AWAY WITH WEARINESS!

Trace Up—Get Strong—Get Fat.
The Cure is Simple.

You're nervous and uneasy.
Appetite is poor.
Sleep is hard to get.
Still worse, you are thin and fagged
out.

Work must be done but where is the
strength to come from?
Make the blood nutritious and you'll have
lots of strength.

Your only hope is Ferrozone, an instant
blood-maker, blood purifier, blood-enricher.
It brings keen appetite, digests food and
supplies nutrition for building up all the
bodily tissues.

Ferrozone makes muscle and nerve-fibre,
increases your weight, instils a reserve of
energy into the body that defies weariness
or exhaustion from any cause.

For men who toil and labor, for the office
man, the minister, the preacher—to these
will Ferrozone bring a new life of spirit and
robust health.

For growing girls, women of all ages—no
tonic is more certain. Sold in 50c boxes by
all dealers.

NEW NECKWEAR IS SOFT.

Lace, Muslin and Chiffon, are in Favor
as Materials.

All of the new neckwear is soft. Stocks
are returning to favor and also "Chokers"
of folded tulle, chiffon, and fine lawn.
An endless variety of fabrics is appearing
in length from six to sixteen inches.
They are of all lace, of lace and muslin,
of all black lace and chiffon or all white,
and, again, of black Chantilly and
chiffon. Even laces colored in soft
browns or blues to match a given costume
are combined with chiffon in these fancy
jabots. Lace berbs are also being re-
vived and are worn by women of all ages
to fill in the neck of smart little jackets.
Brooches are less worn than in many
seasons.

There are always varieties of lace and
stick pins, but the thin la Valliere pen-
dant chain, having a central pendant or
group of pendants, so popular for decol-
lete dress, is generally preferred as a neck
finish with handsome gowns. Beads, too,
continue to be much worn, especially
those in graded sizes. The long chain of
beads known as the sautoir is used only
with the fan or lorgnette. Graded beads
are used by old and young, and, in dull-
finishes, by those in mourning.—

Comfort for Smokers.

Lovers of tobacco in its various seductive
forms who have been at times a trifle con-
science-stricken by reason of the alleged de-
plorable effects of the tobacco habit upon
the mind and body should henceforth be
able to smoke their pipes in peace, since no
less an authority than the London Lancet,
the foremost journal of the medical world,
has risen up to declare in the most delib-
erate and positive way that tobacco smoke
contains an appreciable amount of formalde-
hyde, one of the most powerful of antiseptics
and germ killers. It is because of the
presence of this chemical agent in tobacco
smoke that users of the weed are largely
immune to the certain dread dis-
eases of the throat, lungs, and nasal pas-
sages. The reasoning, which seems to be
quite conclusive, is that the smoke passing
through the mouth and nose, effectually
disposes of the microbes constantly depos-
ited there, and thus supplies the needful
ounce of prevention for many diseases.
While one part of formaldehyde to 10,000
parts of water is sufficient to destroy all
bacterial life, the amount of the poison
found in tobacco smoke is so infinitesimal
that it has no injurious effect upon the
human organism.—Leslie's Weekly.

Like a Thief in the Night.

That's how pain comes. We sit near an
open window, get stiff neck or sore back.
Perhaps cool off too quickly after ex-ertion—
rheumatism develops.

Spend what you may, but money can't
buy anything better than Polson's Nerviline.
Its penetrating power enables it to reach
deep tissues,—that's why it cures aches that
all else can't touch. For outward applica-
tion we guarantee five times more strength
than in any other liniment. Lardally it's
harmless and as sure as the heretofore to ease
at once. Don't accept a substitute for Pol-
son's Nerviline which is the one great house-
hold panacea of today.

Safety Before Speed.

Chicago business men have requested that
for the sake of safety the fast train time be-
tween that city and New York be raised
from eighteen to twenty hours. A slowing
up of the suburban passenger service in and
out of New York City is also possible.
There is evidently a growing tendency to
place regularity and safety before speed in
travel.

The Cause of Sore Feet.

Examine them carefully and you'll prob-
ably find corns. Whether hard, soft or
bleeding, apply Putnam's Corn Extractor.
It's painless, it's sure, and above all quick to
act. Insist on only "Putnam's."

NEW LINE SURVEYED.

Route of G. T. P. Between Regina and
Brandon Finally Settled.

Regina, Sask., April 25.—The final
survey of the Grand Trunk Pacific air
line from Regina to Brandon has been
completed. H. S. Dickson, chief sur-
veyor, and his gang of men, have now
staked out the final route.

