Clean the harness. Unbuckle all the parts and wash well with soft water. Turpentine or benzine will remove gummy substances. Warm the leather and then oil well with a paint brush or swab. Neat's-foot oil is the best. Hang the harness up to dry.

Many persons who would like to have hay for their stock have no land set in grass fit for mowing. Sow millet. The best variety for this purpose is what is known as Hungarian grass. The ground for this crop should be naturally good, or very heavily manured. It should be naturally good, of very heavily manured. It should be nicely prepared. Sow one-half bushel of seed per acre, and cover by passing a roller over it. If the season is favorable, from one and a half to two and a half tons of good hay may be cut from an acre.

CARE OF PIGS IN WINTER .- Pigs need the best of care in winter. If neglected and exposed, they become stunted, and will never get over the set back, they need dry, clean and warm sleeping quarters. They should have the run of a large lot quarters. They should have the the of a large loc or pasture. The best place for pigs or bogs to run is, in the woods. They keep healthier there than anywhere else. They should be supplied with plenty of good feed. Corn is in the food that is commonly given them in the west, but other kinds of food should also be given them to keep them in health. Slops should be fed them, such as shorts, mixed with the swill or with water. Boiled potatoes and turnips are relished by them. Pumpkins and winter squashes are excellent feed for them, cooked or uncooked. A change from raw to boiled corn is desirable occasionally. Variety of food should be given, as much as it consistently can be. If male pigs are intended for breeding purposes, they should be separated from the balance, and always be kept in pens and lots by themselves, if large growth is desired.

How LONG TO KEEP CREAM .-- Cream should not be kept over two days or forty-eight hours. If kept longer its flavor will be hurt. Three days will show it; and the fourth, it will be spoiled. After that, good butter cannot be made from the cream, however carefully it may have been kept, however cool, and however pure the air and the milk from which it is made. It will be unfit to use with coffee, or for cooking purposes, if a dainty dish is required. Neglect, then, is a prominent cause of bad cream. The remedy is the simplest in the worlduse it sooner. We have drawn cream by excluding the air from the milk while drawing; by keeping it constantly in fresh air—it is all the same: the third day the cream loses its richnese, and sweet rich taste; the fourth day there is a rankness and bitter taste which spoils it. In a higher temperature this effect is more speedily obtained, the decomposition being more active. Now, cream in winter is seldom kept less than three or four days, and usually longer. Of course good butter cannot be made from such cream. To add to this, there are the odors of the room in winter which escape from cooking, among which the onion flavor is not unfrequently detected in the butter, as well as smoky taste which is imbibed from the room. Also the foul gases of the breath, with other odors that gather in an appartment occupied by the family where the milk generally is kept as well as the cream. Hence the butter usually made in winter, is a white, tough, bad tasting article, not fit to use and unhealthy. Cream churned when forty-eight hours old, or, better, thirty-six, will not only escape the taint from long standing, but will also take up less of the odors of the room, and so, by simply changing the time a little (churning or using the cream a little sconer), a much better article of butter is secured, and you will have a palatable cream for your coffee and for cooking purposes .---F G. DR. M'LANE'S CELEBRATED LIVER PILLS,

FOR THE CURE OF

Hepatitis or Liver Complaint, OYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

DAIN in the right side, under the edge of the ribs, increases on pressure; somemes the pain is in the left side; the paient is rarely able to lie on the left side; sometimes the pain is felt under the shoul. ier blade, and it frequently extends to the :op of the shoulder, and is sometimes mis-:aken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the nead is troubled with pain, accompanied with a dull, heavy sensation in the back cart. There is generally a considerable loss of memory, accompanied with a pain. ful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendar The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a or ckly sensation of the skin; his spirits re low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it in fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. M'LANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, oreparatory to, or after taking Quinine. We would advise all who are afflicted with his disease to give them A FAIR TRIAL.

This Sarsaparilla is a combination of vegetable alteratives - Stillingia, Man-drake, Yellow Dock - with the Iodides of Potassium and Iron, and is the most efficacious medicine yet known for the diseases it is intended to cure.

Its ingredients are so skilfully combined, that the full alterative effect of each is assured, and while it is so mild as to be harmless even to children, it is still so effectual as to purge out from the system those impurities and corruptions which develop into loathsome disease.

The reputation it enjoys is derived from its cures, and the confidence which prominent physicians all over the country repose in it, provo their experience of its usefulness.

Certificates attesting its virtues have accumulated, and are constantly being received, and as many of these cases are publicly known, they furnish convincing evidence of the superiority of this Sarsaparilla over every other alterative medicine. So generally is its superiority to any other medicine known, that we need do no more than to assure the public that the best qualities it has ever possessed are strictly maintained.

ANOTHER REMAREABLE CURE OF EPILEPSY; OR, FALLING FITS,

BY HANCE'S EPILEFTIC PILLS.

BY HANCE'S EPILEFTIC PILLS: Movrowrey, Texns, June 20th, 1807. To SETH 5, HANCE'S person in my employ had been afficied with Fits, or Epilepsy, for thirteen years; he had those attacks at intorvals of two to four wocks, and often-tilles soveral in quick succession, sometimer continuing for two or three days. On several occasions they insted until his mind appeared toulity derauged, in which state he would continue for a day or two affer the fits censed. I tried several remedies prescribed by our rosident phy-sicians, but without success. Having seen your adver-tiscment I concluded to try your remedie. I obtained two as stout, healthy man, about 50 years of age, and has not had a fit since the commenced taking your inculcion, is now since that time, been expanded to he severest of wentice. I have great confidence in your remediy, and would like every one who has fits to give it a trial.

STILL ANOTHER CURE.

Read the following testimonial from a respectable citizen of Grenada, Mississippi.

titizen of Greunda, Mississippi. Serri S. HANGE, Baltimore, Mi. -Dear Sirg, I take great pleasure in relating a case of Spassus, or Fits, curad by your invaluable Pills. My brother, J. J. Ligon, has lear been afflicted with this award disease. He was first at-tacked while quite young. He would have one or two spasms at one attack at first, but as he grew older they seemed to increase. Up to the time he commenced taking your Pills he had them very often and quite severe pros-trating him, body and mind. His mind had suffered seri-ously, but new, I am happy to say, he is cured of those fits. He has onjeyed fine health for the last five mouths. His mind has also returned to its original brightness. All this I take great pleasure in communicating as it may be the means of directing others to the remedy that will cure them. Yours, respectfully, etc., W. P. Ligox.
