

Funding

The Japan Science and Technology Fund provides up to 50 per cent support for eligible expenditures within approved activities. University applicants may be eligible for up to 75 per cent support. Maximum contributions for individual joint projects are \$350 000. Researchers approved for language training will receive funding for up to nine weeks' full-time intensive language training (or the equivalent).

Eligible expenditures

All direct costs related to the collaboration are eligible expenditures *with the following limitations*:

1. Equipment costs may be pro-rated on the basis of useful life and potential other uses.
2. Not covered are overhead or indirect costs, including building costs, legal and management fees and university and government researcher salaries (salaries for industry researchers may be included as eligible expenditures).
