the fishery interests of the maritime pro-Vinces is Hon. Peter Mitchell. It was he vinces is Hon. Peter Mitchell. It was he in all disturbed action of the stemach, who made up the case on which Canada the bowels, the liver or the kidneys the gsheries, at Halifax. Any Canadian commission to settle the fishery dispute must have M. Mitchell on it. must have M . Mitchell on it.

It may that Sir Charles, if he goes to Washington, will go as a representative of a complete surrender there of the Canadian national policy, and to throw our market open to American manufacturers, which would be the ruin of our own. And, next, which it thinks more likely, that is while professing all sorts of anxiety to get a treaty concluded, he will be sure all the time to raise some demand to which it is known that the American government cannot consent. Let us quote the Globe's closing words: "It amounts to this in Washington, he goes either to betray his This is the highest for over a year. country by throwing obstacles in the way of reciprocity; or he goes to conclude a reciprocity treaty, and thus to betray the persons by whose permission and by means

rapids, and through every part of Goat Island and its smaller appendages, must be tried to be appreciated. Formerly there was not a spot from which a good view of the Falls was obtainable that was not forbidden ground except to those van were willing to pay excessive toll for the privilege of seeing nature's great scenic masterpiece. Now there is not such a spot that is not as free as the spray-laden air which tempers the heat, and makes even the sultriest of dog-days endurable if not the sultriest of dog-days endurable if not close yesterday.

On the street to day wheat sold at 83c On the street to day wheat sold at 83c of fall and spring, 70c to 71c for course, the most charming spot of all, with to 84c for fall and spring, 70c to 71c for ts dense forest, its different views of the sulls, its long walk on the very edge of the sulls, its long walk on the very edge of the rapids on both sides, and its inviting pionic hay \$9 to \$13, clover \$8 to \$12, \$traw \$12 spots which are seldom without parties to \$14.

The following assignments in trust are

The contrast between the crowds who visit the Falls now and those who formerly resorted to them is as great in point of quality as in point of numbers. In the days of tollestes no robbits the falls now and those who formerly resorted to them is as great in point of quality as in point of numbers. In the days of tollgates no vehicle but hacks or private carriages could be seen within the grounds, now on a Saturday afternoon the Ontario 109, 108; Toronto 186‡, 185; commonest rig is the country democrat with Merchants' 115, 114½; Commerce 127½, the "hull" family—old man, old woman, 126½; Imperial 127, 125; Federal 96, 94½; a specialty.

boys and girls-for a load. These plain but well-to-do people do no add much to the revenue of the hotels, but they evidently appreciate the scenery and they thoroughy enjoy their outing. The best way to enjoy a day at Niagara

from Toronto, is to start on the seven o'clock boat for Lewiston, and take the New York Central railway there, arriving at the Falls about eleven o'clock. This gives time for a stroll through Prospect park and along the rapids before taking dinner, and as the train leaves for Lewiston about five there is ample time left to de Goat island. The great hotels are as phenomenal as the Falls, especially in the matter of prices, but one who knows where to look for then can find less pretentious houses where

The World's Telenhone Call to 1833.

BATURDAY MORNING, AUGUST 22 1855.

The Coming Exhibition.
Less than two weeks will ose our great industrial Fair in full black. The entries are larger than of any preceding show; the prize list the most extensive; the special attractions more varied; the accommodation for exhibits and exhibitors unexpected by the grounds and the means of entertaining visitors are first-class.

A survey of the exhibition park yesterday showed the grounds and the watercape are alone worth a visit. East besides this to be congratulated on its success and reputation; It is known now all over the continent.

Everything in connection with the show is put at reasonable figures; visitors can count on a great many of their friends and relatives coming in to see them and the show. They will be all velcome.

A Biviere at many of their friends and relatives coming in to see them and the show. They will be all velcome.

A House to House Inspection. Editor World: Now that we have got cholera would it not be wise on the part of John is there, and several others of our great men have to be there too. Something is going on. The Globe thinks that Riel's fate is about to be decided down there, which we should say is likely enough. Also, that Bir Charles Tupper is here on a sudden call and on business of extra importance, which is likely enough, too.

Taking its cue from the Montreal Herald, the Globe anticipates that Sir Charles will probably be sent on a mission to Washington. Well, suppose he were, what abler man than he have we for the lob? But we have something to add to this, which may set the Globe raging samely, that the fittest man to speak for the fishery interests of the maritime prospection (periodical) of such places should be imperative. Yours, etc., to raise cholera at home without having to import that dread scourge, and whilst they remain in a state of activity I would suggest that they also make a visit to every manufactory where any large number of work people are employed and inspect the necessary accommodation that is provided for both sexes. They will then cease to wonder how fevers are propagated and will be glad to get their olfactory nerves into more pleasant places.

