Fox-Milbank scandal, in which she was involved. Next to his nephew, William Waldorf Astor, and probably Jay Gould, William Astor was the richest citizen of America. His wealth was recently estimated at \$100,000,000, the greater part of which is invested in New York real estate.

CABLE NOTES.

Premier Rudini will accompany King Humbert during the King's coming visit to England.

It has been arranged for King Humbert of Italy, and the Austrian Emperor to visit Berlin simultaneously.

OTTAWA.

TALBOT NOT EST—A NOTED CHARACTER IN TROUBLE—A GHOSTLY FIND.

Ottawa, April 25.—Horace Talbot failed to appear at the Assize Court to-day when called for trial, and Judge Macmahon issued a warrant for his arrest and ordered that the bail be estreated. His bondsmen are Mayor Durocher, S. Lemary, D. N. Charlebois, Chas. Christian, Oscar McDonnell and O. L. Faulkner. Talbot is supposed to be in Ogdensburg, N. Y.

Baptiste Lacroix, who has been a conspicuous witness in many important cases before the tribunals of justice here, was placed behind the bars yesterday on a charge of committing an indecent assault upon a four-year-old daughter of Mrs. Pavis, of York street. In the trial of Whelan for the murder of Darcy Magee, Lacroix swore that he had seen Whelan following his victim on Sparks street, and was principally on this evidence that the morning of the day Magee was shot. It Whelan was convicted.

A woman's limb enclosed in a box was found floating in the Ottawa river this morning, opposite this city. The police are investigating.

THE FIRE RECORD.

Trenton, N. J., April 25.—The stock farm of Edwin I. Wells, at Glenmore, was burned last night. The property was entirely consumed and with it 25 head of high-priced horses and Jersey cows. Loss, \$125,000.

Georgetown, Ont., April 25.—About ten o'clock last night fire occurred in the block owned by Dr. Roe, in the part occupied by J. Kopman, dry goods and ready-made clothing. The fire company was soon on the spot and the fire was promptly extinguished, being confined to the store proper. Goods were burned and damaged by water to the extent of over \$200; insured in the Wellington Mutual for \$900. Damage to building about \$100. Fire caused by a lamp explosion.

Campbellford, Ont., April 25.—S. J. Brook's dwelling and general store, along with the Tilton Post Office, four miles from here, were destroyed by fire on Saturday evening. Loss, about \$2,000; insurance, \$1,350 in the Gore District Mutual.

Quebec's Annual Show.

Quebec, Que., April 26.—Hon. Messrs. Thomas Chapais, John Roche and N. Audet were sworn in as Legislative Councilors by Mr. Guske Grenier, Clerk of the Executive Council, this morning. The lobbies and assembly room of the local Parliament are full with a busy crowd. The weather is beautiful for the opening of Parliament.

A Dynamite Explosion.

Allentown, Pa., April 26.—A bursting cinder cake set fire to the oil house of the Allentown Rolling Mills last night. Workmen, in their efforts to extinguish the flames, upset a can of dynamite, which exploded, destroying the building. John McFadden was fatally, and James McAllen and Jacob Bigely seriously injured.

Mr. J. E. Humphrey, 46 Bond street Toronto, says Burdock Blood Bitters wrought a complete cure of dyspepsia in his case after all else had failed.

CHATHAM.

Bredging the Thames—The L. E. & D. R. Railway—Injured a Wife West—Notorious Criminals Captured—Injured on the Railway.

Chatham, Ont., April 25.—Messrs. Massey & McKay, of Chatham, have been given the contract to dredge the mouth of the River Thames, the price being 18c a yard. Mr. Peter Robert will be superintendent of the work under Chief Engineer Moore, and at once enters on his duties. The improvements are only of a temporary character, although it is believed they will give sufficient channel for some years to come for any vessel navigating the river. The extension of the Lake Erie & Detroit River Railway to Metlin is being pushed forward as rapidly as possible.

For some time Fish Inspector Boismier has suspected that illegal fishing was being carried on along the shores of Lake St. Clair, and a man named Wolf was brought before Magistrate Bartlett, and the charge being proven, Wolf was fined \$7.80. The seine and fishing outfit was seized.

A little boy named Striker, 10 years old, while playfully wrestling with an elder brother on Saturday night, sustained a rupture, which has superinduced peritonitis, from the effects of which the lad will likely die, according to the opinion of the attendant doctor.

At the police court this morning, Pat Kennedy, convicted of the larceny of a \$5 bill from James S. Hanson on Good Friday, was sentenced to six months in the Central Prison. A numerous signed petition was presented to the magistrate praying for leniency, but his Worship was of the opinion that the sympathy for the prisoner was misplaced.

There appeared before Justice McNaughton this morning one of the most notorious young criminals in Canada, and who has also a reputation on the American side. The prisoner was in charge of Provincial Detective McKee, who found him in a lumber camp on the north shore in Michigan. Albert Grayson is the young man's name, and his record is about as bad as they have them.

