

DANGER PERIOD OF WOMAN'S LIFE FROM 45 to 50

Interesting Experience of Two
Women—Their Statements
Worth Reading.

White Oak, Ont.—"At Change of Life when doctors could do no more and I was given up by my friends, Lydia E. Pinkham's Vegetable Compound came to the front and did wonders for me. I had been having female troubles for years, my head troubled me severely at times, I had bearing down pains and backache and I was very anemic from excessive flowing. I recommend your Compound highly and do all I can to advertise it as a genuine woman's medicine."—Mrs. SYLVESTER MANNING, White Oak, Ontario.

The Case of Mrs. Kirlin.
Circleville, Ohio.—"I can truthfully say that I never had anything do me so much good during Change of Life as Lydia E. Pinkham's Vegetable Compound. 'Before I had taken one half a bottle of it I began to feel better, and I have continued taking it. My health is better than it has been for several years. If all women would take it they would escape untold pain and misery at this time of life.'—Mrs. ALICE KIRLIN, 358 W. Mill St., Circleville, Ohio.

The Change of Life is one of the most critical periods of a woman's existence. At such times women may rely upon Lydia E. Pinkham's Vegetable Compound.

NOTE AND COMMENT.

Calgary retail grocers may endeavor to eliminate the wholesaler and deal directly with the manufacturer. The matter was broached at a meeting of the Calgary Grocer's Association. The contention is made that the wholesalers' profits are extortionate, and that the retailer must bear the odium of separating the public from its money.

A potato war is on at Calgary between the farmers and merchants. Incensed at what they contend is discrimination against Alberta-grown potatoes in favor of the British Columbia product, a number of farmers have organized and opened a local market, shaving the price of tubers about one-third, as compared with the price asked by local merchants. The farmers are using space in the local newspapers and doing a rushing business.

The late Hon. David Davis once said: "Each year every local paper gives from \$100 to \$5,000 in free lines for the benefit of the community in which it is located. No other

agency can or will do this. The local editor, in proportion to his means, does more for his town than any other ten men, and in fairness man with man, ought to be supported, not because you happen to like him or admire his writings, but because a local paper is the best investment a community can make. It may not be brilliant or crowded with great thoughts, but financially it is more of a benefit to a community than a preacher or a teacher. Understand us now, we do not mean morally or intellectually, but financially, and yet on the moral question you will find the majority of local papers are on the right side of the question. To-day the editors of local papers do the most work for the least money of any people living."—Free Lance.

A writer in Rural New Yorker, in discussing the cause of lightning striking barns, says that a vacant barn is seldom struck by lightning, but a barn full of hot hay or grain is often struck. His theory is that the heat-rising from the barn full of new hay or grain makes the air light and offers a channel for the lightning to travel in. Dust particles, a current of moist air, or a current of hot air will afford such a channel. Moral—Throw open the barn doors to the end that the air inside and outside the barn may be uniform.

A proud man, in nine cases out of ten, has nothing to be proud about. The fellow who throws out his chest, and struts about, with a "do you know who I am" air is usually the product of money and impudence. "Do you know who I am?" Yes, and if some people would undertake to tell what you are and where you came from you would take the next train out of town if you had any sense of decency. You haven't far to look back to find where these upstarts who brag about their position come from and you needn't look far ahead to know where they will land. "A man's pride will bring him low, but honor shall uphold the humble in spirit." Put that down.

People who don't mind their own business bring more misery into families, societies and churches than everything else. They turn the pleasant, peaceful stream of good will into a loathsome pool; they intrude on grounds where angels would even fear to tread. Now, minding one's business is the very best remedy for the itching ears that are never satisfied with hearing and the busy tongue that hurries to speak cruel words. Minding your own business will turn your attention to self, and you will forget to watch so closely the shortcomings of others; it will make peaceful homes, happy neighbors, and quiet consciences; and you will be able to realize and more fully comprehend the truth spoken in holy writ, "Blessed are the Peacemakers."

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous services.

We will give One Hundred Dollars for any case of Deafness, (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Will Soon be a Thing of the Past.

Telegraph operators will only be serviceable as fiction heroes and their places in the railway and telegraph systems will be usurped by young and untrained girls if the newly introduced device which is at present under trial in the offices of the C.P.R. lives up to expectations. The new system is now in use on the C.P.R.'s Montreal and Toronto line. It is known as the Morkrum Automatic Telegraph, and the sending and receiving apparatus resembles nothing more closely than a typewriter. The sending operator presses the keys at Toronto, and the message is automatically transcribed in Montreal. English letters and words are used throughout. The

innovation in methods of telegraphy will achieve its most important results in the lowering of the wages of operators eighty dollars a month, girls will be engaged at thirty dollars who will be competent to handle the messages in future. The Morse code will be forgotten, and the services of a receiving operator will be dispensed with, as the message is automatically recorded at the receiving end. Thus, the operating staff will be numerically cut in two. If the present experiment proves a success, the system will be extended to include all the lines of the Canadian Pacific telegraph department.

County rate 2 mills, township rate 3 mills, drainage tax on roads 12 of a mill and the general school rate 2.01 mills.

The Russell drain by-law was finally passed and the Clark H. drain provisionally passed.

The Reeve and Mr. McIntyre were appointed commissioners on the Russell drain and Mr. Longhead was instructed to let about 50 rods of ditching on S.R. R. C. Lampman, H. Mosure, John Walker and Isaac Frayn were appointed weed inspectors.

Council adjourned to meet on Monday, 7th day of October at 10 a.m. as a Court of Revision on the Clark H. drain and for general business.

GEO. SUTHERLAND, Clerk.

A WONDERFUL DISCOVERY

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against blood poison! Not one species of microbe has been found that Zam-Buk will not kill!

Then again, As soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their pain. Mothers should never forget this.

Again, As soon as Zam-Buk is applied to a wound or to a diseased part of the skin, the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue FROM BELOW is Zam-Buk's secret of healing. The tissue thus formed is worked up the surface and literally casts off the diseased tissue above it. This is why Zam-Buk cures are permanent.

Only the other day Mr. Marsh, of 101 Delorimier Ave., Montreal, called on the Zam-Buk Co., and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. To-day—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema!

All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c. stamp (to pay return postage). Address Zam-Buk Co., Toronto.

Most of the shadows that cross our pathway through life are caused by our standing in our own way.

Common sense and a decent regard for the opinions and rights of others are mighty valuable assets. Few human beings are absolutely worthless. If they are good for nothing else they help to swell the census.

The man with a clear conscience generally has the satisfaction of knowing that he gets the worst of the deal.

It is sometimes said that Australia is larger than Canada. The area of Canada is 3,729,655 square miles, Australia 3,200,000.

The never-failing medicine, Holloway's Corn Cure, removes all kinds of corns, warts, etc., even the most difficult to remove cannot withstand this wonderful remedy.
