

with us all season. There were a few mild days about the time of their appearance, and it seemed as if they had come from the south.

(April 1, 1892.) Purple finches are still with us, and seem to be much driven to get a supply of food. They are to be seen even on the roads, picking up anything that they can find.

Kingston, Ont.

C. K. CLARKE, M.D.

*Accipiter cooperi*.—Mr. Spanner informs me that he has received two specimens of Cooper's Hawk. One was shot on September 18th at Scarboro', and the other on October 4th at Ashbridge's Bay. These were mature birds.

HUBERT H. BROWN.

*Phalacrocorax carbo*—Blac'. Cormorant.—A specimen was shot on the Rouge River, in the Township of Pickering, in November, 1888, by Mr. Silverthorn, the village blacksmith. The bird was handed to Mr. Swallow, taxidermist, of Pickering Village, who mounted it and held for sale for some time. He may have it still.

Port Union.

THOMAS CHESTER.

*Cathartes aura*—Turkey Buzzard.—One shot near Brougham, Township of Pickering, in the summer of 1887. It was sent to Mr. Swallow, of Pickering Village, who mounted it, and it may still be in his possession.

Port Union.

THOMAS CHESTER.
