Washington, D. C., Nov. 25.—It is | S Willing pretty well understood here that there is to be no bombardment of Colon by either side. While Commander Mc-Crea was given wide discretionary powers and nothing was said to him about stopping the bombardment directly, nevertheless the State department established a precedent in these matters last year when it instructed Mr. Gudger to warn some insurgents at Panama that they would not be allowed to bombard that port. If the government troops on Offers to Use Shamrocks as the Pinzon should persist in their purpose, it is said that the commanders of the various warships at Colon would require that ample time be allowed for the withdrawal from the town of all foreigners, and the attacking force to rare precision as to destroy the insur- the cup." gent defences without harming the railroad property and even without endangering the passage of trains, conditions probably not to be met.

London, Nov. 25.—In consequence of alarming reports concerning the illness of A. J. St. John's, Nfid., Nov. 25.—Four large icebergs are today issued from this port. They are drifting south into the track of Atlantic shipping. Icebergs have never before been known to pass here so late in the season. Their presence is consequently the more dangerous to ocean shipmasters who do not expect to find icebergs on the Grand Banks.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELL'S, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and formenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment the trial acted like a charm. Send me a full-sized bottle."

Gentlemen: I write this testimonial from a sense of duty, having tested the won derful effect of your Asthmalene, for the c ure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feet that I can consistently recom mend the medicine to all who are afflicted with this distressing disease. Yours respectfully,

Rimington came up with reinforcements and, with heavy fighting, compelled the Boers to retire and release their prisoners. The British losses included Major Fisher killed and three officers wounded. The casualties among the men have not yet been reported.

Alban had started with a considerable government force to operate against Colon and Linea. It is the intention of the Colombian authorities to combine this land movement with the force on board the gunboat Pinzon, and thus be able to recapture the town of Colon. The Colombian authorities here have not been advised of the purpose to bombard Colon.

The United States government has taken charge of the Isthmian transit. A despatch received at the navy department today from Capt. Perry, of the battlesh'p Iowa at Panama, reports that fact. Capt.
