

'ST. ALBANS' DUNCAN

Rev. Mr. Brown of Clarksburg held services in an old log meeting house, every alternate Thursday evening. This was continued by Rev. H. Wylie and Mr. E. Rorke. After these had dropped for some time, the work was revived by Rev. Mr. Jennings, and the same Clergy and students labored in this district as at Heathcote. The first confirmation was held by Bishop Baldwin in 1895. During the incumbency of Mr. Hale, St. Albans' Church was begun and was finished in February 1905. This beautiful Church is a lasting monument to the devotion of the Church people of the district.

ST. STEPHEN'S CHURCH, BANKS

St. Stephen's Church Banks is given a service every Thursday evening by Rev. W. H. Roberts. I am sorry I have not at hand the dates which tell the Romantic story of the beginning of Church work in this mission. From this short account it will be perceived that Rev. W. H. Roberts has an enthusiastic and united parish to push forward the work of the kingdom in the days to come. Lack of space prevents me from telling of the work already mooted and taken in hand such as building of a new chancel and placing a foundation under St. Augustine's Church, Heathcote and enclosing of driving shed at St. James, Fairmount.
