THE TRUE WITNESS AND CATHOLIC CHRONICLE.

MAPITAL AND LABOUR.

pital is simply the savings of previous labour and is useful in sustaining present and future labour.

Capital, therefore, is produced by labour. Labour is simply tollsome work, which is generally performed under the direction of bosses or task-masters, and is rewarded by drafts on the fruits of previous labour or Capital. Labour, therefore, is sustained by Capital. Capital and Labour are inter-dependents.

The custodians of Capital may abuse their position and grind the faces of labourers; and, labourers may form trades-unions and organize strikes; but, labour and capital will not quarrel any more than a man will quarrel with his meals. Cheapside be lieves in paying labour handsomely, as no country can be prosperous without well paid labourers.

SURSUM CORDA!

Our hearts are ever restless, They yearn while here we live, For something brighter, nobler Than this poor world can give.

For life's best joys are transient, Borne on Time's rapid stream They fly ere we can grasp them, And vanish like a dream.

The fairest summer flowers That once their fragrance shed, By winter's breath are withered, And all their beauty fled.

Thus man who seeks contentment In this vain world of ours, Soon find that all its pleasures Will fade like summer flowers.

Oh! ye-who once have tasted Of Pleasure's sparkling wine; And trained gay, rosy garlands, And bowed at Pleasure's shrine—

Behold the goblet broken And gladness changed to gloom; Behold those roses withered— Memorials of the tomb.

Oh! Honor, Wealth and Pleasure!

The choicest gifts of earth.

That last a few brief moments. At death, what are ye worth? Our souls that are immortal

For nobler joys were made;

They find no rest in pleasures That blossom but to fade. While here on earth we journey, Oh, let us look above! Our only home is Heaven.

And God our choicest love. M. S. B.

Quebec, Nov. 21st 1877.

ST. PATRICK'S CHURCH, MONTREAL

Last Wednesday night, says a contemporary, witnessed the closing of the mission held in the St. Patrick's Church during the past month from day to day by the Redemptorist Fathers. The church was crowded, four thousand persons being present A beautiful shrine of the Blessed Virgin had been erected in front of the large altar, with a statue of the Mother of Jesus on the top of it. It was tastefully decorated with flowers and colored lights, and a baptismal font was also placed near St, Joseph's altar, to remember the vows which had been taken at baptism. Father Miller first entered the pulpit and announced that there would be no instructions. He stated that the Bazaar in aid of the orphans was postponed until the 13th of December, and exhorted the congregation to aid this institution, and also the home for the aged and infirm, as much as it was in their power. The Rosary was then said by the congregation, after which a sermon was preached by the Rev. Father Henning, who took for his text," What shall I render unto the Lord for all things that he hath rendered unto me? I will pay my vows to the Lord in the sight of all his people." The Revered gentleman stated that words like these should escape the lips of his hearers to-night when they look back on this mission and saw what good had been done for them during the holy time. Virtue had received a powerful impulse, a check had been put upon vice, and the light of plety had been forced through the congregation. Well might they say as the prophet David had said, "What shall I render unto my Lord for all the things that He listh rendered unto me?" and they must answer as he had answered, "I will pay my vows to the Lord in the sight of all His people." The only way in which they could show their gratitude would be to renew that compact which they made on the day of their baptism by returning to their first love. By doing this they give Him their en-tire soul, and, oh! to renew their baptismal vows it must not have been an empty ceremony. The reverend gentleman then went on to explain the great graces which were conferred on them at baptism, when the priest said "I baptise thee in the name of the Father, Son and Holy Ghost." In these three words were contained all the graces of baptism. They were made children of God, and it was to Him they owed all the powers which they possessed. God was their Father, for it was He who watched their interests. It was He who provided them with food and with our clothing, and all that was necessarry for the support of their body. "I baptize you in the name of the Son," was the second grace which they received by the Sacrament of Baptism. By Baptism they were made brothers of Christ. "I baptize you in the name of the Holy Ghost." In this was the third grace which was received by Baptism. They were made temples of the Holy Ghost, and by this they were made children of the Holy Catholic Church. Was not that a great blessing? They were born of Catholic fathers and mothers, and Catholic tuition was given them by the priests, and because God had decreed this they knew who their God is, and who Jesus Christ is, and the value of the sacrament, but look around and say what they see. They will see thousands of men and women, many good men, upright men and many with good bearts, but yet they are driven hither and thither with many doctrines. To-day they will be one thing and to-morrow another. They have no one directing their mizds-no one to tell them what was true and what was not true. After the reverend gentleman had explained the graces received at Baptism, but He did not give them for nothing,-He required a fulfilment of certain obligations in return, which were the belief in the Holy Trinity, the Holy Catholic Church, and the renouncing of the devil and all his works and pomps. He went on to say that any doubt against their religion must be at once banished from their minds, banished as if it was an impure thought, and if they did not do it would soon lead them to become cold in their faith; they would soon become apostates, and that it was wrong to say, as some Catholics say, it makes no difference whether he is Catholic or not, provided he is a good man; no Catholic can say this, if he says so he gives scandal to those who know better; in other words, their lives must correspond with their faith, they must avoid the reading of infidel and heretical books, and substitute good Catholic books, and fathers must not allow their daughters to keep company with Protestants, because they might lead to mixed marriages, and thus often lead to apostacy. Falling back from their faith prevented many from entering the Kingdom of Heaven. They were not allowed to go to a Protestant minister to have the marriage ceremony performed, as all these were acts contrary and against the yows they had taken at Baptism. When they were baptized they promised the priest another obligation—that they would renounce the devil, his works and pomps. The works of the devil are the works of sin; when they neglected their prayers they performed services for the devil when they wilfully miss Mass on Sundays and holi days they were performing work for the devil; when they gave way to impure thoughts and desires; when they ate meat on fast days, or steal, they were performing the work of the devil. When they said

