

Just Another Evidence of the Superiority of
TRAYLOR
HEAVY DUTY CRUSHING EQUIPMENT

The Hydro-Electric Power Commission of Ontario Purchased
A TRAYLOR 60 in. x 86 in. "GIANT" JAW CRUSHER

BECAUSE

They're built on honor, of the highest quality of cast steel throughout, properly annealed. Have water-cooled pitman and pitman shaft bearings, manganese steel toggle seats, quick-acting Wedge type adjustment for regulating the opening between the jaws, and a box type sectional frame as illustrated.

COMBINED

with the perfect lubricating system, makes for that heavy duty service which they demanded of their crushing equipment.

Bulletins J-1 and R-1 are worth while.
