The Lumber Deal-Coolman Road-Ald.

The recommendation of the committee was adopted after some further discussion.

THE HOSE PURCHASE.

The committee on fire and gas had advertised for tenders for hose and recommended that 850 feet of Eureka hose at \$1 08 per foot, also 850 feet of the Baker 3-ply at 98 cents per foot be purchased. When it came before the executive committee they recommended that it should be referred back to the committee on fire and gas for an explanation as to why ther took two nation as to why ther took two descriptions of hose, supposed to be of the same class and pay ten cents a foot for one more than the other.

Add Turner gave a description of the different samples of hose presented and was sure the Eureka was theres better class of the two.
He moved that it be referred back to the fire and gas committee for further informa-tion, and in the meantime they could sub-mit them to a proper test. The Baker threads hose appeared to him to be of

only one ply.

Aid. Adamson explained that in 1878 they got 1600 feet of Eureka hose and they had 1500 feet yet.

Ald. Shepherd wished to know on what

the executive committee referred the report of the fire and gas committee back. The latter committee had done its best in the interests of the city.

Ald, Hallam, who had some experience

in weaving hose (stockings) in England, was of opinion that the Baker three-ply

fifty feet of the Eureka hose had been lost, and that was burned in the fire at the cen-

tral prison.

Ald. Turner pressed his motion to have it referred back, which was concurred in.

Ald Defee the was conducted in a parameter of W. N. Bacon in the place of James Crane, resigned. About a year before Bacon was employed in the department at indoor work and owing to ill-health was forced to resign.

Ald. Defor thought the proceeding in the committee was irregular. He wished to move the appointment of Mr Dougherty in amendment but was allowed to do so. The report of the committee was then adopted without further discussion.

BY-LAWS PASSED. Ald. Turner introduced by-laws provid-ing for the issuing of \$34,000 and \$21,783 debentures; also to change Woolsley street in St. Stephen's ward to Coolman road. Ald. Evans stated that Mr. John Kirk-

patrick, whose name appeared first on the petition came from a place of that name in Ireland, hence the name "Coolman road." (Laughter.)

THE FREE LIBRARY. Ald. Hallam moved the first and second reading of a bill to provide for the establishment of a free library.

Ald. Low moved and seconded by Ald. Turner that the city commissioner be instructed to inspect the sewers through the city and report upon their sanitary condition. Referred to the board of works.

Notwithstanding the numerous complaints that have been made against the proprietors of the island boats who have men engaged selling tickets in the vicinity of the wharves the nuisance is still carried the island. A person going over to the island is besieged by two or three unmannerly men, pulled and jogged, and if a lady is in the party she is shoved aside indifferent of her sex, and then these ticket vendors will force the ticket almost down your throat and almost talk you dead. It is time Chief Draper took action against this unbearable nuisance. If the police that anotation introduced the city authorities should pass a by-law prohibiting the sale of tickets in this way. Last summer there were many fights between the ticket peddlers for the various steamboats. The language used by these men when a person refuses to buy a ticket is something horrible.

Further hearing of the Hall extradition case came before Judge Mackenzie in chambers yesterday at noon. Mr. Fenton appeared for the crown and Mr. Murphy for Hall. Edward P. Judge Mackenzie remarked that there was not the least doubt in his mind but that an alteration had been made. Other evidence was offered, and a microscope was produced magnifying 300 diametres and by its aid it was shown that microscope was produced magnifying 300 tleman when returning recently. He asked in the was an erasure of the top part of the figure. It could not be determined, however, whether the figure had originally been a "3" or a "5." Mr. Murphy baid he would not proceed to argument, but asked for Hall's discharge and submitted. When the submitted has been a "3" or a "5." Mr. Murphy lost a man." Thos. It appears that after an eloquent sermon preached from the twenty-second chapter of the First Chronicles concerning the building of Solomon's temple, Mr. Barnes invited all who wished to confess Christ to come to the front. A few minutes after, among the throng could be seen the gray-haired head of the governor of Kentucky penitents, and there made his first public confession of his Saviour. It is well known that the governor has always been said he would not proceed to argument, but asked for Hall's discharge and submitted that no case had been made out. Mr. Frenton opposed the discharge, and the court announced that judgment would be given at 12 o'clock to-day.