their parents and superiors, then they were doing

CO O GIVERNAMENT O

proclaim to the whole world that they were Cathtry to save their immortal soul. It was a very imraise their right hands towards heaven and make a renewal of their baptismal vows. The Delegate Apostolic, Rt. Rev. Dr. Conroy, then gave the benediction, assisted by the Rev. Father Lonergan and Rev Father Gilligan. After the benediction was finished numbers of men gathered around the communion rail, and one of the Redemptorist Fathers blessed their different articles of devotion. --Gazeite.

CARD.

The Executors of the Estate late Michael Ronsyne have much pleasure in thanking the New York Life Insurance Company for the prompt and satisfactorily manner in which their claims were settled; the able Assistant Manager, Mr. P. C. Warren, being particularly deserving of recogni-tion for his courteous and obliging assistance on said occasion.

CANADIAN ITEMS.

LAVAL UNIVERSITY .- The preliminariese have been arranged for the opening in Montreal of a branch of the Laval University of this city.

ALMOST COMPLETED.—A correspondent of the Borderer says the Catholic Church at Moncton is about finished, and has the finest front of any building in the place.

ERIN GO BRAGE.-Shamrocks growing out doors, and bearing the appearance of having just sprung out, are the latest evidence of open fall weather in the vicinity of Quebec.

MILITIA DRESS REGULATIONS. - Mr. Harcourt. Toronto, has reprinted in convenient pamphlet form the Canada Gazette, the dress regulations for officers of the milita, which will be of service to those for whose information they were issued.

St. Mary's Church, Lindsay -Last Sunday week, on presenting a statement of the financial affairs of the parish and discussing plans for the future, Rev. Father Stafford stated that during the last twelve months the debt on the church had been reduced \$7,646. The next four years have been fixed for the clearing off the balance of the indebtedness, when it is proposee to take up some necessary work—such as the enlargement of the church, putting up a spire, a new bell, an organ, and various other things required. Some necessary improvements to the schools will also be made. The parish has undertaken heavy responsibilities but the members have cheerfully and liberally contributed to carry on the work which has made it one of the model parishes of the Province.

