1. The Essays to be given into the Secretary of the Professors' Court, on or before the first day of November.
2. The days of Examination to be specified at the opening of the College in October.
3. The Essays must be correctly and legibly written, with mottoes on the title pages, instead of the names of the authors.
4. Brevity, when consistent with completeness in the particular treatise, perspicuity of style and appropriateness of illustration, will be esteemed an additional excellence. No Essay to occupy more than forty minutes in reading.
5. A student who may have obtained Bursaries Nos. 5, 7, 12, in any former Session, cannot obtain the corresponding Bursary a second time; though he may compete for it, and if deserving of it, his merit will be noticed.
6. Should the same student be successful in competing for more than one Bursary, his name will be mentioned first in the public statements, but not more than one Bursary will be assigned to him.

BELLS!

FOR Churches, Academies, Factories, Steamboats, etc., made, and a large assortment kept constantly on hand by the Subscribers, at their old established, and enlarged Foundry, which has been in operation for Thirty Years, and whose patterns and process of manufacture so perfected, that their Bells have a world wide celebrity for volume of sound and quality of tone. The present Proprietors have recently succeeded in applying the process of loam moulding in Iron cases to Bell Casting—which secures a perfect casting and even temper; and as an evidence of the unimpaired excellence of their Bells, they have just received—Jan. 1854—the FIRST PREMIUM (A Silver Medal) of the WORLD'S FAIR in New York, over all others, several from this Country and Europe being in Competition; and which is the 18th Medal besides many Diplomas, that has been awarded them. They have patterns for, and keep on hand, Bells of a variety of tones of the same weight, and they also furnish to order CHIMES of any number of Bells, or key, and can refer to several of their make throughout the States and Canadas. Their Hangings, comprising many recent and valuable improvements, consist of Cast Iron Yoke, with moveable arms, and which may be turned on the Bell; Spring acting on the Clapper, prolonging the Sound; Iron Frame; Tolling Hammer; Counterpoise; Stop; etc. For Steamboats, Steamships, etc., their improved revolving Yoke, or Fancy Hangings in Brass or Bronze of any design furnished. We can supply whole sets, or parts, of our Improved Hangings, to rehang Bells of other construction, upon proper specifications being given. Old bells taken in exchange.

Surveyor's Instruments of all descriptions, made, and kept on hand.
