THIRTEENTH YEAR FOUND DEAD IN THE BUSH.

THE FATE OF MRS. R. BARRETT NO LONGER A MYSTERY.
She Had Wandered into the Rosedale Woods and Perished From Exposure—The Body Discovered by a Laborer in Chorley Park—His Hat Has Been Examined and Found to Be Her Own.

Five Human Dollars Awarded.—The above reward will be paid to the person who shall report to the police the name of the person who was seen in the woods on the evening of August 7, last, into the Rosedale woods.

This placard was posted on every fence in Rosedale at a late hour on Saturday night at the instance of Mr. R. G. Barrett, the well-known barrister, whose wife wandered away from her home last Wednesday night. A few hours later the dead body of the unfortunate woman was found by a laborer in Chorley Park, and the placard was posted on every fence in Rosedale at a late hour on Saturday night at the instance of Mr. R. G. Barrett, the well-known barrister, whose wife wandered away from her home last Wednesday night.

Story of the Disappearance.
Mrs. Barrett, who was 62 years of age, was a daughter of the late Lardner Bostwick, and a sister of George Bostwick, a well-known superintendent of the Toronto Street Railway. She resided with her husband and family at 187 Bloor-street east. She had been in feeble health for some time past, and the death of a couple of children during the past two years had preyed greatly on her mind.

After tea on Wednesday evening one of her grandchildren asked her if she cared to go with them for a walk in Rosedale. She replied that she was rather tired and would like to lead early. When her daughter and grandchild returned they found that the old lady was missing. She had previously retired to her room and removed her spectacles. She had evidently afterwards decided to go and meet her daughters, as she was traced across the St. Lawrence and Scottish Land Co.'s bridge. It was not until she had entered the Land Co.'s woods via Glen-road, and following the path emerged on the common fronting Summerhill-avenue, that she was discovered.

On reaching the avenue she turned at the time of the Toronto street crossing and proceeded up North Glen-road. A short distance north the road crossed a road and a wife face obstructed further travel.

Wandering in the Woods.
On reaching this fence Mrs. Barrett appears to have turned to her right and entered the woods at the John Savers estate. She then attempted to proceed up the road, but was unable to do so, and after a few minutes she turned back and entered the woods at the John Savers estate. She then attempted to proceed up the road, but was unable to do so, and after a few minutes she turned back and entered the woods at the John Savers estate.

Discovery of the Body.
How long she lay there before the end came is only known to her Maker, but it is possible that even before she slipped death had turned the hour-glass and was counting out the sands.

The spot where the body was found is almost like a jungle. Here the weeds and overgrown shrubs are thick, and a searching party would find it difficult to find the body. It is possible that even before she slipped death had turned the hour-glass and was counting out the sands.

Discovery of the Body.
How long she lay there before the end came is only known to her Maker, but it is possible that even before she slipped death had turned the hour-glass and was counting out the sands.

MRS. BEATON LEAVES BURLINGTON

On the Advice of Her Solicitor She Will Remove to Hamilton—Will Fight if Extradition Proceedings Are Begun.

Acting on the advice of her solicitor, Mrs. Beaton, who is alleged to have been the mistress of the late Premier, has decided to leave Burlington and go to Hamilton to live. If she is wanted on the other side she can be found there at any time, and being in the city she will have greater convenience in consulting with her lawyer.

In extradition proceedings are undertaken it will be necessary for the prosecution to make out a prima facie case of murder before Mrs. Beaton can be taken to the United States, and she has no fear of any possibility of that happening. It will be necessary for the prosecution to establish its case clearly enough to warrant a magistrate in sending a prisoner for trial to the Assize Court in case a trial was to go on in Canada.

Trial of French Conspirators.
Paris, Aug. 6.—The trial opened here yesterday of M. Ducret, editor of the 'Odeur,' and M. Norton. The latter is charged with having forged documents that were alleged to have been stolen from the British Embassy, and which purported to be from M. Ducret. The Frenchmen were guilty of a conspiracy to assassinate M. Clemenceau, and the documents were forged in the name of the men engaged in the conspiracy against France from which Great Britain was to derive benefit, appeared in the 'Odeur' and 'Le Journal' in the name of M. Ducret.

Success of the Torpedo Boats.
London, Aug. 5.—One of the most striking features of the British manoeuvres has been the success of the torpedo boats. The performance of the torpedo boats was a success, and the British manoeuvres have been a success.

DEATH WAS SPOULE'S BRIDE

A LOVE ROMANCE ENDS WITH A DOSE OF POISON.

Her Spouse, Until Recently an Assistant in the Toronto Asylum, Commits Suicide in New York White Out of Work and Hopeless.

Two years ago Hugh E. Sproule, the son of a farmer near Orangeville, came to Toronto and obtained a position as ward attendant in the asylum here. He was a strong, well-developed man, and was well liked by his fellow workers. He was well liked by his fellow workers.

At the Mill Races.
The most of a shelter at the railway station was the hope of his success when the storm was at its height and covering was that of trees in sight. There were less of the clevers open to the north, and the wind was blowing from the north.

TWO BROTHERS KILLED.

The Fatal Railway Crossing Again Claimed as Victims—The Bodies Frantically Sought.

SARITA, Ont., Aug. 6.—One of the saddest accidents that has ever happened in this locality occurred this morning about half-past eight, whereby the two sons of Mr. Alexander Mitchell, gardener, who lives in the outskirts of the town, lost their lives. The boys, John, who was fifteen, and Norman, eleven years of age, were as usual driving the milk delivery wagon to Point Edward, and when going over the G.T.R. crossing at Remond-street, between the town and Bay View Park, the rig was struck by light engine 698 in charge of Driver Rutherford on its way to the Sarita tank station.

A HUMAN TARGET.

Strange Shooting Affair Near Mount—One of a Roster of Party Killed by a Companion.

MONTREAL, Aug. 6.—A very strange shooting affair took place at One St. Paul street on Saturday afternoon. A party of young men consisting of Amable Poitras, George Laberge, Edward Beland, Joseph Laberge, all residents of St. Cuneo, went out shooting armed with a gun and a few bottles of gin.

FIRED INTO A LYNCHING PARTY.

A Mob of 100 Dispersed by Two Boys After Half a Dozen of the Crowd Has Been Killed.

CONYDOR, Ind., Aug. 6.—Last night about 1 o'clock Boone Township in this county was made the scene of the most terrible shooting affray that ever occurred in this part of the state. A large crowd of men went to the home of W. and E. Conrad for the purpose of lynching the two boys, who were suspected of killing their father last winter. The young Conrads had received notice some time ago if they did not leave the neighborhood they would be lynched.

WRECK ON THE LAKE SHORE.

A Passenger Train Dashes into a Freight Near Fremont, Ohio—Prof. Emerson of Amherst College Among the Victims—The Death List Will Reach 25.

FREMONT, O., Aug. 6.—A terrible wreck occurred last night shortly after 10 o'clock on the Lake Shore and Michigan Southern. An engine and three sleepers were derailed and three people killed outright, while 175 twenty-five were more or less badly injured. The wreck was caused by the collision of a westbound passenger train and an eastbound freight. About 15 of the injured who had received wounds of a less dangerous character, after receiving medical attention, proceeded on their westward journey on that part of the passenger train which had escaped damage. The others who received injuries were taken to the Hotel Nichols, and private residences where they are now receiving the best of care. The railway will give Prof. Emerson of Amherst College, Mass., about crushed, and injured internally, perhaps fatally; two other persons injured internally; Centerfield Ryan of the Chicago Baseball Club, bad cuts; Catherine Kittredge of Chicago Baseball Club, cut about head and body.
