Summary	I
Research Methodology	III
1. Introduction	
1.1 General Background	1
1.2 EGAT	1
1.3 PEA	3
1.4 MEA	3
2. Government Policy under the Sixth Five Year NESDP	
2.1 Direction for Energy Development	4
2.2 Target	5
2.3 Actions to be Taken	6
2.3.1 Petroleum exploration and development	6
2.3.2 Lessen dependency on limited oil producers	6
2.3.3 Exploration and development of lignite	6
2.3.4 Exploration and development of water resource for electricity generation	7
2.3.5 Energy pricing	7
2.3.6 Energy saving policy	8
2.3.7 Increasing the capability of refinery and oil import	8
2.3.8 Promotion of the research development, manufacturing and utilization of the non-conventional energy	8
2.3.9 Promotion of the production and utilization of suitable energy forms in rural areas	8
2.3.10 Energy management and roles of government and private sector in energy development	8
2.3.11 Investment policy	9
3. EGAT's Power Generation and Transmission	
3.1 Background	11
3.2 Power Generation Projects	13