The inspection (periodical) of such places should be imperative. Yours, etc., to raise cholera at home without doubt find sufficient filth in the shape of decaying garbage, &c., to raise cholera at home without having to import that dread scourge, and whilst they also make a visit to every manufactory where any large number of work people are employed and inspect the necessary accommodation that is provided for both sexes. They will then cease to wonder how fevers are propagated and will be glad to get their olfactory nerves into more pleasant places.

The inspection (periodical) of such places should be imperative. Yours, etc.,

A Certain Result. result of taking Burdock Blood Bitters is

CHILDREN'S,

BRIGHT'S DISEASE OF THE RIDNETS.

The above symptoms are not developed in any order, but appear, disappear and reappear until the disease gradually lets a firm grasp on the constinution, the kidney-poisoned blood breaks down the nervous system, and finally pneumonia, diarrhoes, bloodlessness, heart disease, apoplexy, paralysis or convulsions ensue, and then death his inevitable. This fearful disease is not a rare one—it is an every day disorder, and claims more victims than any either complaint.

It must be treated in time or it will gain the mastery. Don't neglect it. Warner's SAFE ture has cured thousands of cases of the worst type, and it will cure you if you will use it promptly and as directed. It is the only specific for the universal

READER,-We have established ourselves in this Great City to offer relief to the

Reader,—We have established ourselves in this Great City to offer relief to the suffering and diseased—to bolster up and prolong life; in incurable cases, to offer new life and energy, vital force, health, strength, hope, and happiness to hundreds of curable sufferers that are left to pine and die by the regular cid-fashlened medical plodder. Our field of treatment is not confined to any school. We are not in the medical rut, where bigotry, egotism, red tape, and death, go hand in hand. We respect the life of a fellow being more than the reputation of any medical man.

We say to the world our field is as broad as the globe, and from every great medical school we take the best remedies and apply them to the ralief and cure of suffering humanity. There is no field of science or nature, that is not kade to farinish tis quote to our Laboratory regardless of cost, and our Orthopaedical apparatus and Trusses are unequalled on this continent. In our consulting room we have the united wisdom of every School of Medicine known to medern science, and every pattern of instrument for the lame and deformed now in use in Europe and America. Our new premises which we have recently bought, and are now fitting up, will, when done be the best an Canada, and as perfect in every part as money and science can make them. Our department of deformities is in charge of one of the best and ablest Surgeous on this continent. He has visited every great hospital in Europe, and for a number of years was a professor in one of the great American Colleges.

Our Medical Superintendent anow stands first among the physicians of the Domiscion—has been a student of medical science for more than a quarter of a century; and is still ripe in years and experience, delving into the hidden recesses of disease. His genius for measuring all the facts in each case and arriving at sound conclusions, and sorrect diagnosis of the most obscure diseases, is truly marvellous and is the result of the care of age, mature thought, deep research, and sound judgment. T

MED. & SURG. ASSOCIATION.

GENTLEMEN—I was induced to try your treatment through a friend who suffered at, one time from asthma. I commenced treatment in January, 1884, and took treatment for size weeks. I was benefitted by the first month's treatment but not as much so as I expected. However I kept on and at end of third month I believe I was completely cured—but ordered another supply and have kept part of it on hand ever since. I now enjoy my walks after business hours and can truthfully say that I am well and entirely free from any trouble of lungs whatever OUR REFERENCES.

Our Instruments for the Lame, the Halt and the Puferwed.

We manufacture to order artificial legand arms to meet alike the refined tastes of the ich, and the necessities of the poor; and in every case we warrant aur work.

Our abdominal and uterine supporters are so made that they are a conjort and a luxury network of a source of misery and pain, and are the result of great experience and careful comarison of the productions of the world's great inventors. Our Mechanics are the bost in anada, and have no equal here in style, finish and durability of work. We now offer to the inflicted any and every kind of supporters and can make the parallytic walk leven when off and are powerless and without force or feeling. Splints made for every class of pinal curvature, including round shoulders, Lieft, Duraballe and Oheap. Also splints for lise joints in broken legs and arms giving perfect use of the Limb. All Estimates and Divick free by enclosing return postage stamp.

BLECTRICITY OUR BATH ROOM is now open to the public and is perfect in every part. We give every ariety of bath, hot and cold. Galvanic and Faradic.

They invigorate the weak: they tone up the shattered constitutions; they purify the blood. They heal and cure skin diseases and ulcers.
Old bodies are revivified and given a new lease of life. They cure every derangement of erve force, stiff muscles, stiff joints, stiff backs, headaches, neuralgia, sciatica rheumatism, and wandering pains from irregular distribution of electricity in the body. ADDRESS-MEDICAL AND SURGICAL ASSOCIATION, 281 and 283 JARVIS STREET. CONSULTATION FREE.

Guide to Health and Medical Treatise free on application. Mention this paper.
