

Tires

A wheel like a man to stand the wear and strain of travel must be well shod. A wheel to be well shod must be fitted with Tires of sterling worth—Tires that have been put to the severest tests known to modern methods to ensure their stability; Tires that are made of superior stock, and that at every stage of their manufacture have passed through only expert hands; Tires that are at once strong, light and easy running

Such are the Hartford Single Tube and the Vim Pebble Tread

Back of this assertion stands our guarantee to make good either of these two Tires which proves defective. If you have a puncture, our repairers are at your service, with no cost to you.
