English Cricket.

Under date of August 28th, our London correspondent sends some interesting cricket news.

There is nothing like the glorious uncertainty of cricket. Last week Kent by good fielding and bowling succeeded in defeating Lancashire, the champion county of the last two years, after an interesting, exciting and well fought game by 21 runs.

Lancashire next tackled Surrey, and after an exceedingly exciting match Surrey had the satisfaction of exactly repeating the result of the last match played between these two counties. Lancashire 77 and 92.

was a fine exhibition of increase science and physical endurance, and what is more, was conducted throughout in a most judicious and to the credit of the exhibitors in most respects of such an exciting nature. That the victors were jubilant, goes without saying, and they were cheered to the echo by the vast assemblage.

The victors took their defeat very philosophically, feeling doubtless that in the future they will have an opportunity of revenging the disgrace, if they are not able. Doubtless the next contest will be for the championship of the world now held by the Shamrock, which was won by them from the Toronto three years ago.
