

A. R. C. SELWYN, Esq., LL.D., F.R.S., &c.,

*Director of the Geological and Natural History Survey of Canada.*

SIR,

I beg to submit herewith a report of geological investigations made, in accordance with your instructions, chiefly during the summer of 1884, in portions of northern and western New Brunswick.

In addition to my own observations, the report embraces those of my assistants, Mr. Wm. McInnes and Mr. J. W. Bailey, who have also constructed the accompanying map. In this map an attempt has been made to represent the orographic as well as the geological features. It forms Sheet No. 2 S. W. of the general geological map of the province. My acknowledgements are again due to the manager of the New Brunswick Railway Company for facilities afforded both to myself and my assistants; as well as to the officers of the Crown Lands Department in Fredericton.

I have the honour to be,

Sir,

Your obedient servant,

L. W. BAILEY.

FREDERICTON, January 11, 1886.