FREEDOM IN THE EXERCISEOF RELIGIOUS CONVICTIONS. -Rev. Father Tomazin, a Catholic priest who, since 1865, has been performing missionary labors among the Chippewa Indians of the Upper Mississippi, has addressed a long letter to Secretary Schurz, com plaining of the indignities and persecutions inflicted on him by government agents. By the order of Edward C. Kemble, Indian Inspector, the Rev. gentleman was, in September last, expelled from the scene of his missionary labors on a trumped up charge. In concluding his able letter, Father Tomazin, makes the not unreasonable demand that this government in fact, as well as in profession, will guarantee and secure to all, absolute freedom in the exercise of their religious convictions in all portions of our common country.— Weekly Visitor.

PRIESTS AND NUNS FOR SIOUX INDIANS.—The request of the Sioux Indians to be allowed priests and nuns as their spiritual instructors, a late account states, is about to be complied with. It is understood that the Benedictine Fathers with lay-brothers and sisters of that order are to be allowed to establish missions at the Red Cloud and Spotted Tail agencies. This is a step in the right direction; and it is to be hoped that the administration will respect the rights of conscience in their dealings with the Indians of every reservation. In this the law, it is monstrous that the "wards of the nation" who have been christianized by Catholic missionaries should be deprived of the "black gowns" whom they love and respect and handed over to ministers of Protestant sects whose teaching they detest.-Weekly Visitor.

WINTER ARRANGEMENTS OF OCEAN STEAMERS .- It would appear that, from differences of views as to their arrangements with the Grand Trung Railway, the Messrs. Allen have arranged to send their steamers to Baltimore rather than to Portland during the winter, while the Grand Trunnk has contracted with the Dominion and Beaver lines of steamers to take the freight carried by the road to Portland. It is to be regretted that a line which has been so successful and so deserving of success should withdraw from the carrying trade from Portland during winter, but it is to be presumed at the same time that both parties know what is most for their interests in the premises. The Canadian mails and whatever cargo or passengers may be offered will be landed by the Allan steamers at Halifax, and pass up by the intercolnial, while those who prefer to go directly to Portland will still be able to do so by the other steamers, and the additional patronage giving to these new lines will stimulate them to great efforts to retain and extend their busisness connections. There is also the alternative, for both freight and passenger, of going by New York, which is no more a foreign port than Portland.

THE CANADIAN TROPHY AT PARIS, -An official telegram from the Colonial Office, London, was received on Saturday evening, stating that the design of Mr. Scott, Chief Architect for the Canadian Trophy to be erected in one of the towers of the Exhibition Building at Paris has been approved of and is much admired. The construction of the Trophy will now be proceeded with. The frame alone will be prepared here, but all the materials for completing it will also be sent. The whole will be shipped from Halifax by the steamer Newfield. The trophy is formed of wood framework divided into five stages and will reach a height of about 100 feet, the first or lower stage (occupying a square of 900 superficial feet) is planned with a central tower 10 feet square, with arms jutting out of the angles, terminating in octagonal glazed cases formed of walnut and other Canadian woods. These cases will be for the exhibition of small articles of manafacture. Openings on each side of tower lend to circular staircase for access to the floors above. The second stage, 16 feet 6 in from ground is formed by a gallery projecting 9 feet from tower. The angles follow the outline of octagonal cases below, and have a further projection of two feet, in the centre of each angle gallery will be a small square case similar to those below surmounted by a small cupols roof. The tower portion will have four tiers of shelfing on three sides. The third story has a gallery projecting 4 ft. 6 in. from the tower at a height of 32 ft. 6 in. from the floor, and is supported by ornamental brackets secured to the same, The fourth stage will have a similar gallery some their parents and auperiors, then they were doing God's work and not the devil's. The pomps of the what smaller, and the last stage is formed by devil are the vanities of the world,—these vanities, cool in two heights and pannels between with which have cost and still cost so many their immunities on large letters on each side. The whole moital soil.—The reversal gentleman their went on to say how many man had bartered their souls and their religion to obtain riches and high places.

