Advertisement for Brandram-Henderson paint. Text: "Most Economical We ever used. A boat like the Dalhousie City provides one of the hardest tests a white lead can be subjected to, because it is continually in a moisture-laden atmosphere. The letter reproduced below is conclusive evidence of the superior covering capacity of BRANDRAM'S GENUINE B. B. WHITE LEAD. In former years the Niagara, St. Catharines and Toronto Ry. Co. used a ton of ordinary white-lead to cover the hull of the Dalhousie City. This year they used Brandram's B. B. with the result that only 1,500 lbs. was required. The other qualities of this white lead are equally outstanding. In brilliance and durability, it is unrivalled. It fills the pores, and makes a tough elastic film that will not crack or peel either in warm weather or in cold. It is slightly higher in price than most ordinary white leads. Do not just ask for Brandram's B. B. insist on it. Especially worth insisting on are our brands of Paints, Varnishes, Ship's Stains and Wood Fillers, and other specialties available throughout the Empire.