Although no definite announcement
has been made, it is understood from the
directions in which the surveyors work-
ed, that it is the intention of the Grand
Trunk Pacific to enter the city from the
northwest. The line from Yorkton to
this place, which is to be built first this
summer, will enter the city by way of the
eastern annex.

It is the intention of the Grand Trunk
Pacific Co. to build its line from Regina
to Yorkton, connecting with the main
line there if possible during the coming
summer. It has been announced that
grading is to start from both ends, and it
is hoped that trains will run over the
branch before next winter.

Improve Your Time.

One hour a day withdrawn from frivo-
lous pursuits, and profitably employed
would enable any man of ordinary capac-
ity to master a complete science. One
hour a day would make an ignorant man
a well informed man in ten years. One
hour a day would earn enough to pay for
two daily and two weekly newspapers,
two leading magazines, and dozens of
good books. In an hour a day a boy or
girl could read twenty pages thoughtfully,
over seven thousand pages, or eighteen
large volumes in a year. An hour a day
might make all the difference between
bare existence and useful happy living.

An hour a day might make a man may
made an unknown man a famous one, a
useless one, a benefactor to the human
race. Consider then, the mighty possi-
bilities of two, four, yes six hours a day,
that are, on an average thrown away by
some of our young men and women in
their desire for fun and diversion.

Great Distress in her Throat.

Not an uncommon experience was that
of Mrs. H. S. Wilmot, of Shuler, N. S.
Doctors failed still a quick cure was found
in "Catarrhzone." Notice this statement:
I have been a most dreadful sufferer from
bronchial trouble and catarrh. On damp
days I would hawk and suffer great distress
in my throat. I used all kinds of medicines
but didn't get permanent relief till I used
Catarrhzone. It has strengthened my
throat, cured my cough and made me en-
tirely well. It's a fine substitute for the one
reliable bronchial and throat cure. All
dealers sell "Catarrhzone" in 25c and \$1.00
sizes.

SPRING HATS QUEER.

Milliners Compelled to Shape One to
Each Purchaser.

There is only one way in which the
new hats may be described, and that is
"queer?" Everyone is complaining of
them, and everyone is trying her best to
find one, even though she does not like
it, which will be passably becoming!
The attraction of the queer is, however,
always sure to win a certain number.
You see, the hair is worn so heavily
matted about the head this season!
There are so many puffs and curls in ad-
dition to the ordinary head that the new
hats, to be really becoming, must be fit-
ted to the head of each individual, and
even be shaped for each one! Almost all
the milliners this season have to be pre-
pared to make the hat for each client.—
Harper's Bazaar.

The Minister's Announcement.

A gentleman in Durban made a pre-
sent of a beautiful baptismal font to a
church of which he was a member. As
the old font, which was situated at the
door, was in a pretty good state of pres-
ervation, it was decided to erect the new
gift at the other end of the church. One
Sunday morning, after the new font had
been put in in the allotted place, the
clergyman, from the pulpit, thanked the
generous benefactor for his kindness in
making such a handsome gift, and ended
by making the following startling an-
nouncement: "In future, children will
be baptized at both ends."—Technical
World Magazine.

Oh, For a Clear Complexion.

A clear complexion is the outward evi-
dence of inward cleanliness. In bad health
the face becomes a sign-board, telling of
disease within. If yellow, bile is not prop-
erly secreted; if pallid, the kidneys are
faulty; if skin is murky and dark circles
beath the eyes, look for constipation.
Whatever the cause no remedy compares
with Dr. Hamilton's Pills which are mild
and purifying and vitalizing in their action.
They give a marvelous rosy tint to the
cheeks, brighten the eyes and establish
health that defies age and disease. Sold
everywhere in 25c boxes.

Animals at Church.

Animals attend a church service in
Peru. Pigs, goats, cattle and poultry are
brought by their owners on All Souls'
Day, and the church is turned into a
domestic menagerie. The seats are re-
moved, and the animals can trot about or
lie down where they will. After the cere-
mony the live stock is formally handed
over to the monks, who receive little
other payment for their services.

THE CRICK IN THE BACK.

"One touch of
nature makes the whole world kin," sings
the poet. But what about the touch of
rheumatism and lumbago, which is so com-
mon now? There is no poetry in that
touch, for it renders life miserable. Yet
how delighted is the sense of relief when an
application of Dr. Thomas' Electric Oil
drives pain away. There is nothing equals
it.