in society, and concluded his sermon by asking the complete description of the Trophy as it will appear at the exibition, but the following articles have been provided for: Cananian wild flowers] olics; that they were Catholics in word, thought exhibits of wheels, gas fittings, and such small and action, and that they would live in the Church, articles as do not need to be covered, around the die in the Church, and in the Church they would front of the gallery. The shelving upon the second tree to save their immertal soul. It was a very im stage will be occupied by geological specimens pressive sight to see those four thousand persons and such agricultural produce as may be contained stand with lighted tapers in their left hands and in bottles. Festoons of rone &c. are to he hand in bottles. Festoons of rope, &c., are to be hung from the gallery above. The third stage will be devoted to lumbermen's tools and agricultural implements, fittingly placed around the tower. Over the doorway on each side of the tower four fine specimens of moose and elk heads will be placed, Suspended from the gallery above are to be some good specimens of Indian canoes, and in the centre of each side of the gallery, some good grooping of fishing nets, spears, lacrosse, paddles, buffalo vobes, and Indian work. Four large buffalo heads will surmount the doorways and larger kinds of corn brooms and miscellaneous articles will decorate the sides of the tower. The roofing will exibit specimens of Canadian slates and shingles,—Ollawa Free Press.

OUR RETAIL ESTABLISHMENTS. THE EXTENSIVE CLOTHING HOUSE OF

J. G. KENNEDY & CO.

It has been the aim of the Commercial Review, in the exhibits we have made of the various branches of industry with which our city abounds, to mention only those establishment that can be fairly called representatives of their trade. And while as a general rule we have taken only those which do wholsale business, we have not overlooked those in the retail trade which, from the magnitude of their operations, deserve especial mention. Within the last few years a great change has taken place in the clothing trade. Ready-made goods are now produced in as fine fabrics and as good styles and make as are the most of custom-made snits. In fact there are many of our best citizens who buy ready-made clothing entirely, and none of their acquaintances are aware that their stylish suit do not come from a fashionable tailor. Especially has this feature of the trade been apparent during the hard times and when economy was a necessity. The most extensive retail clothing house in this city is that of Messrs. J. G. Kennedy & Co., No. 31 St. Lawrence st. We had the pleasure of visiting this establishment a few days since, and we can safely assert that a larger finer or more stylish stock of clothing would be hard to find. The building occupied by them is four stories in height and is filled to repletion with every class of goods in the clothing line, comprising men's boys', and youths' ready-made clothing in every variety, Canadian and Scotch tweeds, cassimeres, doeskins, &c. On the first floor is the stock of over coats, suits, &c., in the latest styics and makes, and sold at prices to suit the most exacting. Indeed it would be difficult to find a customer who could not be suited in his department. The measuring and culting department is also on this floor. Here the finest custom-made clothing can be obtained at minimum prices. The 3rd and 4th floors are devoted to clothing of every description. They carry at all times a fine stock of tweeds, broadcloths, &c, &c., in bales. Their clothing for excellence of quality and first class work manship and finish cannot be surpassed. We commend any of our readers who really want superior, well fitting, stylish, and durable custom or ready-made garments at bottom prices to pay this house a visit they are sure to be suited by going to this fine stablishment.

Epps's Cocoa,—Grateful and Comporting.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bitls. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resistst every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame "-Civil Service Gazette. Sold only in Packets labelled-"JAMES Epps & Co., Homoresthic Chemists, 48. Threedneedle Street, and 170 Piccadilly, London."

DIED.

FITZGERALD .- At Frampton on the 8th inst., of consumption, Mary, daughter of Micheal Fitzgerald, Esq., and beloved wife of Victor LeCroix. Fortified by all the succours which the Church gives her children, she departed calm and resigned, leaving five young children and a large circle of friends to lament her loss. May she rest in peace. San Francisco Moniter please copy.
