

JACKSONVILLE INTERNATIONAL AIRPORT

AIRPORT ASSESSMENT

Passenger enplanements for the calendar year 1991 were 1,268,937.

The Jacksonville International Airport had a total of 147,910 operations in 1991. This includes:

- 44,250 air carrier operations
- 29,743 air taxi operations
- 52,336 general aviation operations
- 21,581 military operations

The airport just completed a major \$101 million terminal expansion and renovation. They have also completed their master plan and all major construction for 1992; however, the airport is planning to reconstruct 8,000 ft of runway 07/25 and add 2,000 ft. to its length. This project is out for bid and ground breaking is expected in early 1993.

The Aviation System Plan Steering Committee for the Northeast Florida metropolitan area recommended the following:

- 1) Develop a runway parallel to 07/25 as shown on Jacksonville International's master plan to alleviate congestion.
- 2) Explore the feasibility of reconfiguring the Jacksonville airport radar service area (ARSA), including altitude changes and extending shelves or floors, to maximize traffic handling efficiency in Northeast Florida.

AIRPORT AUTHORITY

Jacksonville Port Authority

Address: P.O. Box 3005
Jacksonville, Florida 32206