Grayson was committed to the Central Prison on a charge of burglary in Wallaceburg, for which he put in 23 months at the Central Prison. On being released he returned to town and undertook another burglary and was captured and sentenced again to the Central Prison, where he broke out of the lock-up, committed other crimes and fled to the States. There are now five charges against him of shooting, burglary and jail breaking. The prisoner pleaded guilty this morning to the charge of burglarizing Shaw & Co. Hardware Store, Wallaceburg, on March 19th, and was committed to stand his trial at the assizes, now on in Chatham. The other charges will be brought up against him in due course. He consented to waive extradition proceedings, on being captured, and lodged in Port Huron jail, and there how he happens to be back again in Canada to answer for his crimes.

Frank Hick, a young man about twenty-four years of age, residing in Bothwell, has been employed by Clark & Son in the repair of machinery at Gloucester, and on Saturday night, it appears, he got on the G.T.R. accommodation with the intention of going home for Sunday. It is supposed he was stealing a ride and jumped off the train as it was passing the Bothwell station, as he was found sitting on the platform with his arm crushed almost to a jelly nearly to his shoulder. He was taken to Dr. Graham's office, where his arm was amputated with the assistance of Dr. Wilson.

The 73rd anniversary of Oddfellows in America was observed in Blenheim on Sunday afternoon by the brethren attending the Baptist church in a body, when the Rev. Mr. Sowerby, of Chatham, delivered a fine sermon on the objects and aims of the Order. About 150 Oddfellows were in line, including a number from Ridgeway and Chatham. The edifice was crowded. After the service was over the brethren marched to the Oddfellows' Hall, where a hearty vote of thanks was tendered to Rev. Mr. Sowerby for the able discourse he had given them; also a vote of thanks was tendered to the brethren from Chatham and Ridgeway. The visiting brethren were invited to go over to the Sheldon House, where supper had been prepared for them.

Who will doubt the merits of it after reading the following magical cure:—January 17, 1883, George C. Osgood & Co., Druggists, Lowell, Mass., U. S. A., wrote:—"Mr. Lewis Dennis, 136 Moody street, desires to say that Orrin Robinson, a boy of Granville, Mass., came to his house in 1881, walking on crutches; his leg was bent at the knee for two months. Mr. Dennis gave him St. Jacobs Oil to rub it. In six days he had no use for his crutches and went home, cured, without them."

Lowell, Mass., U. S. A., July 9, 1887.—"The cripple boy, Orrin Robinson, cured by St. Jacobs Oil in 1881, has remained cured. The young man has been, and is now, at work every day at manual labor."

—DR. GEORGE C. OSGOOD.

Charles D. Smith, a wealthy resident of Nice, was found dead in his room at the Hotel de San Francisco, Cal., Friday, having shot himself during the night. It is supposed he committed suicide on account of despondency.

Light house-work.

That's what housework amounts to when it's done with Pearlina. Your labors will be light, though they may be many. They will be better done, and with safety. In washing clothes, dishes, paint, glass, anything that gathers dirt, Pearlina will do the work if you will look after it. Look after your own interests by using it.

Beware Peddlers and some unscrupulous grocers will tell you this is as good as "or" the same as "Pearline." IT'S FALSE—Pearline is never peddled, and if you grocer send you something in place of Pearlina, do the honest thing—send it back. JAMES PYLE, N.Y.

Wilmington, Del., April 25.—Dr. J. H. Hill, of Millington, Md., received a professional call to Massey Cross-roads at a late hour Saturday night. Yesterday morning his wife found his team at the stable with her husband's body jammed in between the shafts and front axle, and his throat cut from ear to ear. The vehicle had been intercepted between Millington and Massey Cross-roads and turned homeward. Nothing is known of the murderers.

A Physician Murdered.

Wilmington, Del., April 25.—Dr. J. H. Hill, of Millington, Md., received a professional call to Massey Cross-roads at a late hour Saturday night. Yesterday morning his wife found his team at the stable with her husband's body jammed in between the shafts and front axle, and his throat cut from ear to ear. The vehicle had been intercepted between Millington and Massey Cross-roads and turned homeward. Nothing is known of the murderers.

Purely Southern Style.

Vicksburg, Miss., April 26.—In Point Coupee parish, La., yesterday, a robber entered the store of a wealthy citizen named Cotter, and demanded \$200 from Cotter. This being refused, the robber shot Cotter dead. The robber was immediately overpowered and lynched.

RAW AS BEEF-STEAK

Baby's Fearful Suffering from Skin Disease Covering Entire Body, Cured by Cuticura.

My baby was taken very sick when he was three months old, and in a few days began breaking out with the horrid skin disease. We employed best of the home doctors, and they could do nothing for him. Then we sent for the best doctor in Eaton Rapids, Mich., and he treated him for two weeks, and he got worse all the time, and then I took him to Jackson, to a doctor who attends specially to skin diseases, and then he got worse than ever. Then he told me he had better try the CUTICURA REMEDIES, and he said he would do no good, but in less than two months from the time we began giving him Cuticura he was entirely well, and not a spot on him. His hair began growing right off, and we thought he would always be bald-headed. There was not a spot on his whole body, face and head, only his nose and eyes, but what was as raw as beef-steak. So poor there was not anything but bones, and so weak he could raise neither hand nor head.

MRS. FRANK BARRETT, Winfield, Mich.
