First the floods were top blame, Eastern mails failing to arrive for a week or ten days at a time, and now it is the Pullman car strike on the American roads. No San Francisco letters or papors have reached here now since Friday, nor is there any certainty of the California mails arriving by the regular routes for some days to come.

Scrapbooks For Children. Let the children make their own scrapbooks on rainy days. Wise is the mother who keeps in reserve a book pot of paste and pictures. Wide awake children like to cut their own pictures from the papers. To the average young person of 6 or 7 it is perfectly fascinating to make a litter of clean cut paper, and he can do this without offense only by having placed at his own disposal illustrated papers which have served their turn with his elders. A pair of blunt pointed scissors should be provided for the use of each child old enough to take proper care of toys and tools, and he should be allowed to select his own pictures and arrange them as he pleases in a large blank book, learning to be neat and deft with the paste and expected to put everything away when

The nt-most reticence has been observed as to the details, and the members of the party are under promises of secrecy, so that of course it is impossible to say who is the promoter of the scheme. It has leaked out, however, that Rev. Mr. Bolton is to be the leader of the expedition, while J. A. A SUNDAY FIRE. The roof of Dixi H. Ross & Co.'s grocery on Government street caught fire last evening shortly after seven o'clock, and P. W. Wiggles, who saw it, turned in an alarm from box 14. Prompt to answer, the brigade was on hand in a twinkling, ladders were run up to the top of the building, axes soon stripped off the shingles among which the fire had canght and a stream from the chemical was turned on. The steam fire engine John Grant, reels and truck were on hand, but the steamer although made ready hand, but the steamer although made ready

hand, but the steamer although made ready for service was not required, though a small stream of water in addition to that of the chemical was used to sprinkle the roof and prevent any spread of the fire. Assistant Chief M. J. Conlin, who was in charge in the absence of Chief Deasy, handled the fire very judiciously, so as to prevent as far as possible the contents of the store being injured by using too much water, and the blaze was put out promptly and efficiently. It was apparent that a spark from the chimney of the adjoining restaurant had lodged in the shingled roof of the grocery and had caused the trouble.

The damage done by water to the grocery stock it was impossible to estimate last night, but it will probably not be heavy, though on the upper floor are stored meals, teas and other light goods that are easily damaged. The police were on hand and rendered the firemen's duty easier by keeping the crowd back and leaving a clear space to work in.

A good deal of just indignation was caused.

TENNIS

A SUGGESTION WORTH CONSIDERING. "The steamer William Irving, while towing the R. P. Rithet (she having been unfortune enough to break her shaft), down pared an excellent programme, which will coccupy the whole day. The shoot is open to the river, this side of Agassiz, yesterday all, and already numerous entries have been received from Victoria and Vancouver. rock, breaking in her bows and sinking almost immediately. No one was lost or injured, according to reports.

"The steamer is now at the bottom of the river with three feet of water on her decks; the Rithet is still in her company and is not herself much damaged. The Irv ing had freight and cattle on board at the time, which she succeeded in getting safely

THE "VOLUNTERR" RETURNS.

The sealing schooner Volunteer, Captain Wheeler, returned to Seattle on Friday night from a long cruise in northern waters. She had aboard 99 skins and one pup as the result of her catch. When the Volunteer left Puget Sound last winter she ornised along the southern coast and then came north and left 190 skins at Port Angeles, after which she departed for Alaskan waters. The Volunteer is the boat which, according to recent dispatches sent out by Port Townsend correspondents, gave the Mo-hican, the flagship of the American Beliring Sea patrol fleet, a lively chase. This story the captain of the schoener denies in toto.

MARINE NOTES. A pleasant change of climate from that experienced at sea was realized by the passengers on the steamship City of Puebla arriving from San Francisco last evening. A large number of the passengers landed here, among whom were many Victorians this season's fruit. Of this Victoria's amount was 143.8 tons.

On Clark's ways the tug Megul is undergoing repairs to her hull, preparatory fur service. The steamer's machinery has already accepted attention and it is averaged. ready received attention, and it is expected that before very long the tug will be in good shape for work.

Owing to her employment of carrying stone from the Haddington Island quarry ceasing, the steamer Coquitiam is now idle, and it is expected she will soon return to m Toronto for Van-
